Gorillas House:

Houses Are Designed by Geniuses and Built by Gorillas Bob Johnson,1998 This book is a must for anyone planning to have a home built or contracting it themselves Full of helpful hints flow charts and step by step planning advice it shows a perspective seldom seen in home building Written in a lighthearted manner with wit and wisdom it is highlighted by dozens of war stories of building problems and how they were solved This book will keep you out of trouble while providing a fuller understanding of the and the building process home building industry

Songs of the Gorilla Nation Dawn Prince-Hughes, Ph.D.,2005-03-22 This is a book about autism Specifically it is about my autism which is both like and unlike other people s autism But just as much it is a story about how I emerged from the darkness of it into the beauty of it In this elegant and thought provoking memoir Dawn Prince Hughes traces her personal growth from undiagnosed autism to the moment when as a young woman she entered the Seattle Zoo and immediately became fascinated with the gorillas Having suffered from a lifelong inability to relate to people in a meaningful way Dawn was surprised to find herself irresistibly drawn to these great primates By observing them and later working with them she was finally able to emerge from her solitude and connect to living beings in a way she had never previously experienced Songs of the Gorilla Nation is more than a story of autism it is a paean to all that is important in life Dawn Prince Hughes s evocative story will undoubtedly have a lasting impact forcing us like the author herself to rediscover and assess our own understanding of human emotion

Encountering Gorillas James L. Newman,2013-07-05 Gorillas the largest of the apes inhabiting our planet have been a source of fear awe and inspiration to humans In this book James L Newman brings a lifetime of study of Africa to his compelling story of the rich and varied interaction between gorillas and humans since earliest contact He illuminates the complex relationship over time through the interlinked themes of discovery exploitation understanding and continuing survival Tragically the number of free living gorillas facing habitat loss disease and poaching has declined dramatically over the course of the past century and the future of the few that remain is highly uncertain At the same time those in zoos and sanctuaries now lead much more secure lives than they did earlier Newman follows this transition highlighting the roles played by key individuals both humans and gorillas Among the former have been adventurers opportunists writers and scientists The latter include real gorillas such as Gargantua and Koko and fictional ones notably King Kong and Mighty Joe Young This thoughtful and engaging book helps us understand how our image of gorillas has been both distorted and clarified through culture and science for centuries and how we now control the destiny of these magnificent great apes

The Owner-Builder Book Mark A. Smith,Elaine M. Smith,2007 This easy to understand step by step guide is clear enough for even a novice to understand Even if you hire a contractor to build you home this book will greatly help you understand the process From shopping for a piece of land to getting a loan to dealing with a contractor the Smiths advice covers everything about building a home The authors advise on getting organized and tackling the hardest parts of the
