MODERN WORLD**

# Hegel On The Modern World

**Allegra de Laurentiis**

## **Hegel On The Modern World:**

*Hegel on the Modern World* Hegel Society of America. Meeting, 1995-01-01 This book relates Hegel to later philosophers and philosophies

**Subjects in the Ancient and Modern World** Allegra de Laurentiis, 2005-09-20 Being a subject and being conscious of being one are different realities According to Hegel the difference is not only conceptual but also influences people's experience of the world and of one another This book aims to explain some basic aspects of Hegel's conception of subjectivity with particular regard to the difference he saw in ancient and modern ways of thinking about and acting as individuals persons and moral subjects

Historical Teleologies in the Modern World Henning Trüper, Dipesh Chakrabarty, Sanjay Subrahmanyam, 2015-09-24 Historical Teleologies in the Modern World tracks the fragmentation and proliferation of teleological understandings of history the notion that history had to be explained as a goal directed process in Europe and beyond throughout the 19th and into the 20th century Historical teleologies have profoundly informed a variety of other disciplines including modern philosophy natural history literature humanitarian and religious philanthropism the political thought and practice of revolution emancipation imperialism colonialism and anti colonialism the conceptualization of universal humankind and the understanding of modernity in general By exploring the extension and plurality of historical teleology the essays in this volume revise the history of historicity in the modern period Historical Teleologies in the Modern World casts doubt on the idea that a single if powerful conception of time could function as the unifying principle of all modern historicity instead pursuing an investigation of the plurality of modern historicities and its underlying structures By bringing together Western and non Western histories this book provides the first extended treatment of the idea of historical teleology It will be of great value to students and scholars of modern global and intellectual history

**Hegel and Modern Society** Charles Taylor, 2015-10-15 This book is an exploration of the relevance of Hegel's thought to contemporary society and politics

Modern Individuality in Hegel's Practical Philosophy Erzsébet Rózsa, 2012-10-19 In Modern Individuality in Hegel's Practical Philosophy Erzsébet Rózsa aims to reconstruct Hegel's theory of individuality in the light of his idea of modernity Modern individuality is one of the central topics of Hegel's practical philosophy discussed systematically in the forms of subjectivity in subjective objective and practical spirit Hegel interpreted modern existence and lifeworld in the context of law politics economy and private life Infinite subjective freedom is the historical principle of the modern age as well as the basic determination of modern individual forms of existence and knowledge Modern form of life and mentality based on the values and practical actions of self knowledge and self determination is an achievement of historical significance This radical turn however gives a new perspective to the problem of good life the normative role of substantial values is overshadowed by the stabilizing function of the objective order of institutions

Hegel's Critique of Modernity Timothy C. Luther, 2009-06-16 Hegel's enduring importance lies in the fact that his philosophy sheds light on many contemporary problems his conception of freedom enables us to reconcile many of the differences that divide liberalism and

communitarianism While liberalism tends to overemphasize the individual and devalue the community communitarianism tends to do the reverse One of his central aims is to integrate liberalism's concern for the political rights and interests of individuals within the framework of a community He tries to reconcile the individual and community in a way that creates the proper mix of liberty and authority One of Hegel's goals is to discover social structures that will allow individuals to escape the alienation that characterizes contemporary life He sought a method of reconciling his contemporaries to the modern world by overcoming the things that split the self from the social world that is a place where people are at home in the social world A sense of estrangement is all too common even for those who enjoy more personal freedom and material abundance than ever thought possible While Hegel is speaking directly to and about his contemporaries their social world bears much in common with ours Consequently his attempt to reconcile philosophical and social contradictions can elucidate our own condition While the modern world reflects important contributions the advent of modern liberalism leads to excessive individualism that fragments social life leaving individuals disconnected and adrift from meaningful social life The major goal of Hegel's political philosophy is to reconcile the individual with his or her political community in a way that overcomes the alienation of modern life

**Hegel's Political Aesthetics** Stefan Bird-Pollan, Vladimir Marchenkov, 2020-05-14 What is the role of art in modern society To what extent are the beautiful and the morally good intertwined Hegel's Political Aesthetics explores Hegel's take on these ever relevant philosophical questions and investigates three key themes art's contribution to modern ethical life the loss of art's authority in modern ethical life and ways of thinking beyond Hegel's analysis of art's role in society The aesthetic is explored through the lens of German Idealism from Kant to Hegel ultimately placing ethics and morality at the forefront of this debate The authors explore Hegel's take on Kant's conception by historicizing what it means to be responsible to others which for Hegel means being free within the norms of society within what he calls ethical life As a set of concrete social arrangements designed for finite human beings however ethical life falls short of actualizing freedom absolutely The themes in this volume are motivated by a central ambivalence in Hegel's thinking about modernity The question of freedom sits at the forefront of this text alongside the relation between art and the spirit This book will be of particular interest to philosophers of aesthetics politics and ethics

**Hegel's Social Philosophy** Michael O. Hardimon, 1994-05-27 Hegel's social theory is designed to reconcile the individual with the modern social world The concept of reconciliation is explored in detail along with Hegel's views on the relationship between individuality and social membership as well as on the family civil society and the state

Hegel's Ethical Thought Allen W. Wood, 1990-11-30 Hegel's philosophy of society politics and history is exposed to ethical debate on human rights the justification of legal punishment criteria of moral responsibility and authority of individual conscience

*Hegel's Grammatical Ontology* Jeffrey Reid, 2021-06-17 Reading The Phenomenology of Spirit through a linguistic lens Jeffrey Reid provides an original commentary on Hegel's most famous work Beginning with a close analysis of the preface where Hegel himself addresses the book's

difficulty and explains his tortured language in terms of what he calls the speculative proposition Reid demonstrates how every form of consciousness discussed in *The Phenomenology* involves and reveals itself as a form of language Elucidating Hegel's speculative proposition which consists of the reversal of the roles of the subject and predicate in such a way that the copula of the proposition becomes the lively arena of dialogical ambiguity and hermeneutical openness this book offers new onto grammatical readings of every chapter of *The Phenomenology* Not only does this bring a new understanding to Hegel's foundational text but the linguistic approach further allows Reid to unpack its complexity by relating it to contemporary contexts that share the same language structures that we discover in Hegel Amongst many others this includes Hegel's account of sense certainty and the critique of the immediacy of consumer culture today **Hegel's Phenomenology** Terry Pinkard, 1996-04-26 This analysis is the most detailed commentary on Hegel's work available and develops an independent philosophical account of the general theory of knowledge culture and history contained in it It reconstructs Hegel's theoretical philosophy and its connection to the ethical and political theory **Hegel's Political Philosophy** Thom Brooks, Sebastian Stein, 2017-05-05 Hegel famously argues that his speculative method is a foundation for claims about socio political reality within a wider philosophical system This systematic approach is thought a superior alternative to all other ways of philosophical thinking Hegel's method and system have normative significance for understanding everything from ethics to the state Hegel's approach has attracted much debate among scholars about key philosophical questions and controversy about his proposed answers to them Is his method and system open to the charge of dogmatism Are his claims about the rationality of monarchy unequal gender relations an unelected second parliamentary chamber and a corporation based economy beyond revision This ground breaking collection of new essays by leading interpreters of Hegel's philosophy is dedicated to the questions that surround Hegel's philosophical method and its relationship to the conclusions of his political philosophy It contributes to the on going debate about the importance of a systematic context for political philosophy the relationship between theoretical and practical philosophy and engages with contemporary discussions about the shape of a rational social order *Subjects in the Ancient and Modern World* Allegra de Laurentiis, 2005-09-20 Being a subject and being conscious of being one are different realities According to Hegel the difference is not only conceptual but also influences people's experience of the world and of one another This book aims to explain some basic aspects of Hegel's conception of subjectivity with particular regard to the difference he saw in ancient and modern ways of thinking about and acting as individuals persons and moral subjects **Hegel's Philosophy Of Politics** Harry Brod, 2019-04-05 This valuable book makes a significant contribution to the current revival of interest in Hegel Brod demonstrates the central unifying role the collective historical social consciousness plays in Hegel's thought But far from leading to totalitarian conclusions this emphasis upon the social actually leads Hegel toward a third way between the an **Hegel's Theory of Responsibility** Mark Alznauer, 2015-02-19 The first book length treatment of a central concept in Hegel's practical philosophy the theory of

responsibility This theory is both original and radical in its emphasis on the role and importance of social and historical conditions as a context for our actions      The State and Civil Society: Studies in Hegel's Political Philosophy Z. A. Pelczynski, 1984-11 This book discusses the state and civil society which were distinguished by Hegel as two stages in the dialectical development from the family to the nation      *Critique of Hegel's 'Philosophy Of Right'* Karl Marx, 1970-12-02 This book is a complete translation of Marx's critical commentary on paragraphs 261-313 of Hegel's major work in political theory In this text Marx subjects Hegel's doctrine on the internal constitution of the state to a lengthy analysis It was Marx's first attempt to expose and criticize Hegel's philosophy in general and his political philosophy in particular It also represents his early efforts to criticize existing political institutions and to clarify the relations between the political and economic aspects of society The Critique provides textual evidence in support of the argument that Marx's early writings do not exhibit radically different doctrinal principles and theoretical and practical concerns from his later work This edition also includes a translation of the introduction Marx wrote for his proposed revised version of the Critique which he never completed In a substantial introduction Professor O'Malley provides valuable information on Marx's intellectual development      *Hegel's Aesthetics* Lydia L. Moland, 2019-07-08 Hegel's Aesthetics is the first comprehensive interpretation of Hegel's philosophy of art in English in thirty years It gives a new analysis of his notorious end of art thesis shows the indispensability of his aesthetics to his philosophy generally and argues for his theory's relevance today      Art, Myth and Society in Hegel's Aesthetics David James, 2011-11-03 Art Myth and Society in Hegel's Aesthetics returns to the student transcripts of Hegel's lectures on aesthetics which have yet to be translated into English and in some cases remain unpublished David James develops the idea that these transcripts show that Hegel was primarily interested in understanding art as an historical phenomenon and more specifically in terms of its role in the ethical life of various peoples This involves relating Hegel's aesthetics to his philosophies of right and history rather than to his logic or metaphysics The book thus offers a thorough re-evaluation of Hegel's aesthetics and its relation to his theory of objective spirit exposing the ways in which Hegel's views on this subject are anchored in his reflections on history and on different forms of ethical life      **Why Iris Murdoch Matters** Gary Browning, 2018-08-23 In *Why Iris Murdoch Matters* Gary Browning draws on as yet unpublished archival material to present an unrivalled overview of Murdoch's work and thought Browning argues for Murdoch's position amongst the key theorists of modern life and discusses in detail her engagement with the notion of late modernity Her multiple perspectives on art philosophy religion politics and the self all relate to how she understands the nature of late modernity Browning lucidly illustrates that through both her thought and fiction we can grasp the significance of issues that remain of paramount importance today the possibilities of a moral life without foundations the meaning of philosophy in a post-metaphysical age the prospects of politics without ideological certainties and the significance of art after realism A totally original work arguing persuasively that Iris Murdoch not only matters but is absolutely central to how we think through the contemporary

age

## **Hegel On The Modern World** Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the energy of words has be more evident than ever. They have the ability to inspire, provoke, and ignite change.
