## **Hegel Dictionary:**

The Hegel Dictionary Glenn Alexander Magee, 2010-01-01 An accessible dictionary of the key terms ideas influence and legacy of G W F Hegel one of the most important German Philosophers of the 19th Century     **A Hegel Dictionary** , 1992

A Hegel Dictionary Michael Inwood, 1992-11-03 This book provides a comprehensive survey of Hegel s philosophical thought via a systematic exploration of over 100 key terms from absolute to will By exploring both the etymological background of such terms and Hegel s particular use of them Michael Inwood clarifies for the modern reader much that has been regarded as difficult and obscure in Hegel s work     **Hegel's Encyclopedic System** Sebastian Stein, Joshua

Wretzel, 2021-09-23 This book discusses the most comprehensive of Hegel s works his long neglected Encyclopedia of the Philosophical Sciences in Outline It contains original essays by internationally renowned and emerging voices in Hegel scholarship Their contributions elucidate fundamental aspects of Hegel s encyclopedic system with an eye to its contemporary relevance The book thus addresses system level claims about Hegel s unique conceptions of philosophy philosophical science and its method dialectic speculative thinking and the way they relate to both Hegelian and contemporary notions of nature history religion freedom and cultural praxis     Historical Dictionary of Hegelian Philosophy John W. Burbidge, 2008-08-22 George Wilhelm Friedrich Hegel evoked passionate discipleship as well as equally passionate opposition He was praised by the likes of Karl Marx and John Dewey but scorned by Karl Popper and Bertrand Russell He has been charged with being a proponent of an authoritarian state by some and he has been accused of instigating the dissolution of the state by others Notoriously difficult to understand Hegel s keen insights continue his legacy today The second edition of the Historical Dictionary of Hegelian Philosophy covers all aspects of Hegel s thought It discusses his students and colleagues as well as key figures who either adopted and adapted his thought or attempted to explicate it for later generations This is done through a chronology an introductory essay a glossary of German terms a bibliography and over 500 cross referenced dictionary entries     The Palgrave Hegel Handbook Marina F. Bykova, Kenneth R.

Westphal, 2020-04-29 This handbook presents the conceptions and principles central to every aspect of Hegel s systematic philosophy In twenty eight thematically linked chapters by leading international experts The Palgrave Hegel Handbook provides reliable scholarly overviews of each subject illuminates the main issues and debates and details concisely the considered views of each contributor Recent scholarship challenges traditional largely anti Kantian readings of Hegel focusing instead on Hegel s appropriation of Kantian epistemology to reconcile idealism with the rejection of foundationalism coherentism and skepticism Focused like Kant on showing how fundamental unities underlie the profusion of apparently independent events Hegel argued that reality is rationally structured so that its systematic structure is manifest to our properly informed thought Accordingly this handbook re assesses Hegel s philosophical aims methods and achievements and re evaluates many aspects of Hegel s enduring philosophical contributions ranging from metaphysics epistemology and

dialectic to moral and political philosophy and philosophy of history Each chapter and The Palgrave Hegel Handbook as a whole provides an informed authoritative understanding of each aspect of Hegel's philosophy *Hegel's Political Philosophy* Thom Brooks, 2012-11-30 A new and significantly expanded edition of the first systematic reading of Hegel's political philosophy *The Blackwell Guide to Hegel's Phenomenology of Spirit* Kenneth R. Westphal, 2009-02-11 Providing a groundbreaking collective commentary by an international group of leading philosophical scholars Blackwell's Guide to Hegel's Phenomenology of Spirit transforms and expands our understanding and appreciation of one of the most challenging works in Western philosophy Collective philosophical commentary on the whole of Hegel's Phenomenology in sequence with the original text Original essays by leading international philosophers and Hegel experts Provides a comprehensive Bibliography of further sources **Hegel's Laws**, 2008-06-20 An introduction to Hegel's ideas on the nature of law This book takes readers through different structures of legal consciousness from the private law of property contract and crimes to intentionality the family the role of the state and international law **Hegel's Moral Corporation** Thomas Klikauer, 2016-01-26 Hegel's Moral Corporation is about two versions of a corporation one business oriented and dedicated to shareholder value and profit maximisation and one dedicated to moral life Sittlichkeit in Hegelian terms **Hegel's Trinitarian Claim** Dale M. Schlitt, 2012-12-01 Landmark study of Hegel's arguments for God as Trinity **The Logic of Desire** Peter Kalkavage, 2007 The best introduction for the general reader to Georg Wilhelm Friedrich Hegel's Phenomenology of Spirit **The Return of Nature** John Bellamy Foster, 2020-06-16 Winner 2020 Isaac and Tamara Deutscher Memorial Prize A fascinating reinterpretation of the radical and socialist origins of ecology Twenty years ago John Bellamy Foster's Marx's Ecology Materialism and Nature introduced a new understanding of Karl Marx's revolutionary ecological materialism More than simply a study of Marx it commenced an intellectual and social history encompassing thinkers from Epicurus to Darwin who developed materialist and ecological ideas Now with The Return of Nature Socialism and Ecology Foster continues this narrative In so doing he uncovers a long history of the efforts to unite questions of social justice and environmental sustainability and helps us comprehend and counter today's unprecedented planetary emergencies The Return of Nature begins with the deaths of Darwin 1882 and Marx 1883 and moves on until the rise of the ecological age in the 1960s and 1970s Foster explores how socialist analysts and materialist scientists of various stamps first in Britain then the United States from William Morris and Frederick Engels to Joseph Needham Rachel Carson and Stephen J Gould sought to develop a dialectical naturalism rooted in a critique of capitalism In the process he delivers a far reaching and fascinating reinterpretation of the radical and socialist origins of ecology Ultimately what this book asks for is nothing short of revolution a long ecological revolution aimed at making peace with the planet while meeting collective human needs *Translation and Hegel's Philosophy* David Charlston, 2020-02-21 This volume engages with translations of philosophy as complex socially structured narratives bound by emotional political and philosophical connections exploring these dynamics at work in A V

Miller's Hegel translations and retranslations published between 1969 and 1986 The book contextualises Miller's lifelong commitment to Hegel and builds on this narrative to lay the foundations for its socio narrative Bourdieusian and feminist theoretical frameworks applied to the texts and paratexts of Miller's six retranslations The volume's plurifocal sociological approach both illuminates the role of translators and publishers of philosophy in the great transformation of political liberalism and subsequently seeks to transform understanding about the ethical responsibilities of translators of philosophy in communicating values of diversity and change in political thinking In highlighting the value of sociologically grounded analyses of translations of philosophical works this book is key reading for students and scholars in translation studies

German studies continental and feminist informed philosophies Hegel's 'Philosophy of Right' David Edward Rose, 2007-04-09 Hegel's Philosophy of Right is a classic text in the history of Western political thought and one with which all serious students of political philosophy must engage While it is a hugely important and exciting piece of philosophical writing Hegel's ideas and style are notoriously difficult to understand and the content is particularly challenging In Hegel's Philosophy of Right A Reader's Guide David Rose explains the philosophical and political background against which the book was written and taking each part of the book in turn guides the reader to a clear understanding of the text as a whole This is the ideal companion to study of this most influential and challenging of texts offering guidance on Philosophical and historical context Key themes Reading the text Reception and Influence Further Reading **The Routledge Guidebook to**

**Hegel's Phenomenology of Spirit** Robert Stern, 2013-02-11 The Phenomenology of Spirit is arguably Hegel's most influential and important work and is considered to be essential in understanding Hegel's philosophical system and his contribution to western philosophy The Routledge Guidebook to Hegel's Phenomenology of Spirit introduces the major themes in Hegel's great book and aids the reader in understanding this key work examining The context of Hegel's thought and the background to his writing Each separate part of the text in relation to its goals meaning and significance The reception the book has received since its publication The relevance of Hegel's ideas to modern philosophy With a helpful introductory overview of the text end of chapter summaries and further reading included throughout this text is essential reading for all students of philosophy and all those wishing to get to grips with Hegel's contribution to our intellectual world

*Hegel's 'Individuality'* Martin Donougho, 2023-08-31 This book explores an overlooked area in Hegel studies his use of individuality Individuality Hegel joined a lively conversation from Leibniz to Romanticism and beyond about this novel concept phenomenon Successive chapters track Hegel's engagement in such texts as the Phenomenology Encyclopedia and Aesthetics Hegel's system tends to follow a syllogistic logic universal particular singular but individuality departs from the norm The category enacts a certain pragmatics as against semantics or syntactics regarding tacit assumptions at work or implicit terms of address which requires active participation by a thinking subject charged with discerning individuality which bars resort to explicit rules The category reflexively implicates the user even in presuming an objective context

Individuality should not be confused with individualism wholly distinct in origin Moreover Hegel s Aesthetics embraces a paradoxical anachronism Like art itself individuality emerged as an essentially modern category though one transferred to the past and to distant cultures     Hegel's Shorter Logic John Grier Hibben, Eric v.d. Luft, 2013-11-27 Luft s update of Hibben s classic work on Hegel s Encyclopedia Logic one of the clearest most illuminating most helpful and most popular expositions of this rich and difficult text     Essays on Hegel's Philosophy of Subjective Spirit David S. Stern, 2013-01-01 The first English language collection devoted to Hegel s Philosophy of Subjective Spirit     On Mechanism in Hegel's Social and Political Philosophy Nathan Ross, 2008-03-15 In this erudite study Ross considers the role of the concept of mechanism in the social and political philosophy of G W F Hegel and his immediate predecessors in German political thought
