Block,2024-09-10 From the award winning author of *Dressing Up* a riveting and diverse history of women s hair that reestablishes the cultural power of hairdressing in nineteenth century America In the nineteenth century the complex cultural meaning of hair was not only significant but it could also impact one s place in society After the Civil War hairdressing was also a growing profession and the hair industry a mainstay of local national and international commerce In *Beyond Vanity* Elizabeth Block expands the nascent field of hair studies by restoring women s hair as a cultural site of meaning in the early United States With a special focus on the places and spaces in which the hair industry operated Block argues that the importance of hair has been overlooked due to its ephemerality as well as its misguided association with frivolity and triviality As Block clarifies hairdressing was anything but frivolous Using methods of visual and material culture studies informed by concepts of cultural geography Block identifies multiple substantive categories of place and space within which hair acted These include the preparatory places of the bedroom hair salon and enslaved peoples quarters as well as the presentation places of parties fairs stages and workplaces Here are also the untold stories of business owners many of whom were women of color and the creators of trendsetting styles like the pompadour and Gibson Girl bouffant Block s ground breaking study examines how race and racism affected who participated in the presentation and business of hair and according to which standards The result of looking closely at the places and spaces of hair is a reconfiguration that allows a new understanding of the cultural power of hair in the period **London From Punk to Blair** Joe Kerr,Andrew Gibson,2013-06-01 London from Punk to Blair is a rich portrait of Europe s foremost capital An array of contributors including poets journalists teachers historians wanderers drinkers photographers and foodies offer a selection of personal and subjective readings of the city since the late

media and a new synergy between fashions in clothing and hairstyles have rippled out globally. Fashions in hair styles and their representation have taken on new meanings as a way of resisting dominant social structures, experimenting with social taboos and expressing a modern sense of self. From the 1920s bob to the punk cut, hair has continued to be deeply involved in society's larger issues. Drawing on a wealth of visual, textual and object sources and illustrated with 75 images, *A Cultural History of Hair in the Modern Age* presents essays that explore how politics, science, religion, fashion, beauty, the visual arts and popular culture have reshaped modern hair and its significance as an agent of social change. **Cultures of Ageing** Chris Gilleard, Paul Higgs, 2014-08-21. For undergraduate courses in sociology and psychology which examine ageing adulthood. This book focuses on the dramatic changes to the nature of post retirement life experienced by people at the end of the twentieth century. It examines age and ageing in terms of the key preoccupations of contemporary sociology: citizenship, the body and the self. The book provides a platform for a new social gerontology that sees ageing as central to our understanding of social change. It examines social, cultural and political changes in Europe and North America to address the need for a text that moves the study of ageing from social policy towards the mainstream of social science. *Interior Design and Identity* Susie McKellar, Penny Sparke, 2004-11-27. This chronologically arranged set of case studies looks at how interior design has constantly redefined itself as a manifestation of culture from the eighteenth century to the present day. The book looks at the amateur activities of female home makers in search of creative outlets and married couples seeking to modernize their homes as well as the contributions of early professional female interior decorators and later male interior designers. It also considers the more anonymous role of commercial enterprises such as hairdressing salons, cruise ships or modern offices. Issues relating to interiority, gender and the relationship of the public sphere are also considered, opening up a new level of design historical enquiry. **Female Beauty Systems** Christine Adams, Tracy Adams, 2015-09-04. Female beauty systems everywhere are complex, integrating markers of class, status, power and sexuality to perform the fundamental function of sorting individuals into categories of more or less desirable. Heirs to the tradition of courtly love, modern western female beauty systems tend to share the norm of man as pursuer, woman as pursued, having developed around the trope of the madly desiring poet or knight supplicating his aloof and lovely lady for her favor. The apparent longevity of the courtly love tradition raises the question of whether the way in which it structures male desire in reaction to female beauty is part of a universal tendency, an evolutionary adaptation, despite clear evidence that female beauty systems are also in fact socially constructed and reflect enormous ambivalence about the power and performance of beauty. Although modern western female beauty systems are routinely demystified and contested today, the purveyors of culture that support them—institutional, intellectual, artistic, commercial and popular—continue as they always have to construe women as objects of male desire. Still within this basic structure, the systems have varied greatly across time and space, with women using beauty as a form of social capital in widely differing ways. Moreover, as individuals have begun to experience their bodies as malleable and endlessly

transformable rather than unruly and unyielding many have begun to experience beauty less as a given and more as a project The nine essays collected here examine a number of different Western female beauty systems over the centuries considering how women have complied with contributed to profited or suffered from and resisted them **Encyclopedia of**
