EAST ASIAN INFLUENCES ON HIS WORK

Reinhard May

Translated, with a complementary essay,
by Graham Parkes

Heideggers Hidden Sources East Asian Influences On His Work

Francois Raffoul, Eric S. Nelson

Heideggers Hidden Sources East Asian Influences On His Work:

Heidegger's Hidden Sources Reinhard May,1996 This book documents for the first time Heidegger s remarkable debt to East Asian philosophy Reinhard May examines the relationship between Heidegger s ideas and German translations of Chinese Daoist and Zen Buddhist classics **Eastern Influences on Western Philosophy** A. L. Macfie,2019-08-05 This Reader explores the extent of Oriental influence on European thought primarily in the period of the Enlightenment and the nineteenth century period of doubt and scepticism that followed it It is the first Reader to bring together in one place a series of specific historical and textual studies of Oriental influence upon European thinkers **Heidegger on Eastern/Asian Thought** Lin Ma,2024-06-30 This Element elucidates the metamorphoses of Heidegger s comportment toward Eastern Asian thought from the 1910s to the 1960s With a view to the many meanings of the East at play in Heidegger s thinking it considers how his diversified dialogues with the East are embedded in different phases of his Denkweg Various themes unexplored previously are examined Heidegger s early treatment of near Eastern traditions and Islamic philosophy his views on alien cultures the primitive Dasein and the mythical Dasein and his meditation on Russianism s deeply rooted spirituality and its recuperative possibilities for the West Finally this Element reveals how Heidegger opened the promise of a dialogue with the East and yet stepped back from the threshold and how his move from the Occidental line of philosophizing toward the Oriental line is integral to his shift from the guiding question of Being to the abyssal question of Beyng *The Bloomsbury Companion to Heidegger* Francois Raffoul,Eric S. Nelson,2013-08-15 The definitive reference guide to Heidegger s life and work including 57 original essays covering all the key aspects of his thought Daoist Encounters with Phenomenology David Chai,2020-01-09 This collection is intercultural philosophy at its best It contextualizes the global significance of the leading figures of Western phenomenology including Husserl Hegel Nietzsche Heidegger Buber and Levinas enters them into intercultural dialogue with the Daoism of Laozi and Zhuangzi and in doing so breaks new ground By presenting the first sustained analysis of the Daoist worldview by way of phenomenological experience this book not only furthers our understanding of Daoism and phenomenology but delves deeper into the roots of human thinking aesthetic expression and its impact on the modern social world The international team of philosophers approach the phenomenological tradition in the broadest sense possible looking beyond the phenomenological language of Husserl With chapters on art ethics death and the metaphor of dream and hermeneutics this collection encourages scholars and students in both Asian and Western traditions to rethink their philosophical bearings and engage in meaningful intercultural dialogue *The Taoist Pedagogy of Pathmarks* Jie Yu,2018-10-28 Based on the intertwined complex conversations among Heidegger Dewey and Lao Tzu this book explores the possibilities of the Taoist Pedagogy of Pathmarks as a clearing between truth and untruth responding to the spiritual call of Tao as inaction and teaching as releasement In this book Yu provides a critical exploration of the rich dynamics in the direct conversations among the three great thinkers of east and west highlighting the implications

of their ideas for education throughout As more educational researchers teacher educators and teachers recognize the limitations of didactic teaching as telling the author brings an alternate pathway to light

Comparative Political Thought Michael Freeden, Andrew Vincent, 2013 This book examines some of the following issues Is political theory Western centric What can we learn from non Western traditions of political thought How do we compare different strands of national and regional political thought Political thought in China India the Middle East and Latin America Islamic political thought and more Political thought in the wake of post colonialism This is a much needed overview of this key emerging area and will be of interest to all students of political theory thought and philosophy

Daoist Resonances in Heidegger David Chai, 2022-05-05 East Asian imagery resonates throughout Martin Heidegger's writings In this exploration of the connections between Daoism and his thought an international team of scholars consider why the Daodejing and Zhuangzi were texts he returned to repeatedly and the extent Heidegger adhered to Daoism's core doctrines They discuss how Daoist thought provided him with a new perspective equipping him with images concepts and meanings that enabled him to continue his questioning of the nature of being Exploring the environment language death temporality aesthetics and race from the groundlessness of non being oneness and the Way they illustrate how these themes reverberate with ontological spiritual and epistemological potential A lesson in the art of Daoist and cross cultural ways of thinking this collection marks the first sustained analysis of the influence of classical Daoism on a major 20th century German philosopher

Comprehending the Complexity of Countries Hans Kuijper, 2022-01-18 This book argues for computer aided collaborative country research based on the science of complex and dynamic systems It provides an in depth discussion of systems and computer science concluding that proper understanding of a country is only possible if a genuinely interdisciplinary and truly international approach is taken one that is based on complexity science and supported by computer science Country studies should be carefully designed and collaboratively carried out and a new generation of country students should pay more attention to the fast growing potential of digitized and electronically connected libraries In this frenzied age of globalization foreign policy makers may to the benefit of a better world profit from the radically new country studies pleaded for in the book Its author emphasizes that reductionism and holism are not antagonistic but complementary arguing that parts are always parts of a whole and a whole has always parts

Chinese and Buddhist Philosophy in Early Twentieth-Century German Thought Eric S. Nelson, 2017-08-24 Presenting a comprehensive portrayal of the reading of Chinese and Buddhist philosophy in early twentieth century German thought Chinese and Buddhist Philosophy in Early Twentieth Century German Thought examines the implications of these readings for contemporary issues in comparative and intercultural philosophy Through a series of case studies from the late 19th century and early 20th century Eric Nelson focuses on the reception and uses of Confucianism Daoism and Buddhism in German philosophy covering figures as diverse as Buber Heidegger and Misch He argues that the growing intertextuality between traditions cannot be appropriately interpreted through notions of exclusive

identities closed horizons or unitary traditions Providing an account of the context motivations and hermeneutical strategies of early twentieth century European thinkers interpretation of Asian philosophy Nelson also throws new light on the question of the relation between Heidegger and Asian philosophy Reflecting the growing interest in the possibility of intercultural and global philosophy Chinese and Buddhist Philosophy in Early Twentieth Century German Thought opens up the possibility of a more inclusive intercultural conception of philosophy Heidegger in America Martin Woessner,2010-12-20 Heidegger in America explores the surprising legacy of his life and thought in the United States of America As a critic of modern life Heidegger often lamented the growing global influence of all things American However it was precisely in America where his thought inspired the work of generations of thinkers not only philosophers but also theologians architects novelists and even pundits As a result the reception and dissemination of Heidegger s philosophical writings transformed the intellectual and cultural history of the United States at a time when American influence was itself transforming the world A case study in the complex and sometimes contradictory process of transnational exchange Heidegger in America recasts the scope and methods of contemporary intellectual and cultural history in the age of globalization challenging what we think we know about Heidegger and American ideas simultaneously Heidegger and Music Casey Rentmeester,Jeff R. Warren,2022-02-02 Although philosophers have examined and commented on music for centuries Martin Heidegger one of the greatest philosophers of the 20th century had frustratingly little to say about music directly at least This volume the first to tackle Heidegger and music features contributions from philosophers musicians educators and musicologists from many countries throughout the world aims to utilize Heidegger s philosophy to shed light on the place of music in different contexts and fields of practice Heidegger s thought is applied to a wide range of musical spheres including improvisation classical music electronic music African music ancient Chinese music jazz rock n roll composition and musical performance The volume also features a wide range of philosophical insights on the essence of music music s place in society and the promise of music s ability to open up new ways of understanding the world with the onset of the technological and digital musical age Heidegger and Music breaks new philosophical ground by showcasing creative vignettes that not only push Heidegger s concepts in new directions but also get us to question the meaning of music in various contexts *Globalized Knowledge Flows and Chinese Social Theory* Xiaoying Qi,2014-01-21 This book considers the nature and possibilities of conceptual change and transformation under conditions of globalization especially with regard to Chinese social and cultural concepts It argues that the influence of globalization promotes the spread of West European and American social science concepts and methods at the expense of local concepts and approaches and at the same time paradoxically provides opportunities for the incorporation of local concepts including Chinese concepts into Western or mainstream social science **Migrating Texts and Traditions** William Sweet,2012-12-15 There can be little dispute that culture influences philosophy we see this in the way that classical Greek culture influenced Greek philosophy that Christianity influenced mediaeval western philosophy that

French culture influenced a range of philosophies in France from Cartesianism to post modernism and so on Yet many philosophical texts and traditions have also been introduced into very different cultures and philosophical traditions than their cultures of origin through war and colonialization but also through religion and art and through commercial relations and globalization And this raises questions such as What is it to do French philosophy in Africa or Analytic philosophy in India or Buddhist philosophy in North America This volume examines the phenomenon of the migration of philosophical texts and traditions into other cultures identifies places where it may have succeeded but also where it has not and discusses what is presupposed in introducing a text or a tradition into another intellectual culture **Japanese and Continental**

Philosophy Bret W. Davis, Brian Schroeder, Jason M. Wirth, 2011-01-13 Recognizing the importance of the Kyoto School its influence on philosophy politics religion Asian studies this text seeks to initiate a conversation between Japanese Western philosophers **The Imbecile's Guide to Public Philosophy** Murzban Jal, Jyoti Bawane, Muzaffar Ali, 2021-09-19 This book studies the role of serious philosophizing in everyday life and looks at how authoritarianism negates philosophical and public reason It sheds light on how philosophy can go beyond its life as a discipline limited to an esoteric group of academia to manifest itself via radical discursive practices in public life which enable us to understand and resolve contemporary socio political challenges It studies philosophy as a discipline which deals with one's orientations based on experience the logic of reasoning critical thinking and most of all radical and progressive beliefs The book argues that the contemporary rise of capitalism in modern society resonating with Durkheim's cautions on anomie has favoured individualism differentiation marginalization and exploitation balanced on an eroding collective consciousness and a steady disintegration of humanity and reason Taking this into consideration it discusses how philosophy both mainstream and marginal can revive democracy in society which then is able to confront global authoritarianism led by the figure of the imbecile Finally it also provides a range of new perspectives on the questions of civic freedom hegemony of language social justice identity invisible paradigms gender justice democracy multiculturalism and decolonization This book is an invigorating compilation of essays from diverse disciplines engaging the need to create a humanistic public philosophy to transcend the state of imbecility It will be of great interest to students scholars and researchers of philosophy contemporary politics history and sociology as well as general readers **Heidegger and Kabbalah** Elliot R. Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger's indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism Elliot R. Wolfson expands connections between Heidegger's thought and kabbalistic material By arguing that the Jewish esoteric tradition impacted Heidegger Wolfson presents an alternative way of understanding the history of Western philosophy Wolfson's comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics temporality language and being and nothingness while yielding surprising reflections on their common philosophical ground Given Heidegger's involvement with National Socialism and his use of antisemitic language these innovative readings are all the more remarkable for their

juxtaposition of incongruent fields of discourse Wolfson's entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions

Martin Heidegger Bret W. Davis, 2014-12-05 Heidegger's writings are among the most formidable in recent philosophy The pivotal concepts of his thought are for many the source of both fascination and frustration Yet any student of philosophy needs to become acquainted with Heidegger's thought Martin Heidegger Key Concepts is designed to facilitate this Each chapter introduces and explains a key Heideggerian concept or a cluster of closely related concepts Together the chapters cover the full range of Heidegger's thought in its early middle and later phases

Heidegger's Conversations Katherine Davies, 2024-09-01 Reading Martin Heidegger's five conversational texts together for the first time Heidegger's Conversations elaborates not only what Heidegger thought but how he did so by attending to the philosophical possibilities of the genre of these understudied texts written between 1944 and 1954 Though he wrote little on the topic of teaching and learning explicitly Katherine Davies shows Heidegger performed an implicit poetic pedagogy in his conversations that remains to be recognized Heidegger launched an experimental attempt to enact a learning of non representational non metaphysical thinking by cultivating a distinctly collaborative sensitivity to the call of the poetic Davies illustrates how each conversation emphasizes a particular pedagogical element non oppositionality making mistakes thinking in community poetic interpretation and the dangers of such pedagogy which together constitute the developmental arc of these texts Whether Heidegger is revising or reinforcing his own earlier pedagogical practices Davies argues that attending to the dramatic staging of the conversations offers a distinct vantage point from which to contend with Heidegger's philosophy and politics in the post war period

Nietzsche, Heidegger, and Daoist Thought Katrin Froese, 2012-02-01 In this book Katrin Froese juxtaposes the Daoist texts of Laozi and Zhuangzi with the thought of Nietzsche and Heidegger to argue that there is a need for rethinking the idea of a cosmological whole By moving away from the quest for certainty Froese suggests a way of philosophizing that does not seek to capture the whole but rather becomes a means of affirming a connection to it one that celebrates difference rather than eradicating it Human beings have a vague awareness of the infinite but they are nevertheless finite beings Froese maintains that rather than bemoaning the murkiness of knowledge the thinkers considered here celebrate the creativity and tendency to wander through that space of not knowing or in between ness However for Nietzsche and the early Heidegger this in between ness can often produce a sense of meaninglessness that sends individuals on a frenetic quest to mark out space that is uniquely their own Laozi and Zhuangzi on the other hand paint a portrait of the self that provides openings for others rather than deliberately forging an identity that it can claim as its own In this way human beings can become joyful wanderers that revel in the movements of the Dao and are comfortable with their own finitude Froese also suggests that Nietzsche and Heidegger are philosophers at a

crossroads for they both exemplify the modern emphasis on self creation and at the same time share the Daoist insight into the perils of excessive egoism that can lead to misguided attempts to master the world
