## **Hellenism And The Rise Of Rome Delacorte World History Series:**

Hellenism and the Rise of Rome Pierre Grimal, 1968      The Publishers' Trade List Annual , 1980      **Studies in the Cult of Yahweh** Morton Smith, 2015-08-27 These two volumes collect some of the most influential and important scholarly essays by the late Morton Smith 1915 1991 for many years Professor of Ancient History at Columbia University in New York City Smith was admired and feared for his extraordinary ability to look at familiar texts in unfamiliar ways to re open old questions to pose new questions and to demolish received truths He practiced the hermeneutics of suspicion to devastating effect His answers are not always convincing but his questions cannot be ignored The essays of Volume I center on the Hebrew Bible Old Testament Ancient Israel and Ancient Judaism of Volume II on the Christian Bible New Testament Early Christianity and Ancient Magic Volume II also contains an assessment of Smith's scholarly achievement and a complete list of his publications      **Adult Catalog: Authors** Los Angeles County Public Library, 1970      **The Great Pictorial History of World Crime** Jay Robert Nash, 2004-04-29 The vast and mysterious world of criminals from ancient times through the 21st century is vividly captured in The Great Pictorial History of World Crime This unique and staggering reference work chronicles every major criminal act from every era A definitive reference source to worldwide crime this unparalleled survey is organized into sixteen chapters Assassination Bigamy Burglary Cannibalism Celebrity Slayings Drugs Fraud Gangs Gangsters and Organized Crime Kidnapping Mass Murder Piracy Robbery Secret Criminal Societies Serial Killers Terrorism Unsolved Homicides Each chapter begins with an essay that introduces the topic and provides a concise overview of the historical social and political significance of the crime Subjects are further developed crime by crime through descriptive entries covering the criminal acts modus operandi criminal background information and motives along with insightful anecdotes In addition to being a being a vital and informative historical and sociological reference work The Great Pictorial History of World Crime features more than 2 500 illustrations More than a chronicle of chilling events these two volumes provide gripping reading for anyone interested in true crime law enforcement criminology and criminal justice      **Theory and History in International Relations** Donald J. Puchala, 2013-01-11 Theory and History in International Relations is an eloquent plea to scholars of global politics to turn away from the manufacture of data and return to a systematic study of history as a basis for theory While the modest use of empiricism will always be important Puchala rejects the logical positivism of the so called scientific revolution in the field in favor of a more complex even intuitive vision of global politics He addresses the potential uses of history in studying some of the major debates of our time the Cold War as a struggle between empires the collision of civilizations cultural encounters and colonies in the ancient world and liberal approaches to the understanding of history and ethical contributions to the dialogue over theory      Christianity, Judaism and Other Greco-Roman Cults, Part 4 Jacob Neusner, 2004-07-09 The editor hopes that these papers on themes of interest to Morton Smith will contribute to the critical discussion of some problems of concern to him Since Smith is one of the great scholarly

masters of this generation it is through scholarship and not through encomia that the editor and his colleagues choose to pay their tribute. The facts about the man, his writings, his critical judgment, intelligence, erudition, and wit, his labor as selfless teacher and objective profound critic speak for themselves and require no embellishment. I hope that the quality of what follows will impress my teacher Professor Morton Smith and those scholars who care to read these volumes as having been worth the immense efforts of all concerned.

From the Foreword by Jacob Neusner     Library Journal ,1969     *The Publishers Weekly* ,1971     *New Testament, Early Christianity, and Magic* Morton Smith, Shaye J. D. Cohen, 1996     **The Translation of Religious Texts in the Greco-Roman World** David Norval Wigt, 1980     **Books in Series** ,1985 Vols for 1980 issued in three parts Series Authors and Titles     **The Jewish People in Classical Antiquity** John Haralson Hayes, Sara Mandell, 1998-01-01 John Hayes and Sara Mandell provide a clear exposition of Jewish history from 333 BCE to 135 CE. This volume focuses on the Judean Jerusalem community from a historical rather than ideological or theological perspective. With the inclusion of charts, maps, and ancient texts, the authors have constructed a fascinating account that is indispensable for the study of this crucial period.     The Atlantic Community Quarterly ,1967     **Rome and Her Empire** Barry W. Cunliffe, 1994. Far more than a history, this brilliantly illustrated volume offers a reconstruction in human terms of the many facets of Rome's extraordinary legacy. The Romans speak to us here through their splendid achievements and their tragic failures, their monuments, and their tastes, to give us an understanding of the spirit behind these dramatic events. From village to Empire for nearly a millennium, Rome kept up a dizzying pace of change and expansion. Stirring victories over Hannibal, the Gauls, the Britons, alternated with peaceful intervals of cultural development under Augustus and Marcus Aurelius until the final days of chaos and decline. Those thousand years take shape on the pages of Professor Cunliffe's beautiful book to give us a gradually unfolding vision of a people who once lived and of a resplendent world now in ruins. Instead of a textbook, he has virtually recreated Rome itself, a world opening up, maintaining its brief, fragile balance, and then collapsing. The whole dynamic nature of the process is evoked here by the use of historical passages alternating with concise analytical views of daily life. The rise and fall of a great empire, Professor Cunliffe writes, cannot fail to fascinate us for we can see in such a story something of our own time. But of all the empires that have come or gone, none has a more immediate appeal than the Empire of Rome. It pervades our lives today. The sheer vastness of the Empire was staggering. At its height, it extended across 2,600 miles east to west and 2,000 miles north to south. But these figures mean little. Even understood as reaching from the north of Britain to Africa and engulfing Spain, Germany, and lands as far as the Persian Gulf, Rome does not come alive until captured as in this book through glimpses of shops and villas, the voices of people, the echoing theaters, baths, temples, and slums. And Professor Cunliffe provides them for the reader. Along with the history of Rome's growth and dominion, he has added a careful history of her changing political, social, and cultural institutions. But above all, the Romans themselves speak. Cicero, Seneca, and Petronius seize the flavour of the Roman experience. Marius, Pompey, and Caesar use the

urban mob as a pawn in their power games Livy pieces together the city's origins from folklore Even the coins transmit news and instill piety ultimately becoming devices for propaganda Tombstones monuments bawdy and political graffiti and private letters miraculously preserved give us a wealth of human details the voices that gave life to Rome and her Empire A young soldier writes home to Egypt Dear mother I hope this finds you well When you get this letter I will be much obliged if you will send me some money On a wooden tablet from London written by a master to his servant in Rome I believe you know I am very well If you have made the list please send See that you turn the slave girl into cash Lucretius the Epicurean explains natural phenomena in terms of philosophical concepts Vitruvius lays down the rules of architecture the poets and playwrights all help enrich the fabric and our heightened understanding of Roman life In this handsome book such materials provide readers with the eloquent testament and indestructible evidence of a city that emerged from obscurity in 500 B C and directed the civilized world until the birth of Constantinople in 500 A D Featured among the volume's 1 000 illustrations of which half are in full color are superb photographs by former Life correspondent Brian Brake and by Leonard von Matt These stunning works are augmented by additional photographs reproductions portraits engravings maps and drawings that capture even more of the gifts that have been handed down to us by the Romans
