D Dickey,2018-06-05 America in the antebellum years was a deeply troubled country divided by partisan gridlock and ideological warfare angry voices in the streets and the statehouses furious clashes over race and immigration and a growing chasm between immense wealth and desperate poverty The Civil War that followed brought America to the brink of self destruction But it also created a new country from the ruins of the old one bolder and stronger than ever No event in the war

was more destructive or more important than William Sherman's legendary march through Georgia crippling the heart of the South's economy freeing thousands of slaves and marking the beginning of a new era. This invasion not only quelled the Confederate forces but transformed America forcing it to reckon with a century of injustice. Dickey reveals the story of women actively involved in the military campaign and later in civilian networks. African Americans took active roles as soldiers, builders, and activists. Rich with despair and hope, brutality and compassion, *Rising in Flames* tells the dramatic story of the Union's invasion of the Confederacy and how this colossal struggle helped create a new nation from the embers of the Old South.

**New York Magazine**, 1993-09-06. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.

**A Nation Seduced** Deidre Joy, 2018-03-06. Seduction is the silent, subtle force that lures the unwise into the quicksand of their own despair. What or who seduces you? Are you bold enough to confront these demons of destruction? All too often, our internal compasses are leading us in the opposite direction of our dreams. We simply need to STOP what we're doing and behave differently. *A Nation Seduced* can help you confront the deceit in the world and assess the state of your soul, your behavior, and the human condition. America is changing rapidly, and our Forefathers' legacy of a nation under God is in danger. History has proven we are lost without God. This is YOUR wake-up call.

**We're Dancing like Planets Now** M.

Tyler Esplin, 2019-06-16. M. Tyler Esplin's 1991-2018 work epitomizes the poetry and aesthetic of America's Mountain West counterculture in the early 21st century. From drug use to friendship and tender romance, from nihilistic depression to numbing stints in jail, Esplin's genius gives voice to an overlooked and underappreciated subculture of rebellion, recklessness, and obscurity. Esplin was an integral part of the unlikely Logan, Utah poetry scene. He committed suicide in November 2018.

*Worship and Wilderness* Lloyd Burton,2002-12-05 Questions about land use conservation and preservation already so perplexing and contentious take on a new complexity and greater urgency when the land in question is understood as sacred This is a view increasingly held as adherents of mainstream religions come to recognize what indigenous peoples knew centuries ago that the sacred inheres in nature itself What such a trend means and how it involves the forces of culture religion and constitutional law especially First Amendment clauses concerning the free exercise of religion are considered with a remarkable breadth and depth of understanding in this important new work Drawing on case studies of national parks and monuments national forests and other public lands and

resources Lloyd Burton gives a clear and comprehensive account of how the intertwining influences of culture religion and law have affected the management of public lands and resources in the recent past and how they may do so in the future In a unique and unprecedented way his book weaves together teachings on nature and the sacred among indigenous and immigrant culture groups in the United States the relevant constitutional history of religion and government action and analysis of contemporary conflicts over culture religion and public lands management As such *Worship and Wilderness* is essential reading not only for public land managers and environmental policy makers but also for anyone interested in the growing significance of religious interests in the use of resources that constitute our national commons and our common natural heritage
