Garden Spot David J. Walbert, 2002 Each year millions of tourists are drawn to Lancaster County Pennsylvania to experience first hand the quintessential pastoral both as an escape from urban life and as a rare opportunity to become immersed in history The area has attracted visitors eager to catch a glimpse of the distinctive religious community of the Old Order Amish to appreciate the beauty of the farmland to enjoy the abundant and delicious food of the Pennsylvania Dutch and most recently to shop at the area's outlet malls For nearly three hundred years Lancaster county has been a model of agricultural prosperity rooted in the family farm The rural character of the place remains Lancaster's predominant tourist attraction but is at odds with its rapidly rising population and the commercial and residential growth that has brought It is the tension between rural tradition progress and urbanization that lies at the core of *Garden Spot* David Walbert examines how twentieth century American culture has come to define and appreciate rurality and how growth and economic expansion can co exist with preservation of the traditional ways of life in the region Will small farms fail in a culture that has increasingly come to value productivity over quality of life What impact will further development have on maintaining this region's character Can rurality and progress co exist in the 21st century A vivid portrayal of the land and people residents and outsiders alike *Garden Spot* narrates the history of this region and considers the challenges Lancaster County and its people face in order to preserve their unique place

City Songs and American Life, 1900-1950 Michael L. Lasser, 2019

Nothing defines the songs of the great American songbook more richly and persuasively than their urban sensibility. During the first half of the twentieth century, songwriters such as Harold Arlen, Irving Berlin, Dorothy Fields, George and Ira Gershwin, and Thomas Fats Waller flourished in New York City, the home of Tin Pan Alley, Broadway, and Harlem. Many of these remarkably deft and forceful creators were native New Yorkers. Others got to Gotham as fast as they could. Either way, it was as if from their vantage point on the West Side of Manhattan, these artists were describing America not its geography or politics but its heart to Americans and to the world at large. In *City Songs and American Life, 1900-1950*, renowned author and broadcaster Michael Lasser offers an evocative and probing account of the popular songs, including some written originally for the stage or screen that America heard and sang and danced to during the turbulent first half of the twentieth century. Lasser demonstrates how the spirit of the teeming city pervaded these wildly diverse songs. Often that spirit took form overtly in songs that portrayed the glamor of Broadway, the energy and jazz-age culture of Harlem. But a city-bred spirit, or even a specifically New York City way of feeling and talking, also infused many other widely known and loved songs stretching from the early decades of the century to the twenties, the age of the flapper, bathtub gin, and women's right to vote, the Great Depression, and finally World War II. Throughout this remarkable book, Lasser emphasizes how the soul of city life echoes in the nation's songs, developed and changed in tandem with economic, social, and political currents in America as a whole. *Dust jacket flap*
