Little and Maughan's book applies a high standard of proof and reproduces only the work of the leading intervention scientists from around the world. After discussing the real world challenges to more effective children's services, the book goes on to cover policy and practice proven to change the lives of all children and extends also to effective programmes targeted at children with specific disorders. Examples include changes in household income, early years support, moving families to less disadvantaged communities, improving parenting and using schools to better mental health. The benefits of evidence-based programmes are specified as are the costs to society of not intervening. The evidence is used to make recommendations about getting effective policy and practice into routine use and includes illustrations of successful applications of these ideas.

**Health Promotion Throughout the Life Span - E-Book** Carole Lium Edelman, Elizabeth Connelly Kudzma, Carol Lynn Mandle, 2013-10-01 With the advent of health care reform and an emphasis on reducing health care costs, health promotion and disease prevention is a priority in nursing care. Be prepared with *Health Promotion Throughout the Life Span* 8th Edition, your comprehensive guide to major health promotion concepts. Featuring practical guidance including boxes on diversity awareness, evidence-based practice, innovative practice, hot topics and quality and safety as well as case studies and care plans, our experienced authors give you all the tools you need to stay current on the latest research and trends in health promotion. Extensive coverage of growth and development throughout the lifespan emphasizes the unique problems and health promotion needs of each age and stage of development. Separate chapters on each population group, individual, family and community stress the unique issues faced when providing care to each group. Evidence-Based Practice boxes emphasize current research efforts and opportunities in health promotion. Hot Topics and Innovative Practice boxes engage students' interest by introducing significant issues, trends and creative programs and projects in health promotion practice. Diversity Awareness boxes address various cultural perspectives and provide important information that needs to be considered in planning care. Case studies and care plans present realistic situations that challenge students to reflect upon important health promotion concepts. Think About It boxes dig deeper into the chapter topic and encourage critical thinking. Numerous pedagogical features such as objectives, key terms and textual summaries highlight the most important concepts and terms in each chapter. Updated nutrition coverage includes MyPyramid from the FDA as well as the latest information on food safety and fad diets. Expanded health policy coverage focuses on global health.
