A Journey of Revelation and Self-Discovery Roger T Berg, 2019-12-20 What started as a practice of reading Daily Guides for Spiritual Living reflecting and recording their promptings and illuminations turned into a journey of consciousness and a pilgrimage of author Roger Berg to understanding his deeper self This is a story of one person's life told not from its beginning nor to some conclusion but at a point in time when this person's consciousness opened and became receptive to a desire to know the recurring themes and underlying values that have given meaning purpose and direction to his life He analyzed and categorized his writings and discovered values and themes that have been a part of him all his life now revealed It was a renaissance period of self discovery one to be captured learned from and in some way used for the greater good of others This is his story set forth in chapters expressing his strongest values and life themes as he continues to evolve to a deeper understanding of his purpose and place in the world He sees his story as perhaps an invitation to others to discover their own paths to experience their own pilgrimages to a greater understanding of their place in the world their value to others their purpose and meaning of who they are and what they are called to do with all their revelations and self discovery
