Ernesto Laclau, Chantal Mouffe

Hegemony socialist Strategy:

Hegemony and Socialist Strategy Ernesto Laclau, Chantal Mouffe, 1985 To what extent does it call into the question the idea of social totality that underpinned Marxism and many other socialist theories Does the concept of hegemony imply a new logic that goes beyond the essentialism of classical Marxist thought These are some of the questions that this now seminal book attempts to answer It traces the genealogy of the present crisis from the nineteenth century debates to the contemporary emergence of new forms of struggle making it a classic text both for understanding hegemony and for focusing on present social struggles and their significance for democratic theory Hegemony And Socialist Strategy Ernesto Laclau, Chantal Mouffe, 2014-01-07 In this hugely influential book Laclau and Mouffe examine the workings of hegemony and contemporary social struggles and their significance for democratic theory With the emergence of new social and political identities and the frequent attacks on Left theory for its essentialist underpinnings *Hegemony and Socialist Strategy* remains as relevant as ever positing a much needed antidote against Third Way attempts to overcome the antagonism between Left and Right *Hegemony and Socialist Strategy* Ernesto Laclau, 1989 Laclau Simon Critchley, Oliver Marchart, 2012-12-06 Laclau A Critical Reader is the first full length critical appraisal of Laclau s work and includes contributions from several leading philosophers and theorists The first section examines Laclau s theory that the contest between universalism and particularism provides much of the philosophical background to political and social struggle taking up the important place accorded to amongst others Hegel and Lacan in Laclau s work The second section of the book considers what Laclau s radical democracy might look like and reflects on its ethical implications particularly in relation to Laclau s post Marxism and thinkers such as Jürgen Habermas The final section investigates the place of hegemony in Laclau s work the idea for which he is perhaps best known This stimulating collection also includes replies to his critics by Laclau and the important exchange between Laclau and Judith Butler on equality making it an excellent companion to Laclau s work and essential reading for students of political and social theory Antonio Gramsci: Contemporary applications James Martin, 2002 Discourse Theory and Political Analysis David R. Howarth, Aletta J. Norval, Yannis Stavrakakis, 2000-11-18 How can recent developments in post structuralist post Marxist and psychoanalytical theory actually inform ongoing empirical research What are the appropriate methods and research strategies for conducting research in discourse theory and analysis How can concepts such as hegemony identity the imaginary dislocation and empty signifiers illuminate key aspects of contemporary society and politics This pathbreaking and multi focal book contains a clear introductory statement of the theoretical approach used and concludes with an assessment of the future directions of discourse theory in the social sciences **The Politics of Identity** Stanley Aronowitz, 1992 On how politics class and culture are intertwined **Zizek and Communist Strategy** Chris McMillan, 2013-10-30 Communist conservative anti semantic Slavoj Žižek s work attracts a lot of labels most of them pejorative Chris McMillan seeks to identify Žižek s unique and productive contribution to social and political theory

Communism and Strategy Isabelle Garo, 2023-04-18 If the question of communism is making a comeback today this renewed interest is often accompanied by an abandonment of any concrete political perspective Critical philosophies are flourishing and proliferating but folded into the academic terrain they often remain disconnected from the global issues associated with the present crisis of capitalism contributing in turn to the fragmentation of the resistances that are opposed to it Instead of locking the perspective of emancipation into the registers of utopia or relegating it to the side of an empty populism Isabelle Garo studies in this book the conditions of a contemporary revival of the alternative as a collective construction anchored in real aspirations and struggles and inseparable from a rethinking of the theoretical work By addressing the impasses faced by many of the most fashionable radical theorists Badiou Laclau the theorists of the commons and revisiting them in relation to Marx and Gramsci also allows us to re read the latter from the point of view of contemporary questions of the state and the party of work and property of conflict and hegemony Thus to rethink strategy is above all to re explore the question of mediations whether they be forms of organisation or existing mobilisations as sites par excellence of political invention

Openings and Closures: Socialist Strategy at a Crossroads Greg Albo, Stephen Maher, 2025-03-12T00:00:00Z Socialists are at a crossroads facing the return of Donald Trump to the presidency of the American empire concerned by planetary warming if previous commitments to phase out fossil fuels are dashed and seeing neoliberalism's inability to provide a humane framework for macroeconomic stability ideological legitimacy or global political order What can the left carry forward from recent strategies tactics and organizations that not so long ago seemed so promising Is the left starting over or moving on

The Postmodernism Debate in Latin America John Beverley, Michael Aronna, José Oviedo, 1995-05-05 Postmodernism may seem a particularly inappropriate term when used in conjunction with a region that is usually thought of as having only recently and then unevenly acceded to modernity Yet in the last several years the concept has risen to the top of the agenda of cultural and political debate in Latin America This collection explores the Latin American engagement with postmodernism less to present a regional variant of the concept than to situate it in a transnational framework Recognizing that postmodernism in Latin America can only inaccurately be thought of as having traveled from an advanced capitalist center to arrive at a still dependent neocolonial periphery the contributors share the assumption that postmodernism is itself about the dynamics of interaction between local and metropolitan cultures in a global system in which the center periphery model has begun to break down These essays examine the ways in which postmodernism not only designates the effects of this transnationalism in Latin America but also registers the cultural and political impact on an increasingly simultaneous global culture of a Latin America struggling with its own set of postcolonial contingencies particularly the crisis of its political left the dominance of neoliberal economic models and the new challenges and possibilities opened by democratization With new essays on the dynamics of Brazilian culture the relationship between postmodernism and Latin American feminism postmodernism and imperialism and the implications of

postmodernist theory for social policy as well as the text of the Declaration from the Lacandon Jungle of the Zapatista National Liberation Army this expanded edition of boundary 2 will interest not only Latin Americanists but scholars in all disciplines concerned with theories of the postmodern Contributors Xavier Albó Jos Joaquín Brunner Fernando Calderón Enrique Dussel Nstor García Canclini Martín Hopenhayn Neil Larsen the Latin American Subaltern Studies Group Norbert Lechner María Milagros López Raquel Olea Anbal Quijano Nelly Richard Carlos Rincón Silviano Santiago Beatriz Sarlo Roberto Schwarz and Hernán Vidal

The Crisis of Marxism Elías J. Palti, 2025-06-09 In this book Elías J. Palti analyzes the writings of key thinkers who have theorized the present situation of Marxism Perry Anderson Fredric Jameson Ernesto Laclau Slavoj Žižek Judith Butler Alain Badiou and Jacques Derrida His aim is to interrogate what appears to be the final crisis of Marxist political tradition from a historical intellectual point of view placing it within a broader framework which is the present crisis of politics at large Yet it also reveals why we cannot even then avoid confronting it stubbornly trying to think of what seems to be unthinkable today namely the idea of an emancipatory horizon Unlike traditional works of political philosophy The Crisis of Marxism A Historical Intellectual Problem does not intend to provide political or philosophical answers to today's dislocation of politics Instead it aspires to clarify the nature of the questions that such a situation raises and demonstrates why the current crisis of Marxism contains some fundamental clues for it

Against Empire Matthew T. Eggemeier, 2020-09-09 Against Empire analyzes the relationship between Christian theology and radical democracy by exploring how black prophetic thought feminist theology Latin American liberation theology and peaceable theology offer plural forms of ecclesial resistance to empire the black church Cornel West the ecclesia of women Elisabeth Schussler Fiorenza the church of the poor Ignacio Ellacuría Jon Sobrino and the peaceable church Stanley Hauerwas These approaches to Christian political engagement differ in their specific focus but share common resistance to neoliberalism nationalism and militarism as networks of power that intersect with racism sexism and neo colonialism to form what they refer to as empire In diverse ways West Schussler Fiorenza Ellacuría and Sobrino and Hauerwas reimagine Christian witness as a form of radical democratic resistance to empire in the face of political formations that not only block the expansion of democracy neoliberal neoconservative hegemony but also attempt to retrench its achievements authoritarian populism

Experience and Historical Materialism Ib Gram-Jensen, 2020-05-19 Experience and Historical Materialism Five Argumentative Essays The central essay in this volume sketches a revised version of historical materialism with agents' experiences of and responses to their social circumstances as the motive power of historical development and transformations The other four essays are critiques of Althusserian structural Marxism various misreadings of Marx and Engels Laclau Mouffe's discourse analysis as put forward in their Hegemony and Socialist Strategy and Keith Jenkins' postmodernist Re-thinking History

Mapping Ideology Slavoj Žižek, 2012-11-13 For a long time the term ideology was in disrepute having become associated with such unfashionable notions as fundamental truth and the eternal verities The tide has turned and recent years have seen

a revival of interest in the questions that ideology poses to social and cultural theory and to political practice Including Slavoj Žižek's study of the development of the concept from Marx to the present assessments of the contributions of Lukács and the Frankfurt School by Terry Eagleton Peter Dews and Seyla Benhabib and essays by Adorno Lacan and Althusser Mapping Ideology is an invaluable guide to the most dynamic field in cultural theory

Margins of Political Discourse Fred Reinhard Dallmayr, 1989-01-01 Margins of political discourse are those border zones where paradigms intersect and where issues of order and disorder meaning and non meaning must be continually renegotiated Our age is marked by multiple dislocations by political as well as philosophical paradigm shifts Politically a Europe centered world order has given way to a decentered arena of global power struggles Philosophically traditional metaphysics itself a European legacy is making room for diverse modes of anti foundationalism In this situation philosophy and political theory are bound to be decentered themselves occupying a peculiar border zone in which traditional boundaries are blurred without being erased This is the locus of Dallmayr's book Located at the intersection of Continental and Anglo American thought as well as at the border of philosophy and politics Margins of Political Discourse explores the zone between polis and cosmopolis between modernity and postmodernity between reason and contingency between immanence and transcendence

The Retreat From Class Ellen Meiksins Wood, 1998 Exploring the connections between class ideology and politics In this classic study which won the Isaac Deutscher Memorial Prize Ellen Wood provides a critical survey of influential trends in post Marxist theory Challenging their dissociation of politics from class she elaborates her own original conception of the complex relations between class ideology and politics In the process Wood explores the links between socialism and democracy and reinterprets the relationship between liberal and socialist democracy In a new introduction Wood discusses the relevance of The Retreat from Class in a post Soviet world She traces the connections between post Marxism and current academic trends such as postmodernism and argues that a re examination of class politics is a necessary counter to the current cynical acceptance of capitalism

Radical Politics Peter D. Thomas, 2023 Offering a new reading of Antonio Gramsci's political theory Radical Politics argues that hegemony is a process of differentiation in which political culture is always changing and always with the goal of moving toward expanded freedom Over the course of the book Peter D Thomas looks at the way in which various theorists have approached the dilemma of how to engage productively in radical politics and explains why hegemony is a distinctive method of doing politics rather than an end goal

Architecture and Labor Peggy Deamer, 2020-04-07 Through a collection of 13 chapters Peggy Deamer examines the profession of architecture not as an abstraction but as an assemblage of architectural workers What forces prevent architects from empowering ourselves to be more relevant and better rewarded How can these forces be set aside by new narratives new organizations and new methods of production How can we sit at the decision making table to combat short term real estate interests for longer term social and ethical value How can we pull architecture its conceptualization its pedagogy and its enactment into the 21st century without succumbing to its neoliberal

paradigm In addressing these controversial questions *Architecture and Labor* brings contemporary discourses on creative labor to architecture a discipline devoid of labor consciousness This book addresses how not just what architects produce and focuses not on the past but on the present It is sympathetic to the particularly intimate way that architects approach their design work while contextualizing that work historically institutionally economically and ideologically *Architecture and Labor* is sure to be a compelling read for pre professional students academics and practitioners

Can Common People Govern? Jacques Bidet, 2024-10-25 In *Can Common People Govern* the renowned French social theorist philosopher and historian Jacques Bidet offers a theoretical and political exploration of political parties movements and uprisings as forms of popular political organization He highlights the contradictions of the party form and the movement form through a critical analysis of Lenin Xi Jinping Gramsci Althusser and the theorists of left wing populism Laclau and Mouffe Popular political organization he argues must be related to the structure of modern society in which the popular class is opposed in a triangular duel against a dominant class that includes two poles in conflictual connivance capital power and competence power or elite This duality offers the common people an angle of attack for a risky alliance with this elite against capital This class confrontation is put in the context of the ongoing ecological disaster and popular uprisings In the age of disaster environmentalism and social emancipation must be conceived as one and the same thing *Can Common People Govern* is relevant to students of Marxism as well as wider readership interested in political thought and action
