A Curriculum of Hope Debra Kidd, 2020-01-20 Written by Debra Kidd A Curriculum of Hope As rich in humanity as in knowledge explores how good curriculum design can empower schools to build bridges between their pupils learning and the world around them A great many schools are wondering how they can build a curriculum model that meets the demands of government policy as well as the needs of the children and communities they serve In Curriculum of Hope Debra illustrates how teachers can deliver learning experiences that genuinely link knowledge to life Working on the premise that a strong curriculum is supported by five key pillars of practice coherence credibility creativity compassion and community she presents a plethora of examples that demonstrate how schools parents pupils and the wider local community can learn together to build from within Debra enquires into the ways in which schools can create units of work that are both knowledge and humanity rich and challenges the view that the role of children is simply to listen and learn instead advocating their active engagement with local and global issues She does so by delving into the role of pedagogy as a means of empowering children and by exploring some of the more overlooked pedagogical tools that can have a great impact on children's learning and well being story movement and play as well as some of the recent research into memory and retention Towards the back of the book you will find case studies demonstrating how teachers can work with both their own and other subject departments across the school to plan in ways that allow for pupil choice autonomy and responsibility Furthermore there are some accompanying planning documents for these examples provided in the appendix

Could hit baseballs into apple trees knocking down harvests
Could jump six foot orchard walls
Ran laughing
Sat easy
Was not a bully
Was kind
Knew the words to all the cowboy songs and would teach you if you asked
Knew the names of all the wild flowers and when the moon would rise or set and when the tides came in or out
He was in fact the only god living in the whole of Green Town Illinois during the twentieth century that Douglas Spaulding knew of

Dandelions Valerie,2016-02-17 Valerie was born in 1945 when families were encouraged to keep secrets the rule what happens in Vegas stays in Vegas stems from this concept Unmarried and pregnant young girls were sent to visit their fictitious Aunt Martha or hidden in the upstairs bedroom If your father beat your mother you learned quickly to accept his behavior as the norm in all families What we now view as abnormal behavior was never discussed with friends neighbors or the authorities there were few laws governing family safety no books telling you what to do to protect yourself and no councilors to provide advice Silence ruled Sadly this silence birthed a generation of people unable to cope with the misery and chaos in their lives With no one to lead them out of the darkness many were forced to find their own coping methods which in turn created new and some not so new psychiatric maladies such as Borderline Personality disorder BPD and Post Traumatic Stress Disorder PTSD Abuse all abuse creates monsters of us all whether we want to admit it or not **Mother**

Earth's Revenge Joseph Frail,2013-05 Mother earth having been abused for so long is in a state of toxic shock With her bountiful natural beauty and her children being devoured by huge corporate conglomerates followed by rogue and maverick nations she unleashes her anger on those who refuse to live in unity of mankind As she does with her place in the universe more deeply established she purges herself of the demonstrative ego of man and regains control through the unity she has brought to her children In ways only a mother can know *Arbutus and Dandelions* Julia M.
