maps how the kabbalist's desire to recover Eden transforms into a latent messianic drive only intuitable through text. Thus it charts a journey of sorts: a migration of Jewish mystical material embedded surreptitiously within text in order to shift ever so slightly at times the range of the literary to encompass an aesthetic vision not easily reducible to the literal, the known, the allegorical or even the philosophical. In this way Kabbalah and Literature proposes a novel intuitive approach shifting focus away from the Jewish text's epistemological elements to embrace its secrets.

History, Hagiography and Biblical Exegesis Jennifer O'Reilly, 2019-05-31 When she died in 2016 Dr Jennifer O'Reilly left behind a body of published and unpublished work in three areas of medieval studies: the iconography of the Gospel Books produced in early medieval Ireland and Anglo-Saxon England; the writings of Bede and his older Irish contemporary Adomnán of Iona; and the early lives of Thomas Becket. In these three areas she explored the connections between historical texts, artistic images, and biblical exegesis. This volume is a collection of 16 essays, old and new, relating history and exegesis in the writings of Bede and Adomnán and in the lives of Thomas Becket. The first part consists of seven studies of Bede's writings, notably his biblical commentaries and his *Ecclesiastical History*. Two of the essays are published here for the first time. The five studies in the second part devoted to Adomnán discuss his life of Saint Columba, the *Vita Columbae*, and his guide to the Holy Places, *De locis sanctis*. One essay, 'The Bible as Map', published posthumously, compares his presentation of a major theme, the earthly and heavenly Jerusalem, with the approach adopted by Bede. The third section consists of two essays on the lives of Thomas Becket that were composed shortly after his death. They examine, in the context of patristic exegesis, the biblical images invoked in the texts in order to show how the saint's biographers understood the complex relationship between hagiography and history. With the exception of the Jarrow Lecture on Bede and the essays on Becket, the studies in both parts were published originally in edited books, some of them now hard to come by. CS1078

Israel and the Daughters of the Shoah Ronit Lentin, 2000-10-01 The murder of a third of Europe's Jews by the Nazis is unquestionably the worst catastrophe in the history of contemporary Judaism and a formative event in the history of Zionism and the State of Israel. Understandably, therefore, the Shoah, written about, analyzed, and given various political interpretations, has shaped public discourse in the history of the State of Israel. The key element of Shoah in the Israeli context is victimhood, and as such it has become a source of shame shrouded in silence and subordinated to the dominant discourse which resulted from the construction of a new Hebrew active subjectivity. Taught the postwar generation of Israelis to reject diaspora Jewry and its alleged passivity in the face of catastrophe, this book is the culmination of years of preoccupation with the meaning of the Shoah for the author, an Israeli woman with a split subjectivity: that of a daughter of a family of Shoah survivors and that of a daughter of the first Israeli

born generation the culmination of her need to break the silence about the Shoah in a society which constructed itself as the Israeli antithesis to diaspora Jewry and to excavate a truth from underneath the mountain of Zionist nation building myths These myths the author argues not only had deep implication for the formation of her generation but also a profound impact on the Israeli Palestinian conflict Moreover they are shot through with images of the masculine Israeli contrasted with those of the weak passive non virile Jewish Other of the diaspora This book offers the first gendered analysis of Israeli society and the Shoah The author employs personal narratives of nine Israeli daughters of Shoah survivors writers and film makers and a feminist re reading of official and unofficial Israeli and Zionist discourses to explore the ways in which the relationship between Israel and the Shoah has been gendered in that the Shoah was feminized while Israel was masculinized This new perspective has considerable implications for the analysis of Israeli society a gendered analysis of Israeli construction of nation reveals how the Shoah and Shoah discourse are exploited to justify Israel's i e the new Hebrew's self perceived right of occupation Israel thus not only negated the Jewish diaspora but also stigmatized and feminized Shoah victims and survivors all the while employing Shoah discourses as an excuse for occupation both in the past and in the present
