## **Gorse Fires:**

**Gorse Fires** Michael Longley, 1991      **New Zealand Journal of Agricultural Research**, 1980      *The Great War in Irish Poetry* Fran Brearton, 2003 *The Great War in Irish Poetry* explores the impact of the First World War on the work of W B Yeats Robert Graves and Louis MacNeice in the period 1914-45 and on three contemporary Northern Irish poets Derek Mahon Seamus Heaney and Michael Longley Its concern is to place their work and memory of the Great War in the context of Irish politics and culture in the twentieth century The historical background to Irish involvement in the Great War is explained as are the ways in which issues raised in 1912-20 still reverberate in the politics of remembrance in Northern Ireland particularly through such events as the Home Rule cause the loss of the Titanic the Battle of the Somme the Easter Rising While the Great War is perceived as central to English culture and its literature holds a privileged position in the English literary canon the centrality of the Great War to Irish writing has seldom been recognised This book shows first that despite complications in Irish domestic politics which led to the repression of memory of the Great War Irish poets have been drawn throughout the century to the events and images of 1914-18 This engagement is particularly true of those writing in the troubled Northern Ireland of the last thirty years The second main concern is the extent to which recognition of the importance of the Great War in Irish writing has itself become a casualty of competing versions of the literary canon

*Towards a Warmer World* Veronika Meduna, 2015-11-09 The year 2014 was the hottest on record since we've begun collecting global temperature measurements in 1880. Even at its midway point, 2015 was already promising to take over this dubious record. As new thresholds are breached, acclaimed Radio New Zealand science writer Veronika Meduna explores our future in a warmer world. Beginning with lessons from our ancient geological past, this BWB Text draws on current observations and increasingly sophisticated climate models to describe possible end-of-century scenarios for New Zealand. Distorted ecosystems, extreme weather, new landscapes, and adapted foods are just some of the likely changes that amount to a radically different future for our country.

*Death to the Death of Poetry* Donald Hall, 2021-08-02 Donald Hall believes that American poetry at the present moment thrives both in quality and in leadership. In his latest collection of essays, reviews, and interviews, Hall counters the increasingly publicized view that poetry has an ever-diminishing importance in contemporary American culture. He resents the endlessly repeated cliché that finds poetry unpopular and losing popularity. Thus, *Death to the Death of Poetry*. Throughout the pages of this latest offering in the Poets on Poetry series, Hall returns again and again to the theme of poetry's health and offers essays praising contemporary poets who serve as examples of poetry's thriving condition. In addition, *Death to the Death of Poetry* collects interviews in which Hall discusses the work of poetry, revisions, standards, the psychology and sociology of the poet's life. The collection will be warmly received by Donald Hall's large readership, enhanced in 1993 by publication of two exemplary volumes: *The Museum of Clear Ideas*, his eleventh book of poetry, and his essay *Life Work*, which brought him both new and returning readers.

The Revival saw a reestablishment of Ireland's literary connections with its Celtic heritage, and writers such as William Butler Yeats and Lady Gregory drew heavily on the myths and legends of the past.
