records census data radio scripts and the recollections of revolutionaries and intellectuals Clark offers an absorbing panorama that shows how identity organization communication and leadership have combined to create the Irish American tradition In his pages we see gifted storytellers tough dockworkers scribbling editors and colorful actresses playing their roles in the Irish American saga As Clark shows the Irish have defended and extended their self image by cultivating their ethnic identity through transmission of family memories and by correcting community portrayals of themselves in the press and theatre They have strengthened their ethnic ties by mutual association in the labor force and professions and in response to social problems And they have created a network of communications ranging from 150 years of Irish newspapers to America s longest running ethnic radio show and a circuit of university teaching about Irish literature and history From this framework of subcultural activity has arisen a fascinating gallery of leadership that has expressed and symbolized the vitality of the Irish American experience Although Clark draws his primary material from Philadelphia he relates it to other cities to show that even though Irish communities have differed they have shared common fundamentals of social development His study constitutes a pathbreaking theoretical explanation of the dynamics of Irish American life *The Heirs of Cheveleigh* Gervaise Abbott,1858 *Heartless Heirs* MarcyKate Connolly,2021-08-10 From New York Times bestselling author MarcyKate Connolly comes the sequel to *Twin Daggers* which follows Aissa and Zandria on their mission to understand their unique magical bloodline as well as unite the Magi and Technocrats before their sworn enemy can turn the simmering hate between the two peoples into an all out war *Heartless Heirs* Combines fantasy and magic with a storyline that focuses on social issues Joins action and intrigue with love and romance Has a cover that features foil and embossing Aissa has never felt so trapped and alone even with her sister and friend by her side Zandria once her other half has become cold and inflexible after her time in the Technocrats dungeon Their friend Remy may still side with his father a Magi leader who refuses to believe his spymaster has turned traitor And Aissa herself is now an enemy of her Magi people after falling in love with and binding her heart to Aro a Techno prince who puts all their lives at stake Aissa is determined to uncover the secrets of the Alchemist Alliance that created her and Zandria s unique magical powers as well as learn whether the Alliance s research holds the key to healing the rift between the Magi and Technocrats after centuries of war But with her people preparing for battle it will take more than lost spells and hidden secrets to accomplish her goal Especially as the bond between her and Aro grows deeper and threatens everything Aissa has ever believed Also check out book one in the series *Twin Daggers* *The Heir's Proposal* Raye Morgan,2013-01-01 Marc Huntington needs to protect his ancestral estate when he discovers it s being sold out from under him Luckily keeping an eye on the main competition is no hardship Torie Sands is as beautiful as she is secretive Torie grew up as the butler s daughter on the Huntington estate and she s back to clear her family name not to fall for enigmatic Marc all over again How will she gain the trust of this hard suspicious man whose years as a navy SEAL have left him wounded and wary **The heir of Linne** Robert Williams Buchanan,1888 **American**

Heirs to Forgotten Kingdoms Gerard Russell, 2014-11-20 Despite its reputation for religious intolerance the Middle East has long sheltered many distinctive and strange faiths one regards the Greek prophets as incarnations of God another reveres Lucifer in the form of a peacock and yet another believes that their followers are reincarnated beings who have existed in various forms for thousands of years These religions represent the last vestiges of the magnificent civilizations in ancient history Persia Babylon Egypt in the time of the Pharaohs Their followers have learned how to survive foreign attacks and the perils of assimilation But today with the Middle East in turmoil they face greater challenges than ever before In Heirs to Forgotten Kingdoms former diplomat Gerard Russell ventures to the distant nearly impassable regions where these mysterious religions still cling to survival He lives alongside the Mandaeans and Ezidis of Iraq the Zoroastrians of Iran the Copts of Egypt and others He learns their histories participates in their rituals and comes to understand the threats to their communities Historically a tolerant faith Islam has since the early 20th century witnessed the rise of militant extremist sects This development along with the rippling effects of Western invasion now pose existential threats to these minority faiths And as more and more of their youth flee to the West in search of greater freedoms and job prospects these religions face the dire possibility of extinction Drawing on his extensive travels and archival research Russell provides an essential record of the past present and perilous future of these remarkable religions
