Theocritus' Pastoral Analogies Kathryn J. Gutzwiller, 1991 In a book as beautifully written as the poetry it celebrates Kathryn Gutzwiller uses the famous Idylls of Theocritus to show us the formative processes at work in the creation of a literary genre the pastoral and how the very structure of a genre both shapes and limits judgments about it Gutzwiller argues that Theocritus's position as first pastoralist has haunted critical assessments of him Was he merely a beginner whose simple descriptions of country life were reworked by Vergil into poems of imagination and tender feeling Or was he a genius of great creative ability who first found the way to encapsulate in humble detail a metaphysical vision of man's emotional core Examining Theocritus from the point of view of beginnings Gutzwiller succeeds in placing him both within his native Greek intellectual tradition and within the tradition of critical commentary on pastoral As she points out beginnings are hard to pin down the thing begun did not exist before and yet its composite parts were already somewhere in existence Gutzwiller provides an analysis of the herdsman figure in pre-Hellenistic Greek literature showing that the simple shepherd or goatherd had long been used as a figure of analogy for characters of higher rank Theocritus was the first poet to focus on the shepherd himself and bring the analogies down into the pastoral world Through her careful analyses of the seven pastoral Idylls Gutzwiller demonstrates that in turning the focus on the shepherd Theocritus created a group of literary works with an inner structure so unique that later readers considered it a new genre In her conclusion Gutzwiller explores subsequent controversies about the pastoral from ancient to modern times revealing how they continue to reflect the structural pattern that originated in Theocritus's

Bundrick,2019-02-26 A lucrative trade in Athenian pottery flourished from the early sixth until the late fifth century B C E finding an eager market in Etruria Most studies of these painted vases focus on the artistry and worldview of the Greeks who made them but Sheramy D Bundrick shifts attention to their Etruscan customers ancient trade networks and archaeological contexts Thousands of Greek painted vases have emerged from excavations of tombs sanctuaries and settlements throughout Etruria from southern coastal centers to northern communities in the Po Valley Using documented archaeological assemblages especially from tombs in southern Etruria Bundrick challenges the widely held assumption that Etruscans were hellenized through Greek imports She marshals evidence to show that Etruscan consumers purposefully selected figured pottery that harmonized with their own local needs and customs so much so that the vases are better described as etruscanized Athenian ceramic workers she contends learned from traders which shapes and imagery sold best to the Etruscans and employed a variety of strategies to maximize artistry output and profit *The Poets on the Classics* Stuart Gillespie,1988 Ernst Cassirer occupies a unique space in Twentieth century philosophy A great liberal humanist his multi faceted work spans the history of philosophy the philosophy of science intellectual history aesthetics epistemology the study of language and myth and more The Philosophy of Symbolic Forms is Cassirer s most important work It was first published in German in 1923 the third and final volume appearing in 1929 In it

Cassirer presents a radical new philosophical worldview at once rich creative and controversial of human beings as fundamentally symbolic animals placing signs and systems of expression between themselves and the world This major new translation the first for over fifty years brings Cassirer s magnum opus to a new generation of students and scholars Volume 2 Mythical Thought considers the role of myth in human thought and expression Cassirer examines the main features of morphology of myth before tackling the relationship between myth and self consciousness He argues that human beings experience of the world around them is charged with affective and emotional significance as desirable or hateful comforting or threatening It is this type of meaning which underlies mythical consciousness and explains its disregard for the distinction between appearance and reality From mythical thought religion and art develop Cassirer argues making the mythical view of the world the earliest form of philosophical expression Correcting important errors in previous English editions this translation reflects the contributions of significant advances in Cassirer scholarship over the last twenty to thirty years Each volume includes a new introduction and translator s notes by S G Lofts a foreword by Peter Gordon a glossary of key terms and a thorough index

Mail and Female Sara H. Lindheim,2003-12-01 In the Heroides the Roman poet Ovid wittily plucks fifteen abandoned heroines from ancient myth and literature and creates the fiction that each woman writes a letter to the hero who left her behind But in giving voice to these heroines is Ovid writing like a woman or writing Woman like a man Using feminist and psychoanalytic approaches to examine the female voice in the Heroides Sara H Lindheim closely reads these fictive letters in which the women seemingly tell their own stories She points out that in Ovid s verse epistles all the women represent themselves in a strikingly similar and disjointed fashion Lindheim turns to Lacanian theory of desire to explain these curious and hauntingly repetitive representations of the heroines in the female voice Lindheim s approach illuminates what these poems reveal about both masculine and feminine constructions of the feminine
