**The Book of Hard Choices**

James A. Autry, Peter Roy, 2006-12-26 There are a thousand acts of duplicity and dishonesty every day some large and some small some of which undoubtedly take place in your workplace The question for all of us is Are we going to resist or just play along the path of least resistance The first hard choice a person of integrity must make is to choose to live both personally and professionally in a way that embodies integrity The power of this book comes from the real life in the workplace experiences that these executives have been so generously willing to share None had easy choices but that's the point Integrity is not about easy choices it's about the courage to make the right choices From *The Book of Hard Choices* All of us like to think that in any given situation we'd act with integrity and do the right thing But what happens when we get to work each morning Do the same rules we follow in our personal lives apply to our work lives The lines between right and wrong become blurred when we must weigh our obligations to our employer against our own ideas about what is right and wrong Should altruism trump profit even to the detriment of the organization When should you step in to protect an employee and when should the employee be left to take the heat If the CEO is up to some unethical accounting should you always risk your job and the company's reputation to sound the alarm These are the hard choices the dilemmas that put your integrity to the test and require you to look beyond organizational policy and industry precedents to find an answer that reflects your personal sense of justice *The Book of Hard Choices* goes to the heart of these difficult decisions James Autry and Peter Roy experienced executives themselves interviewed numerous leaders about the tough decisions they've made on the job They spoke with people like former Starbucks president Howard Behar Iowa Cubs owner Michael Gartner and Governor Tom Vilsack of Iowa as well as entrepreneurs military officials members of the clergy and a whole host of leaders The authors dig into the thinking process these people went through as well as the emotional strain the self doubt and the fear of a wrong decision's impact on their business family or coworkers Not everyone in this book made the right choice but all of them were forced to examine their values and make decisions in complicated circumstances The result is hard won wisdom on how to navigate the ethical gray areas of work life from daily challenges to possible career ending choices and make the best possible decisions in the most difficult situations
