Hecla A Century Of Western Mining:

Hecla John Fahey,1990 **Chronology of the American West** Scott C. Zeman,2002-05-28 This four part chronology presents the unfolding of the American West from 23 000 B C E to A D 2001 Not long ago the story of the American West was an uncomplicated tale Its theme was The Winning of the West and its plot simply followed Euro Americans as they galloped across the continent But throughout the last two decades historians like Scott C Zeman have begun to examine the story and separate the myths from the facts Today the history of the American West is about the land itself about conquest and colonization about migration and social change Its heroes are not only white men but also women and children and peoples of African Asian Native American and European descent In this up to date chronology readers can explore hundreds of political social and cultural plot points from the arrival of the continent s first migrants more than 20 000 years ago to the Wounded Knee Massacre in 1890 and from the completion of the trans Alaska pipeline in 1977 to the shootings at Columbine High School in 2000

The Mountainous West William Wyckoff,Lary M. Dilsaver,1995-01-01 Traditional interpretations of the American West have concentrated on the importance of its aridity to the region s cultural evolution and development But the West is marked by a second fact of physical geography that distinguished it from the experiences of settlers from the east As pioneers struggled with the climate west of the hundredth meridian they were also confronted by mountains strewn across the region and offering their own set of limitations and opportunities This volume focuses on these green islands of the Mountainous West that have witnessed patterns of settlement and development distinct from their lowland neighbors In thirteen essays the contributors address the mountains by means of five themes the mountains as barriers to movement islands of moisture a zone of concentrated resources an area of government control and a restorative sanctuary The focus ranges from California s Sierra Nevada to the Rocky Mountains of Colorado Utah and Montana William K Wyckoff is an associate professor Department of Earth Sciences Montana State University He is the author of *The Developer s Frontier The Making of the Western New York Landscape* and of articles in many journals including *The California Geographer* *Social Science Journal* *Geographical Review* and *Journal of Historical Geography* Lary M Dilsaver is a professor in the Department of Geology and Geography University of South Alabama The author with William Tweed of *Challenge of the Big Trees A Resource History of Sequoia and Kings Canyon National Parks* he has also written articles in journals such as *Geographical Review* *Annals of Tourism Research* and *Yearbook of the Association of Pacific Coast Geographers*

Idaho's Bunker Hill Katherine G. Aiken,2005 A richly detailed history traces the evolution of one of the premier mining and smelting corporations in the United States from the discovery of the mine in 1885 to the company s closure in 1981 where it is now one of the EPA s largest Superfund sites

The Silver Valley ,2010 The descent into Idaho from the Montana border down Lookout Pass on Interstate 90 largely follows the trail Capt John Mullan blazed over 150 years ago The Silver Valley is home to Shoshone County s seat the historic silver mining city of Wallace which has been something of a phoenix rising out of the ashes of two

great fires Along with Wallace the valley encompasses many other small mining towns such as Mullan Silverton Osburn Kellogg Smelterville Pinehurst and Kingston with diverse histories that are both humorous and heartbreaking It also surrounds the Cataldo Mission Idaho s oldest standing building built by the Jesuits and the Coeur d Alene tribe in 1848

In Mountain Shadows Carlos A. Schwantes,1991-01-01 Idaho is now seen as one of the most intriguing and attractive states in the Union Any view of the Gem State is likely to be broadened and deepened by this superbly written history of it In Mountain Shadows Carlos A Schwantes illustrates the extent to which Idahoans have always been divided by geography transportation patterns religion and history Although the state motto should have been Divided We Stand as he says in affectionate jest it is also true that Idahoans come together on some basics on avoiding crowds and maintaining the good life close to scenic mountains and streams Schwantes reaches back to 1805 when Lewis and Clark were among the first white men to enter present day Idaho He describes the Indians then living in the

Great Basin and Plateau and proceeds through layers of history to show how fur traders missionaries and overland emigrants defined the land that became a territory in 1863 and finally a state in 1890 The vigilantism Indian wars mining booms and busts and an imosity toward Mormons and Chinese immigrants that marked the territorial years gave way to more troubles in the early years of statehood an economic downturn industrial violence political protest The arrival of automobiles promised to end isolation but the formidable terrain slowed the building of north south highways just as it had railroads Nevertheless future Idaho would be a product of engineering and witness the coming of irrigation systems and hydroelectric plants Schwantes brings his history through the Great Depression World War II and the Cold War noting everyday life colorful personalities political and economic cycles raging controversies and current trends **Big Trouble** J.
