Hegel Reconsidered Beyond Metaphysics And The Authoritarian State

Dean Moyar

Hegel Reconsidered Beyond Metaphysics And The Authoritarian State:

Hegel Reconsidered H. Tristram Engelhardt Jr., T. Pinkard, 2013-03-09 Much of contemporary philosophy political theory and social thought has been shaped directly or indirectly by Georg Wilhelm Friedrich Hegel though there is considerable disagreement about how his work should be understood He has been described both as a metaphysician and characterized as an ironic narrator who anticipated the character of philosophy after metaphysics His position is equally ambiguous with regard to his political thought He has been construed both as an enemy of the liberal state and as a friend of freedom This volume's revisionist reassessment building on the scholarship of Klaus Hartmann explores these ambiguities in favor of a non-metaphysical reading of Hegel's arguments It also shows how the foundations of his political thought support a liberal democratic state This reappraisal of Hegel's arguments resituates him as a philosopher who anticipates the difficulties of post-modernity and offers a basis for reassessing ontology aesthetics and revolution Philosophers and those doing work in political theory will find this volume of great interest

The Politics of Affective Relations Daniel A. Bell, Hahm Chiahark, 2004-08-24 In *The Politics of Affective Relations* editors Daniel Bell and Hahm Chiahark refine our understanding of the East Asian conception of the self by examining how that conception was formulated reproduced and utilized throughout history Sparked by a strong dissatisfaction with the state over many discourses regarding East Asian politics this volume moves beyond the simplistic exchange of polemics regarding Asian Values and reaches a more nuanced understanding of relationality By bringing together a collection of articles authored by experts in a variety of academic disciplines Bell and Hahm scrutinize how the East Asian emphasis on relationality manifests itself in various real-life settings such as the family the economy politics and the legal system This volume will provide readers with a broader perspective on and a deeper appreciation for the pervasive nature of relationality in East Asia

Creolizing Hegel Michael Monahan, 2017-02-09 The 19th-century German thinker G. W. F. Hegel is a towering figure in the canon of European philosophy Indeed most of the significant figures of European Philosophy after Hegel explicitly address his thought in their own work Outside of the familiar territory of the Western canon however Hegel has also loomed large most often as a villain but sometimes also as a resource in struggles for liberation from colonialism sexism and racism Hegel understood his own work as aiming above freedom yet ironically wrote texts that are not only explicitly Eurocentric and even racist Should we and is it even possible to bring Hegelian texts and ideas into productive discourse with those he so often himself saw as distinctly Other and even inferior In response to this question *Creolizing Hegel* brings together transdisciplinary scholars presenting various approaches to creolizing the work of Hegel The essays in this volume take Hegelian texts and themes across borders of method discipline and tradition The task is not simply to compare and contrast Hegel with some outsider figure or tradition but rather to reconsider and reconfigure our understandings of all of the figures and ideas brought together in these cross-disciplinary essays

A Commentary to Hegel's Science of Logic David Gray Carlson, 2007-01-04 Hegel is regarded as the pinnacle

of German idealism and his work has undergone an enormous revival since 1975 In this book David Gray Carlson presents a systematic interpretation of Hegel's *The Science of Logic* a work largely overlooked through a system of accessible diagrams identifying and explicating each of Hegel's logical derivations **Pragmatism and Education** ,2005-01-01 The papers in this book have emerged from a conference which was organized in Zurich in 2003 by the Pestalozzianum Research Institute for the History of Education and the Educational Institute of the University of Zurich The conference was organized in light of the increasing internationalization of educational discussion within the last ten to twenty years and the topic was the relation between pragmatism and educational theory The contributions appear in a kind of chronological order First James A Good examines the repeatedly asserted Hegelian roots of Dewey's philosophy while Hans Peter Krüger Meike Sophia Baader and Roswitha Lehmann Rommel address specific aspects of pragmatism such as public communication religion and aesthetics with the main emphasis of the analysis on William James and John Dewey Jane Addams and George Herbert Mead's education stands at the center of interest in the contributions by Daniel Tröhler Birgit Althans Gert Biesta and Jürgen Oelkers while Philipp Gonon and Stefan Bittner turn to the question of why pragmatism had such a hard time of gaining a foothold in Germany The final contribution Philip W Jackson's systematic analysis of Dewey's thought breaks with the chronological perspective of the volume shifting the focus to other central and fruitful issues Hegel, Heidegger, and the Quest for the "I" Paolo Diego Bubbio,2024-06-14 This thought provoking study explores the philosophical resources provided by Hegel and Heidegger to grasp the nature of the I and combines those resources in a theoretical analysis of I-hood in its connection with nature and history experience and myth The I has a fleeting almost elusive character in the philosophies of Hegel and Heidegger Yet both philosophers strive to make sense of what it means to be an I Their respective theories though seemingly divergent offer remarkable insights into the nature of the I and its relationship to the world Through meticulous examination this book explores the parallel journeys of Hegel and Heidegger tracing their respective paths towards a comprehensive conception of identity beyond the subject-object dichotomy Moreover this study goes beyond being an exploration of Hegel's and Heidegger's conceptions of the self by actively employing their insights to chart a path towards a novel understanding of I-hood Hegel Heidegger and the Quest for the I will be of interest to scholars and advanced students working on Hegel Heidegger history of European philosophy and contemporary theories of subjectivity and personal identity Offering a fresh perspective on the work of these two seminal thinkers the book contributes to the ongoing dialogue on the nature of the self and its place in the world **The Hegel-Marx Connection** T. Burns,I. Fraser,2000-07-19 A major and timely re-examination of key areas in the social and political thought of Hegel and Marx The editors' extensive introduction surveys the development of the connection from the Young Hegelians through the main Marxist thinkers to contemporary debates Leading scholars including Terrell Carver Chris Arthur and Gary Browning debate themes such as the nature of the connection itself scientific method political economy the Hegelian basis to Marx's Doctoral Dissertation human needs history

and international relations *A Search for Unity in Diversity* James Allan Good, 2006-01-01 *A Search for Unity in Diversity* examines the traditional readings of John Dewey's relationship to Hegel and demonstrates that Dewey's later pragmatism was a development of the historicist humanistic Hegel rather than a turning away from Hegelian philosophy. Good argues that Dewey drew upon resources he found in the writings of St. Louis Hegelians to fashion a non-metaphysical reading of Hegel. *A Search for Unity in Diversity* reasons that Hegel encouraged Dewey to understand philosophy as an exercise in individual and cultural reconstruction. Beyond exposing fatal flaws in the traditional reading of Dewey's relationship to Hegel, Good shows that Dewey's pragmatism is a development rather than a rejection of Hegel's philosophy. This not only explains Dewey's Hegelian deposit, it also sheds light on why recent Hegel scholars have found elements of pragmatism in Hegel's thought and provides grounds for rapprochement between American pragmatism and Continental European philosophy.

Explorations in Post-Secular Metaphysics Josef Bengtson, 2015-11-02 This book explores the metaphysical assumptions that underlie different interpretations of the relationship between religion and the secular, faith and reason, and transcendence and immanence. It explores different answers to the question of how people of diverse religious and cultural identities can live together peacefully. Understanding Hegel's Mature Critique of Kant John McCumber, 2013-10-30 Hegel's critique of Kant was a turning point in the history of philosophy for the first time the concrete, situated and in certain senses naturalistic style pioneered by Hegel confronted the thin universalistic and argumentatively purified style of philosophy that had found its most rigorous expression in Kant. The controversy has hardly died away; it virtually haunts contemporary philosophy from epistemology to ethical theory. Yet if this book is right, the full import of Hegel's critique of Kant has not been understood. Working from Hegel's mature texts after 1807 and reading them in light of an overall interpretation of Hegel's project as a linguistic definitional system, the book offers major reinterpretations of Hegel's views. The Kantian thing-in-itself is not denied but relocated as a temporal aspect of our experience. Hegel's linguistic idealism is understood in terms of his realistic view of sensation. Instead of claiming that Kant's categorical imperative is too empty to provide concrete moral guidance, Hegel praises its emptiness as the foundation for a diverse society. **F. C. Baur's Synthesis of Böhme and Hegel**

Corneliu Simut, 2014-10-16 In this book Professor Simu shows how Christian theology started to be understood as a Gnostic philosophy of religion in the thought of the 19th-century scholar F. C. Baur. Although Baur was seen traditionally as a theologian and biblical exegete, Simu argues that he was in fact a philosopher of religion and it was his philosophical reading of Christian theology that informed his biblical preoccupations. Specifically, Baur's perspective on Christian theology was heavily influenced by Jakob Böhme's esoteric theosophy and Hegel's religious philosophy in some key issues such as creation, Lucifer dualism, and the connection between spirit and matter, coupled with that between philosophy and religion. Hegel, the End of History, and the Future Eric Michael Dale, 2014-08-14 In *Phenomenology of Spirit* (1806) Hegel is often held to have announced the end of history, where history is to be understood as the long pursuit of ends towards which humanity had

always been striving In this the first book in English to thoroughly critique this entrenched view Eric Michael Dale argues that it is a misinterpretation Dale offers a reading of his own showing how it sits within the larger schema of Hegel's thought and makes room for an understanding of the end of history as Hegel intended Through an elegant analysis of Hegel's philosophy of history Dale guides the reader away from the common misinterpretation of the end of history to other valuable elements of Hegel's arguments which are often overlooked and deserve to endure His book will be of great interest to scholars and advanced students of Hegel the philosophy of history and the history of political thought

Hegel's Political Philosophy Dr Thom Brooks, 2007 Hegel's Elements of the Philosophy of Right is widely acknowledged to be one of the most important works in the history of political philosophy It is broadly agreed that Hegel intended this work to be interpreted as a significant part of his greater system of speculative philosophy Where disagreement occurs is on the question of the relevance of Hegel's larger philosophical system to understanding his Philosophy of Right This is the first book on the subject to take Hegel's system of speculative philosophy seriously as an important component of any robust understanding of his Philosophy of Right It sets out the difference between systematic and non systematic readings of the text before discussing important relevant features of Hegel's system in particular the unique structure of his philosophical arguments The greater part of the book demonstrates the results of this systematic reading by exploring several areas of Hegel's political philosophy his theories of property punishment morality law monarchy and war It is shown that by looking beyond the text to Hegel's larger philosophical system we can achieve an improved understanding of Hegel's Philosophy of Right

[Hegel's Philosophy of Right](#) Dean Moyer, Kate Padgett Walsh, Sebastian Rand, 2022-12-28 Hegel's Philosophy of Right was his last systematic work and the most complete statement of his mature views on ethical and political philosophy The text explores the relationships between three distinct conceptions of human freedom persons as possessing contract rights subjects as reflective moral agents and individuals as members of an ethical community It strongly influenced the early Marx and debates over liberalism and communitarianism that arose in the latter half of the twentieth century In celebration of the 200th anniversary of the publication of the Philosophy of Right the 18 essays in this volume by contemporary scholars examine the nature and impact of Hegel's text They examine a diverse array of topics ranging from Hegel's account of rights religious freedom gender the state history and naturalism to some hitherto relatively overlooked topics such as Hegel and Luther art and nationality and Hegel and the market Each contribution also pays homage to the work of Terry Pinkard who as a foremost interpreter and scholar of Hegel's thought revived and reinvented the contemporary field of Hegel studies

Hegel's Philosophy of Right Critical Perspectives on Freedom and History will be valuable reading for scholars of Hegel nineteenth century German philosophy moral and political philosophy and the history of political thought

The Oxford Handbook of Hegel Dean Moyer, 2017 The Oxford Handbook of Hegel is a comprehensive guide to Hegel's philosophy from his first published writings to his final lectures The Handbook includes many essays from younger scholars who have brought

new perspectives and rigor to the study of Hegel's texts

Hegel and Metaphysics Allegra de Laurentiis, 2016-04-25 The collective focus of the essays here presented consists of the attempt to overcome the deadlock between metaphysical and non or anti metaphysical Hegel interpretations There is no doubt that Hegel rejects traditional and influential forms of metaphysical thought There is also no doubt that he grounds his philosophical system on a metaphysical theory of thought and reality The question asked by the contributors in this volume is therefore what kind of metaphysics does Hegel reject and what kind does he embrace Some of the papers address the issue in general and comprehensive terms but from different even opposite perspectives Hegel's claim of a unity of logic and metaphysics his potentially deflationary understanding of metaphysics his overt metaphysical commitments his subject less notion of logical thought and his criticism of Kant's critique of metaphysics Other contributors discuss the same topics in view of very specific subject matter in Hegel's corpus to wit the philosophy of self consciousness practical philosophy teleology and holism a particular brand of naturalism language's relation to thought true and spurious infinity as pivotal in philosophic thinking and Hegel's conception of human agency and action

Routledge Philosophy Guidebook to Hegel on History Joseph Mccarney, 2012-12-06 Hegel's Introduction to the Philosophy of History remains one of the most profound and influential books on the philosophy of history In clear and cogent terms this book examines the ideas and arguments of the Introduction to the Philosophy of History explains key concepts of Hegel's system a knowledge of which is essential for fully understanding his philosophy of history assesses the continuing relevance of Hegel to the contemporary debate about the nature of history

The Actual and the Rational Jean-François Kervégan, 2018-07-15 One of Hegel's most controversial and confounding claims is that the real is rational and the rational is real In this book one of the world's leading scholars of Hegel Jean François Kervégan offers a thorough analysis and explanation of that claim along the way delivering a compelling account of modern social political and ethical life Kervégan begins with Hegel's term objective spirit the public manifestation of our deepest commitments the binding norms that shape our existence as subjects and agents He examines objective spirit in three realms the notion of right the theory of society and the state In conversation with Tocqueville and other theorists of democracy whether in the Anglophone world or in Europe Kervégan shows how Hegel often associated with grand metaphysical ideas actually had a specific conception of civil society and the state In Hegel's view public institutions represent the fulfillment of deep subjective needs and in that sense demonstrate that the real is the rational because what surrounds us is the product of our collective mindedness This groundbreaking analysis will guide the study of Hegel and nineteenth century political thought for years to come

Grounds of Pragmatic Realism Kenneth Westphal, 2018-01-09 Grounds of Pragmatic Realism argues that Hegel's philosophy from the 1807 Phenomenology of Spirit through his last Berlin lectures on philosophical psychology demonstrates how Kant's critique of rational judgment across his Critical corpus can be disentangled from Kant's failed Transcendental Idealism and developed into a cogent pragmatic realism within which the social and historical aspects of rational inquiry and

justification are shown to justify realism about the objects of empirical knowledge Hegel's demonstration reveals how deeply contemporary epistemology remains beholden to pre-Critical options none of which are adequate to the natural sciences nor to commonsense Hegel recognised and justified independently Kant's semantics of singular cognitive reference to particulars within space and time Hegel's analysis of mutual recognition develops Kant's insights into the self-critical and intersubjective aspects of rational judgment and justification to show that none of us can be properly rational judges nor can we properly justify our judgments rationally without constructive self-criticism and without acknowledging and benefitting from constructive critical assessment by others

The Founding Act of Modern Ethical Life Ido Geiger, 2007 It is well known that Hegel conceives of history as the gradual process of rational thought and of forms of political life But he is usually thought to place himself at the end of this process This book argues that an essential part of Hegel's historical political thinking has escaped the notice of its interpreters

Yeah, reviewing a book **Hegel Reconsidered Beyond Metaphysics And The Authoritarian State** could increase your close friends listings. This is just one of the solutions for you to be successful. As understood, feat does not recommend that you have wonderful points.

Comprehending as without difficulty as deal even more than additional will present each success. adjacent to, the proclamation as with ease as insight of this Hegel Reconsidered Beyond Metaphysics And The Authoritarian State can be taken as without difficulty as picked to act.

Hegel Reconsidered Beyond Metaphysics And The Authoritarian State Introduction

In today's digital age, the availability of Hegel Reconsidered Beyond Metaphysics And The Authoritarian State books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Hegel Reconsidered Beyond Metaphysics And The Authoritarian State books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Hegel Reconsidered Beyond Metaphysics And The Authoritarian State books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Hegel Reconsidered Beyond Metaphysics And The Authoritarian State versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Hegel Reconsidered Beyond Metaphysics And The Authoritarian State books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Hegel Reconsidered Beyond Metaphysics And The Authoritarian State books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Hegel Reconsidered Beyond Metaphysics And The Authoritarian State books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural

artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Hegel Reconsidered Beyond Metaphysics And The Authoritarian State books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Hegel Reconsidered Beyond Metaphysics And The Authoritarian State books and manuals for download and embark on your journey of knowledge?

FAQs About Hegel Reconsidered Beyond Metaphysics And The Authoritarian State Books

What is a Hegel Reconsidered Beyond Metaphysics And The Authoritarian State PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Hegel Reconsidered Beyond Metaphysics And The Authoritarian State PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Hegel Reconsidered Beyond Metaphysics And The Authoritarian State PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Hegel Reconsidered Beyond Metaphysics And The Authoritarian State PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or

save PDFs in different formats. **How do I password-protect a Hegel Reconsidered Beyond Metaphysics And The Authoritarian State PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
