Heiland Franklin Sanders, 1986-01-01 The Female Figure in Contemporary Historical Fiction K. Cooper, E. Short, 2012-10-29 From *The Other Boleyn Girl* to *Fingersmith* this collection explores the popularity of female centred historical novels in recent years It asks how these representations are influenced by contemporary gender politics and whether they can be seen as part of a wider feminist project to recover women s history **The Eighteenth-century Novel**, 2001 **Gothic Writers** Douglass H. Thomson, Jack G. Voller, Frederick S. Frank, 2001-11-30 With its roots in Romanticism antiquarianism and the primacy of the imagination the Gothic genre originated in the 18th century flourished in the 19th and continues to thrive today This reference is designed to accommodate the critical and bibliographical needs of a broad spectrum of users from scholars seeking critical assistance to general readers wanting an introduction to the Gothic its abundant criticism and the present state of Gothic Studies The volume includes alphabetically arranged entries on more than 50 Gothic writers from Horace Walpole to Stephen King Entries for Russian Japanese French and German writers give an international scope to the book while the focus on English and American literature shows the dynamic nature of Gothicism today Each of the entries is devoted to a particular author or group of authors whose works exhibit Gothic elements beginning with a primary bibliography of works by the writer including modern editions This section is followed by a critical essay which examines the author s use of Gothic themes the author s place in the Gothic tradition and the critical reception of the author s works The entries close with selected annotated bibliographies of scholarly studies The volume concludes with a timeline and a bibliography of the most important broad scholarly works on the Gothic **Questioning History** Greg Clingham, 1998-07 Traditional eighteenth century paradigms of reason truth and nature underlie modern concepts of self gender sex etc that are challenged today in the name of a more liberated and pluralistic problematics This book is the first of two volumes of essays that identify this postmodern challenge It examines the historiography of postmodern phenomena in relation to the eighteenth century texts that they ventriloquize More essays on the topic are contained in *Making History* Bucknell Review Vol 42 No 1 **The Gothic Fairy Tale in Young Adult Literature** Joseph Abbruscato, Tanya Jones, 2014-07-15 Rooted in the oral traditions of cultures worldwide fairy tales have long played an integral part in children s upbringing Filled with gothic and fantastical elements like monsters dragons evil step parents and fairy godmothers fairy tales remain important tools for teaching children about themselves and the dangers and joys of the world around them In this collection of new essays literary scholars examine gothic elements in more recent entries into the fairy tale genre for instance David Almond s *Skellig* Neil Gaiman s *The Graveyard Book* and *Coraline* and Lemony Snicket s *A Series of Unfortunate Events* exploring such themes as surviving incest and the capture and consumption of children Although children s literature has seen an increase in reality based stories that allow children no room for escape from their everyday lives these essays demonstrate the continuing importance of fairy tales in helping them live well rounded lives

Neo-Georgian Fiction Jakub Lipski, Joanna Maciulewicz, 2021-06-07 This book contributes to the development of contemporary historical fiction studies by analysing neo Georgian fiction which unlike neo Victorian fiction has so far received little critical attention The essays included in this collection study the ways in which the selected twentieth and twenty first century novels recreate the Georgian period in order to view its ideologies through the lens of such modern critical theories as performativity post colonialism feminism or visual theories They also demonstrate the rich repertoire of subgenres of neo Georgian fiction ranging from biographical fiction epistolary novels to magical realism The included studies of the diverse novelistic conventions used to re contextualise the Georgian reality reflect the way we see its relevance and relation to the present and trace the indebtedness of the new forms of the contemporary novel to the traditional novelistic genres

The Future of Feminist Eighteenth-Century Scholarship Robin Runia, 2017-11-10 There is an unfortunate argument being made that feminist scholarship of eighteenth century literary studies has fulfilled its potential in academic circles The Future of Eighteenth Century Feminist Scholarship Beyond Recovery shows us otherwise Each of the essays in this volume reaffirms the feminist principles that form the foundation of this area then builds upon them by acknowledging the inevitable conflicts they or their subjects have faced and the contradictions they or their subjects have lived

The Poetics and Politics of the American Gothic Professor Agnieszka Soltysik Monnet, 2013-04-28 Taking as its point of departure recent insights about the performative nature of genre The Poetics and Politics of the American Gothic challenges the critical tendency to accept at face value that gothic literature is mainly about fear Instead Agnieszka Soltysik Monnet argues that the American Gothic and gothic literature in general is also about judgment how to judge and what happens when judgment is confronted with situations that defy its limits Poe Hawthorne Melville Gilman and James all shared a concern with the political and ideological debates of their time but tended to approach these debates indirectly Thus Monnet suggests while slavery and race are not the explicit subject matter of antebellum works by Poe and Hawthorne they nevertheless permeate it through suggestive analogies and tacit references Similarly Melville Gilman and James use the gothic to explore the categories of gender and sexuality that were being renegotiated during the latter half of the century Focusing on The Fall of the House of Usher The Marble Faun Pierre The Turn of the Screw and The Yellow Wallpaper Monnet brings to bear minor texts by the same authors that further enrich her innovative readings of these canonical works At the same time her study persuasively argues that the Gothic's endurance and ubiquity are in large part related to its being uniquely adapted to rehearse questions about judgment and justice that continue to fascinate and disturb

subnarratives the book evokes the excitement of a multifaceted and unpredictable process of growth and change Investigating fiction throughout the 1700s Spacks delineates the individuality of specific texts while suggesting connections among novels She sketches a wide range of forms and themes including Providential narratives psychological thrillers romances clef sentimental parables political allegories Gothic romances and many others These multiple narrative experiments show the impossibility of thinking of eighteenth century fiction simply as a precursor to the nineteenth century novel Spacks shows Instead the vast variety of engagements with the problems of creating fiction demonstrates that literary history by no means inexorable might have taken quite a different course

Midwestern Instruments, Inc**, 1961 [History of the Gothic: Gothic Literature 1825-1914](#) Jarlath Killeen, 2009-06-01 This volume in this exciting new series provides a detailed yet accessible study of Gothic literature in the nineteenth century It examines how themes and trends associated with the early Gothic novels were diffused widely in many different genres in the Victorian period including the ghost story the detective story and the adventure story It looks in particular how the Gothic attempted to resolve the psychological and theological problems thrown up by the modernisation and secularisation of British society The author argues that the fetishized figure of the child came to stand for what many believed was being lost by the headlong rush into a technological and industrial future The relationship between the child and horror is examined and the book demonstrates that far from a simple rejection or acceptance of secularisation the Gothic attempts to articulate an entirely different way of being modern *The Short Story in German in the Twenty-first Century* Lyn Marven, Andrew Plowman, Kate Roy, 2020 Since the 1990s the short story has re-emerged in the German speaking world as a vibrant literary genre This volume aims to establish a framework for further research into this rich field The introduction and six thematic chapters discuss theories of the short story form literary aesthetic questions and key trends in the twenty-first century Seven chapters on significant literary figures from Germany Austria and Switzerland then offer a range of theoretical and thematic approaches to individual stories and collections Finally two original translations showcase contemporary short story writing in German
