Robert Goodman, 1972 **Intimacy, Transcendence, and Psychology** S. Halling, 2007-12-25 This book addresses the richness and depth of our intimate relationships and especially those moments when we come to see ourselves and the other person in a new way In such moments we realize that however much we are influenced by heredity and upbringing we are also agents with the capacity for openness and transcendence The Human Capacity for Transformational Change Valerie A. Brown, John A. Harris, 2014-02-24 Pressures for transformational change have become a regular feature of most fields of human endeavour Master thinkers and visionaries alike have reframed existing divisions as connecting relationships bringing together as dynamic systems the supposed opposites of parts and wholes stability and change individuals and society and rational and creative thinking This reframing of opposites as interconnected wholes has led to realisation of the power of a collective mind This book offers ways and means of creating the synergies that are crucial in influencing a desired transformational change towards a just and sustainable future It describes how and why our current decision making on any complex issue is marked by clashes between the different interests involved More optimistically the book pursues a mode of thinking that brings together government specialised and community interests at the local regional and personal scales in a collective transformation process Practical examples signal the emergence of a new knowledge tradition that promises to be

as powerful as the scientific enlightenment Written in accessible language this book will be insightful reading for anyone struggling with transformational change especially researchers students and professionals in the fields of administration governance environmental management international development politics public health public law sociology and community development

Corruption in Argentina Natalia A. Volosin, 2019-08-20 The book provides an institutional historical and sectorial analysis of Argentina's structural corruption Looking back over the last 200 years the book demonstrates that Argentina has historically addressed corruption through ineffective debates between public private biases or a cultural criminal approach reinforced by modernization theory neither of which have helped tackle the problem Instead Volosin proposes meaningful institutional reforms to reduce opportunities for corruption and to increase monitoring incentives and capabilities The book argues that political economy hindrances for reform are as significant as reform itself and shows that in times of crisis or scandal the need to move quickly to satisfy citizen demands forces politicians to promote unplanned changes that lack real teeth Moreover the machine's reach over most public and private actors precludes regime undermining reform which is precisely what is needed to meaningfully attack entrenched structural corruption In order to combat serious deficits in the public procurement regime Volosin recommends a micro sectorial analysis of government procurement supported by an innovative human rights strategy to help measure and disclose corruption's hidden social cost raise awareness integrate vulnerability criteria into the fight against corruption and employ local regional and international litigation and monitoring tools to compel the political branches to perform structural change This innovative exploration into corruption in Argentina will be of interest to researchers working on public policy administrative law anticorruption studies law and development and governance both in Argentina and beyond

Down in the Chapel Joshua Dubler, 2013-08-13 A bold and provocative interpretation of one of the most religiously vibrant places in America a state penitentiary Baraka Al Teddy and Sayyid four black men from South Philadelphia two Christian and two Muslim are serving life sentences at Pennsylvania's maximum security Graterford Prison All of them work in Graterford's chapel a place that is at once a sanctuary for religious contemplation and an arena for disputing the workings of God and man Day in day out everything is in its twisted way rather ordinary And then one of them disappears Down in the Chapel tells the story of one week at Graterford Prison We learn how the men at Graterford pass their time care for themselves and commune with their makers We observe a variety of Muslims Protestants Catholics and others at prayer and in study and song And we listen in as an interloping scholar of religion tries to make sense of it all When prisoners turn to God they are often scorned as con artists who fake their piety or pitied as wretches who cling to faith because faith is all they have left Joshua Dubler goes beyond these stereotypes to show the religious life of a prison in all its complexity One part prison procedural one part philosophical investigation Down in the Chapel explores the many uses prisoners make of their religions and weighs the circumstances that make these uses possible Gritty and visceral meditative and searching it is an essential study of American religion in the age
