Hegelian Literary Perspectives:

Hegelian Literary Perspectives Anne Paolucci, 2002 The Cambridge History of Literary Criticism: Volume 9, Twentieth-Century Historical, Philosophical and Psychological Perspectives Christa Knellwolf, Christopher Norris, Jessica Osborn, 1989 This ninth volume in The Cambridge History of Literary Criticism presents a wide ranging survey of developments in literary criticism and theory during the last century Drawing on the combined expertise of a large team of specialist scholars it offers an authoritative account of the various movements of thought that have made the late twentieth century such a richly productive period in the history of criticism The aim has been to cover developments which have had greatest impact on the academic study of literature along with background chapters that place those movements in a broader intellectual national and socio cultural perspective In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate **Hegel and Shakespeare on Moral Imagination** Jennifer Ann Bates, 2010-09-29 In this fascinating book Jennifer Ann Bates examines shapes of self consciousness and their roles in the tricky interface between reality and drama Shakespeare s plots and characters are used to shed light on Hegelian dialectic and Hegel s philosophical works on art and politics are used to shed light on Shakespeare s dramas Bates focuses on moral imagination and on how interpretations of drama and history constrain it For example how much luck and necessity drive a character s actions Would Coriolanus be a better example than Antigone in Hegel s account of the Kinship State conflict What disorients us and makes us morally stuck The sovereign self the moral pragmatics of wit and the relationship between law tragedy and comedy are among the multifaceted considerations examined in this incisive work Along the way Bates traces the development of deleterious concepts such as fate anti Aufhebung crime evil and hypocrisy as well as helpful concepts such as wonder judgment forgiveness and justice *Hegel and the Foundations of Literary Theory* Rafey Habib, 2019 Habib argues that the basic principles and assumptions of modern literary theory derive from the thought of German philosopher Hegel *New Perspectives on Hegel's Philosophy of Religion* David Kolb, 1992-01-01 Hegel s ideas about the nature of religion its history and its relation to philosophy have had great influence on his friends and foes alike Relying on the new critical edition of Hegel s separate lecture courses the essays in this book provide new insights into Hegel s ideas and challenge the way we think today Crucial topics are discussed Is Hegel a Christian Does the political community absorb religion How does religion relate to philosophy What does Hegel have to say about evil and tragedy about the persistence of mythology about mysticism The book also touches on the relation of Hegel s thoughts to deconstructive insights into religion **The Cambridge History of Literary Criticism: Volume 6, The Nineteenth Century, c.1830-1914** M. A. R. Habib, 2013-02-07 In the nineteenth century literary criticism first developed into an autonomous professional discipline in the universities This volume provides a comprehensive and authoritative study

of the vast field of literary criticism between 1830 and 1914 In over thirty essays written from a broad range of perspectives international scholars examine the growth of literary criticism as an institution and the major critical developments in diverse national traditions and in different genres as well as the major movements of Realism Naturalism Symbolism and Decadence The History offers a detailed focus on some of the era s great critical figures such as Sainte Beuve Hippolyte Taine and Matthew Arnold and includes essays devoted to the connections of literary criticism with other disciplines in science the arts and Biblical studies The publication of this volume marks the completion of the monumental Cambridge History of Literary Criticism from antiquity to the present day **Hegel and the Foundations of Literary Theory** M. A. R. Habib,2022-12-08

The End of Literature, Hegel, and the Contemporary Novel Francesco Campana, 2019-11-28 This book explores the concept of the end of literature through the lens of Hegel's philosophy of art In his version of Hegel's end of art thesis Arthur Danto claimed that contemporary art has abandoned its distinctive sensitive and emotive features to become increasingly reflective Contemporary art has become a question of philosophical reflection on itself and on the world thus producing an epochal change in art history The core idea of this book is that this thesis applies quite well to all forms of art except one namely literature literature resists its end Unlike other arts which have experienced significant fractures in the contemporary world Campana proposes that literature has always known how to renew itself in order to retain its distinguishing features so much so that in a way it has always come to terms with its own end Analysing the distinct character of literature this book proposes a new and original interpretation of the end of art thesis showing how it can be used as a key conceptual framework to understand the contemporary novel

Kottman, 2017-04-03 Philosophers working on aesthetics have paid considerable attention to art and artists of the early modern period Yet early modern artistic practices scarcely figure in recent work on the emergence of aesthetics as a branch of philosophy over the course the eighteenth century This book addresses that gap elaborating the extent to which artworks and practices of the fifteenth through the eighteenth centuries were accompanied by an immense range of discussions about the arts and their relation to one another Rather than take art as a stand in for or reflection of some other historical event or social phenomenon this book treats art as a phenomenon in itself The contributors suggest ways in which artworks and practices of the early modern period make aesthetic experience central to philosophical reflection while also showing art's need for philosophy *The Tragic Paradox* Leonard Moss, 2014-03-24 Paradox informs the narrative sequence images and rhetorical tactics contrived by skilled dramatists and novelists Their literary languages depict not only a war between rivals but also simultaneous affirmation and negation voiced by a tragic individual They reveal the treason flux and duplicity brought into play by an unrelenting drive for respect Their patterns of speech action and image project a convergence of polarities the convergence of integrity and radical change of constancy and infidelity A fanatical drive to fulfill a traditional code of masculine conduct produces the ironic consequence of deforming that code the tragic paradox Tragic literature exploits irony In Athenian and Shakespearean tragedy self righteous male or female aristocrats instigate their own disgrace shame and guilt an unexpected diminishment They are victimized by a magnificent obsession a fantasy of unalloyed authority or virtue a dream of perfect self sufficiency or trust The authors of tragedy revised the concept of nobility to reflect the strange fact that grandeur elicits

its own annulment Strengths by strengths do fail Shakespeare wrote in Coriolanus The playwrights made this paradoxical predicament concrete with a narrative format that equates self assertion with self detraction images that revolve between incredible reversals and provisional reinstatements and speech that sounds impressively weighty but masks deception disloyalty cynicism and insecurity Three heroic philosophers Plato Hegel and Nietzsche contributed invaluable but contrasting accounts of these literary languages Aristotle's Poetics will be discussed in connection with Plato's attitude toward poetry Their divergent descriptions can be reconciled to show that invalidations as well as affirmations the transmission of contraries are essential for tragic composition An equivocal rhetoric a mutable imagery and an ironic progression convey the tortuous pursuit of personal preeminence or in later tragic works by Kafka and Strindberg family solidarity and communal safety I am trying to integrate the disparate arguments offered by several notable theorists with technical procedures fashioned by the Athenian dramatists and recast by Shakespeare and other writers procedures that articulate the tragic paradox
