Hegel and Whitehead George R. Lucas, 1986-01-01 Hegel and Whitehead presents a careful exploration of the similarities between these two formidable representatives of systematic philosophy Some of the most distinguished scholars in European and American philosophy converge herein to explore the similarities in Hegel's and Whitehead's contemporary influence as well as in the content of their respective systems and in their philosophical styles This volume begins with important critical comparative and historical assessments of the contemporary problems in metaphysics philosophy of science philosophy of mind ethics social thought and philosophy of religion of history and of culture against the background of the important contributions made to these discussions by both Hegel and Whitehead The result is a collection of vigorous new essays in systematic philosophy that reflect the enduring contributions of these two philosophers to the contemporary philosophical climate on two continents

Robert R. Williams, 2012-09-27 Hegel and Nietzsche are two of the most important figures in philosophy and religion Robert R Williams challenges the view that they are mutually exclusive He identifies four areas of convergence First Hegel and Nietzsche express and define modern interest in tragedy as a philosophical topic Each seeks to correct the traditional philosophical and theological suppression of a tragic view of existence This suppression of the tragic is required by the moral vision of the world both in the tradition and in Kant's practical philosophy and its postulates For both Hegel and Nietzsche the moral vision of the world is a projection of spurious life negating values that Nietzsche calls the ascetic ideal and that Hegel identifies as the spurious infinite The moral God is the enforcer of morality Second while acknowledging a tragic dimension of existence Hegel and Nietzsche nevertheless affirm that existence is good in spite of suffering Both affirm a vision of human freedom as open to otherness and requiring recognition and community Struggle and contestation have affirmative significance for both Third while the moral God is dead this does not put an end to the God question Theology must incorporate the death of God as its own theme The union of God and death expressing divine love is for Hegel the basic speculative intuition This implies a dipolar panentheistic concept of a tragic suffering God who risks loves and reconciles Fourth Williams argues that both Hegel and Nietzsche pursue theodicy not as a justification of the moral God but rather as a question of the meaningfulness and goodness of existence despite nihilism and despite tragic conflict and suffering The inseparability of divine love and anguish means that reconciliation is no conflict free harmony but includes a paradoxical tragic dissonance reconciliation is a disquieted bliss in disaster

Sherman,1999-05-27 Offering a new translation of the famous chapter IV Self Consciousness of Phenomenology of Spirit this  
book reflects the far reaching insights of contemporary Hegelian scholarship Included is extensive commentary as well as a  
review of its reception by such important twentieth century thinkers as Kojève Heidegger Sartre Gadamer Bataille Deleuze  
Lacan and Habermas Interest in Hegel has historically centered around the Phenomenology of Spirit In particular chapter IV  
including Hegel's celebrated master slave dialectic has influenced philosophers political theorists social psychologists  
cultural anthropologists and literary theorists alike Hegel began this chapter with an influential discussion of the nature of  
human desire and then described a hypothetical encounter between two pre social human beings who engage in a life and  
death struggle for recognition Out of this struggle that gave rise to self identity emerged such forms of consciousness as  
master and slave stoicism skepticism and what Hegel referred to as the unhappy consciousness which he took to be  
paradigmatic of early Christianity These forms of consciousness in turn are transcended by other more comprehensive forms  
of consciousness that ultimately come to reflect the highest elaborations of societal life The impetus for these dynamic  
changes comes from the dialectical contradictions that inhere within our most basic conceptions of personhood      **Hegel**  
**and the Other** Philip J. Kain,2012-02-01 This volume by Philip J Kain is one of the most accessibly written books on Hegel's  
Phenomenology of Spirit available Avoiding technical jargon without diluting Hegel's thought Kain shows the Phenomenology  
responding to Kant in far more places than are usually recognized This perspective makes Hegel's text easier to understand  
Kain also argues against the traditional understanding of the absolute and touches on Hegel's relation to contemporary  
feminist and postmodern themes      *Hegel, History, and Interpretation* Shaun Gallagher,1997-06-30 Hegel History and  
Interpretation is a collection of essays that extends critical discussions of Hegel into contemporary debates about the nature  
of interpretation and theories of philosophical hermeneutics Essays by Susan Armstrong John D Caputo William Desmond  
Robert Dostal Shaun Gallagher Philip T Grier H S Harris Walter Lammi George R Lucas Jr Michael Prosch Thomas Rockmore  
and E Christopher Smith explore difficult issues concerning historical interpretation the nature of hermeneutics at the end of  
metaphysics the social and critical function of reason and the inadequacy of Hegel's interpretation of the experience of  
otherness In the course of these essays Hegel is made to converse with Kierkegaard Nietzsche and Heidegger as well as with  
contemporary theorists such as Gadamer Habermas Foucault and Derrida Thus the contributors explore both the themes that  
form the common ground between Hegelian philosophy and contemporary interpretation theory and the mixed reception of  
Hegel's philosophy into contemporary discussions about history deconstruction critical theory and alterity      **Hegel's**
