Perkins, 2014-12-05 In the 1950s young business students were taught to hire on with a large corporation climb from entry level up the ladder one step at a time until one reached their career goal Though author Gary P Perkins lacked an advanced degree from a prestigious

institution of higher education he had a great advantage He hailed from a long line of hard rock miners who had pounded through granite in Britain and later soft limestone when they harvested the precious minerals of America in the nineteenth century He knew firsthand the value and rewards of hard work In *Above the Grass* he narrates the story of his personal journey and his business accomplishments including background about his family history and his English Cornish roots from childhood and youth to service in the US Navy to business college his career path marriage birth of children personal challenges and retirement Perkins story covers his journey from an entry level position in 1961 to corporate president in 1980 despite a burden of alcoholism that progressed at about the same rate When he realized he couldn't win the battle with the bottle he entered and completed a treatment program and has been in recovery since Throughout the story *Above the Grass* communicates the mainstays of Perkins life values inherited from his ancestors and nurtured by his family and small town

Written on Stone Joanne Parker, 2009-10-02 This collection of essays is not interested in the unresolved questions about the origin original use and authentic meaning of the prehistoric monuments of the British Isles It is not concerned with their prehistory Rather it deals with the history of barrows standing stones and stone circles with the ways in which they have been viewed the meanings that have been attributed to them and the significant impact that they have had over the centuries on British life and culture from motivating artists authors musicians and film makers to inspiring New Age religions It is thus as interested in stones commonly believed to be megaliths like the foundation stones of the chapel in the Dartmoor village of South Zeal as in real remains In her recent study of Stonehenge the historian Rosemary Hill asserted Stonehenge does not belong to archaeology or not to archaeology alone Likewise this book is not written primarily for archaeologists or not for the interest of archaeologists alone It will also be of interest to social and cultural historians to those interested in fine art literature or film and to anyone fascinated by the construction of national local or counter cultural identities It should also intrigue anybody who lives near one of the thousands of prehistoric remains that add beauty and mystery to Britain's countryside The book surveys over eight hundred

years of rediscovery study superstition inspiration fear restoration and destruction investigating how different generations saw their own anxieties beliefs and concerns reflected in the mysterious lives of the prehistoric builders By discussing the many different ways in which prehistoric remains have been treated in different periods the book interrogates any notion of objective approaches to archaeology Instead it asserts that what we think of as the past is in fact multiple and man made Thus if we are to effectively interpret and fully understand the prehistoric remains of the past a variety of disciplines and a range of approaches both traditional and unconventional will need to work together For this reason this book has been produced as a jointly authored text a collaboration between archaeologists folklorists historians journalists and literary critics

The Old Rectory Anthony Jennings,2009-10-28 Pevsner described the pairing of church and parsonage as a feature of the English village unparalleled on the Continent John Betjeman saw the design of rectories and vicarages as highly influential on our architecture Forsaken by the Church but coveted by the private buyer this is the story of these quintessentially English houses with their combination of fine architecture charm and character large gardens and often splendidly rural locations The Old Rectory examines their history their evolution through the centuries their many and varied styles of architecture and their place in our heritage It also explores the contribution made to our culture by the clerical families who once occupied these houses and the famous people and eccentrics who have been associated with them Finally it considers their current role and what the future might hold

Polwhele and Romantic Culture Dafydd Moore,2020-12-27 Richard Polwhele was a writer of rare energies Today known only for *The Unsex d Females* and its attack on radical women writers Polwhele was a historian translator memoirist and poet As an indigent Cornish gentleman clergyman and JP his extensive written output encompassed sermons open letters and even headstone verse This book recovers the lost Polwhele locating him within an archipelagic understanding of the vitality and complexity inherent in the loyalist tradition with British Romantic culture via a range of previously unexamined texts and manuscript sources Torn between a desire for sociability and an appetite and capacity for a good argument Polwhele s outspoken contributions across a range of disciplines testify to the variety and dynamism of what has previously been considered provincial and reactionary This book locates Polwhele s work within key preoccupations of the age the social economic and political valences of literary sociability in the age of print the meaning of loyalism in an age of revolution the

meaning of place and belonging enthusiasm religious or otherwise and the self fashioning of the provincial man of letters In doing so it argues for a broader definition of Romanticism than the one that has typed Polwhele as an unpalatable embarrassment and the anachronistic voice of provincial High Tory reaction This volume will be of interest to those working in the field of late eighteenth and early nineteenth century British Literature with a particular focus on politics and on the nature of literary production and identity across the non metropolitan areas of the British Isles Sounds of Origin in Heavy Metal Music Toni-Matti Karjalainen, 2018-10-19 This book originates from the 2017 edition of the multidisciplinary Modern Heavy Metal Conference organised in Helsinki Finland This collection of seven scholarly essays explores local scenes and identities within heavy metal music from multiple angles covering a variety of different countries and metal sub genres from Finland to Indonesia and from black metal to metalcore The essays here lay various theoretical perspectives and incorporate vivid examples with metal bands and scenes from all over the world By exploring themes and discourses that are central to both research and practice this book appeals to a versatile global readership It serves the wide academic communities of metal music and popular music studies as well as of many other streams within cultural and social studies This book also provides the large and active global community of heavy metal fans with a highly interesting package of genre information and country perspectives
