Heavens Last Call To Humanity:

Heaven's Last Call to Humanity ,1996 □ The 12 Commandments — Humanity's Last Call Adriano Leonel ,2025-06-30 The 12 Commandments Humanity s Last Call Attention Silence everything around you Something eternal is about to happen This book is not a suggestion It is a divine call A cry from God amidst the noise of a generation that has stopped listening You may think you clicked here by chance but know this no step is random when heaven decides to intervene The 12 Commandments Humanity s Last Call is more than a book it is a mirror of your soul a direct confrontation with what you have become and with who you should be There is no room here for half truths for lukewarm gospel for false religiosity Each word was forged with pain prayer tears and truth This book was written with a torn soul with the conviction that there are lives at stake there are eternities being decided right now as you read these lines Within these pages you will find A brutal portrait of today s world immersed in sin indifference and mockery of God A return to forgotten commandments now revealed in a living impactful way in flesh spirit and blood Reflections that will make you cry repent tremble fall to your knees and perhaps for the first time understand how much God loves you and how much you have been running away from Him An urgent call to repentance baptism confession and a change of life This book was not written to please you It was written to save you It doesn t matter if you are a pastor a new convert an atheist or someone who has already forgotten what it means to fear God If you are still breathing there is still time But time is running out Mercy is still available but the clock is ticking Read this book Read it with an open heart with a naked soul as if it were the last message you will receive before eternity Because it might be Al Islaam: The Final Call to humanity Hassan Shabazz,2018-07-24 This book or booklet is a humble attempt by the author to shine the light of Al Islaam the Holy Qur an and the language of Imam W Deen Mohammed on Chapter 1 2 and 3 of the Book of Revelations It is my sincere belief that the Holy Scriptures are interconnected and that the Holy Qur an is the last chapter and the key to understanding all scriptures This book is dedicated to all the people who have struggle for freedom throughout the ages but it is especially dedicated to the five greatest African American men born in North America in my opinion 1 Imam W Deen Mohammed 2 Dr Martin Luther King Jr 3 Mr Elijah Muhammad 4 Mr Abdul Malik Shabazz also known as Malcolm X and finally Mr Fredrick Douglas I believe the vision seen by Dr King in his I have a dream speech will only be fulfilled in the religion of Al Islaam Islam In this book I use the spelling Imaam for Imam Islaam for Islam because I believe it gives the novice a better sense of how the words should be pronounced Your Humble Servant Hassan A Shabazz Heaven's Gate Benjamin E Zeller,Robert W Balch,2014-10-31 The captivating story of the religious group focused on transcending humanity and the Earth and seeking salvation in the literal heavens on board a UFO 2015 Best Book Award from the Communal Studies Association In March 1997 thirty nine people in Rancho Santa Fe California ritually terminated their lives To outsiders it was a mass suicide To insiders it was a graduation This act was the culmination of over two decades of spiritual and social development for the members of Heaven s Gate In this fascinating overview

Benjamin Zeller not only explores the question of why the members of Heaven's Gate committed ritual suicides but interrogates the origin and evolution of the religion its appeal and its practices By tracking the development of the history social structure and worldview of Heaven's Gate Zeller draws out the ways in which the movement was both a reflection and a microcosm of larger American culture The group emerged out of engagement with Evangelical Christianity the New Age movement science fiction and UFOs and conspiracy theories and it evolved in response to the religious quests of baby boomers new religions of the counterculture and the narcissistic pessimism of the 1990s Thus Heaven's Gate not only reflects the context of its environment but also reveals how those forces interacted in the form of a single religious body In the only book length study of Heaven's Gate Zeller traces the roots of the movement examines its beliefs and practices and tells the captivating story of its people The most thorough work on the cult of Heaven's Gate that is presently available

Choice *Heaven's Gate* George D. Chryssides,2016-12-05 On March 26 1997 the bodies of 39 men and women were found in an opulent mansion outside San Diego all victims of a mass suicide Messages left by the Heaven's Gate group indicate that they believed they were stepping out of their physical containers in order to ascend to a UFO that was arriving in the wake of the Hale Bopp comet The Heaven's Gate suicides were part of a series of major incidents involving New Religions in the 1990s as the new millennium approached Despite the major attention that Heaven's Gate attracted at the time of the suicides there have been relatively few scholarly studies This anthology on Heaven's Gate includes a combination of articles previously published in academic journals some new writings from experts in the field and some original Heaven's Gate documents All the material is expertly brought together under the editorship of George D Chryssides *Last Call: Humanity Hanging From A Cross Of Iron And Our Escape To Another Planet* Daniel R Altschuler,2022-05-30 This book tries to look at human thought and action from a scientific perspective and in the process acquaints the reader with essential concepts about science and its history It takes a broad look at our present troubles without overlooking some crucial historical religious and political causes but places science at the center stage The author applies what he has learned throughout his career to go beyond science After an introduction setting the scene and a review of the scientific temper and the inexcusable ignorance of science by some leaders and many followers the author turns his sharp vision to look at other issues The most significant challenges are critical and global climate change caused by our activities stockpiles of nuclear weapons that are a constant threat population growth and increasing inequality at all levels These problems do have a profound ethical character and threaten to end forever with our misery producing a catastrophic convergence Written with rigor for all readers with many references and infused with relevant quotations the author's message is clear we need to change our ways drastically and urgently now or never But he offers not much in terms of a solution something done by many authors to sweeten the pill because as he argues beyond lofty declarations there is no real solution as the clock runs down leading to his dystopian view of the future

Last Call for Liberty Os Guinness,2018-10-02 The American republic is suffering its gravest crisis since

the Civil War Will conflicts hostility and incivility tear the country apart Os Guinness provides a careful observation of the American experiment offering a stirring vision for faithful citizenship and renewed responsibility for not only the nation but also the watching world

Prophets and Protons Benjamin E Zeller,2010-03-01 This in depth study shows how new religious movements offer a variety of strategies for reconciling science and religious faith By the twentieth century established religious traditions were forced to grappled with the challenges presented by scientific knowledge and innovation But emerging religions still led by a living founder to guide them found new ways to respond to science The Hare Krishnas the Unification Church and Heaven s Gate each found distinct ways to incorporate major findings of modern American science understanding it as central to their wider theological and social agendas In Prophets and Photons Benjamin Zeller examines how these New Religious Movements NRMs crafted their views on science during their founding period and how those views evolved over time These NRMs shed light on how religious groups new old alternative or mainstream could respond to the tremendous growth of power and prestige of science in late twentieth century America In this engrossing book Zeller carefully shows that religious groups had several methods of creatively responding to science and that the often assumed conflict based model of science vs religion must be replaced by a more nuanced understanding of how religions operate in our modern scientific world

Brown,2021-08-22 Eternal Life and Human Happiness in Heaven treats four apparent problems concerning eternal life in order to clarify our thinking about perfect human happiness in heaven The teachings of St Thomas Aquinas provide the basis for solutions to these four problems about eternal life insofar as his teachings call into question common contemporary theological or philosophical presuppositions about God human persons and the nature of heaven itself Indeed these Thomistic solutions often require us to think very differently from our contemporaries But thinking differently with St Thomas is worth it for the Thomistic solutions to these apparent problems are more satisfying on both theological and philosophical grounds than a number of contemporary theological and philosophical approaches Christopher Brown deploys his argument in four sections The first section lays out in three chapters four apparent problems concerning eternal life Is heaven a mystical or social reality Is heaven other worldly or this worldly Is heaven static or dynamic Won t human persons eventually get bored in heaven Brown then explains how and why some important contemporary Christian theologians and philosophers resolve these problems and notes serious problems with each of these contemporary solutions The second section explains in five chapters St Thomas significant distinction between the essential reward of the saints in heaven and the accidental reward and treats in detail his account of that in which the essential reward consists namely the beatific vision and the proper accidents of the vision delight joy and charity The third section treats in five chapters St Thomas views on the multifaceted accidental reward in heaven where the accidental reward includes among other things glorified human embodiment participation in the communion of the saints and the joy experienced by the saints in sensing God s new heavens and new earth Finally section four argues in four chapters that St Thomas views allow for powerful solutions to the four apparent problems about eternal life examined in the first section These solutions are powerful because not only are they consistent with authoritative Catholic Christian Tradition but they do not raise any of the significant theological or philosophical problems that attend the contemporary theological and philosophical solutions examined in the first section The Final Call Prince Nyazika,2011-04-02 The Biblical Sabbath and its true Calendar Jews Seventh day Adventists and many other Sabbatarians observe the Sabbath on Saturday basing this practice on the fact that Saturday is

the 7th day of the Gregorian calendar week But is this truly the Sabbath of the Creator mentioned in the Scriptures Can a divine institution sanctioned by the Creator of the Heavens and Earth be observed on a calendar that has its roots in paganism or is there more to the Sabbath question than many honest truth seeking Christians have dared to ask This book will reveal why neither Saturday nor Sunday are NOT the 7th day Sabbath of the Lord This is the message of the hour
