Hegels Political Writings

Georg Wilhelm Fredrich Hegel

Hegels Political Writings:

Political Writings Georg Wilhelm Friedrich Hegel, 1999 This major addition to the series of Cambridge Texts in the History of Political Thought seeks to give students with no specialist knowledge access to both the practical and the metaphysical aspects of Hegel's political thought The ethical and metaphysical texts in this collection both illuminate and contrast with those political and historical texts in which Hegel draws important conclusions about the modern world from remarkable comparative analyses of recent developments in England France and Germany The translator of these texts H B Nisbet was responsible for the acclaimed rendition of Hegel's *Philosophy of Right* already published in this series and Lawrence Dickey's lucid editorial commentary introduces this distinctive corpus of political writing by one of the very greatest thinkers in the European tradition A full chronology explanatory annotation glossary and bibliography are appended to aid the student reader

Hegel: Political Writings Georg Wilhelm Friedrich Hegel, 1999-08-05 With a full chronology general introduction explanatory annotation glossary and bibliography this volume seeks to give students with no specialist knowledge access to both the practical and metaphysical aspects of Hegel's political thought This collection gathers together for the first time in English translation Hegel's most important political writings other than the *Philosophy of Right* and provides insights into how Hegel's educational and religious views conflicted with the political values around which Prussian authorities organized their authoritarian regime

Hegel's Political Writings Georg Wilhelm Friedrich Hegel, 1964

Political Writings Georg Wilhelm Friedrich Hegel, 1999 The ethical and metaphysical texts in this collection illuminate and contrast with those political and historical texts in which Hegel draws important conclusions about the modern world from remarkable comparative analyses of recent developments in England France and Germany back cover **G.W.F.**

Hegel--political Writings Georg Wilhelm Friedrich Hegel, 1999 This major addition to the series of Cambridge Texts in the History of Political Thought seeks to give students with no specialist knowledge access to both the practical and the metaphysical aspects of Hegel's political thought The ethical and metaphysical texts in this collection both illuminate and contrast with those political and historical texts in which Hegel draws important conclusions about the modern world from remarkable comparative analyses of recent developments in England France and Germany The translator of these texts H B Nisbet was responsible for the acclaimed rendition of Hegel's *Philosophy of Right* already published in this series and Lawrence Dickey's lucid editorial commentary introduces this distinctive corpus of political writing by one of the very greatest thinkers in the European tradition A full chronology explanatory annotation glossary and bibliography are appended to aid the student reader

Hegel's Political Philosophy Z. A. Pelczynski, 1971-09 Originally published in 1971 this volume was created to commemorate the bicentenary of Hegel's birth in 1770 Thirteen essays are included from experts with diverse approaches concentrating on the central issues of Hegel's political philosophy and covering all of the major political works These essays demonstrate the vitality of Hegel's philosophical perspective engaging the reader and providing a way into the

often difficult explication of his ideas Whilst this is a commemorative edition and the views put forward are broadly sympathetic a critical distance is maintained allowing for numerous fresh insights Accessible and highly informative this book will be of value to anyone with an interest in Hegelian thought and its political implications **Debating the Political**

Philosophy of Hegel Walter Kaufmann, 2009-12-01 Few philosophers have had as much influence as Hegel When he died in 1831 he not only dominated German philosophy but also left his mark on the study of religion and art on historical studies and on political thought Much later Lenin insisted that no one could completely comprehend Karl Marx unless he had first made a thorough study of Hegel Later it became fashionable to link Hegel with Nazism and communism There is today broad agreement that knowledge of Hegel's thought adds a critical dimension to our understanding of recent cultural and political history This volume first published in 1970 focuses on Hegel's political philosophy It brings together ten essays by six authors who present sharply conflicting interpretations Here are point by point discussions from differing perspectives on Hegel's philosophy of the state and his ideas about history and war nationalism and liberty Never before have these issues been joined in comparable fashion in a single volume Sidney Hook sees Hegel as the very model of a small minded timid Continental conservative and accuses him of the most specious reasoning that ever disgraced a philosopher and E F Carrington argues for a totalitarian reading of Hegel while T M Knox and Shlomo Avineri defend Hegel against these and other charges The book also contains a short contribution by Z A Pelczynski and Walter Kaufmann's The Hegel Myth and Its Method Walter Kaufmann an outstanding historian of European ideas in philosophy furnished an introduction as well as footnotes that help to clarify perplexing issues and in some cases seek to put an end to long lived errors His analysis is itself a major contribution to Hegel's political theories G.W.F. Hegel Fred Reinhard Dallmayr, 2002 This revised edition interprets Hegel's

postmodern as the dissemination of the liberating spirit in the capillaries of democratic lifeworlds Hegel's Political Writings ; Translated from the German by T.M. Knox, with an Introductory Essay by Z. A. Pelczynski Georg Wilhelm Friedrich Hegel, 1964 **Hegel's Political Philosophy** Dr Thom Brooks, 2007 Hegel's Elements of the Philosophy of Right is widely

acknowledged to be one of the most important works in the history of political philosophy It is broadly agreed that Hegel intended this work to be interpreted as a significant part of his greater system of speculative philosophy Where disagreement occurs is on the question of the relevance of Hegel's larger philosophical system to understanding his Philosophy of Right This is the first book on the subject to take Hegel's system of speculative philosophy seriously as an important component of any robust understanding of his Philosophy of Right It sets out the difference between systematic and non systematic readings of the text before discussing important relevant features of Hegel's system in particular the unique structure of his philosophical arguments The greater part of the book demonstrates the results of this systematic reading by exploring several areas of Hegel's political philosophy his theories of property punishment morality law monarchy and war It is shown that by looking beyond the text to Hegel's larger philosophical system we can achieve an improved understanding of Hegel's

Philosophy of Right *Hegel's Political Philosophy* Stephen C. Bosworth, 2019-09-09 Originally published in 1991 this volume examines Hegel's political philosophy from the perspective of his argument for constitutional monarchy. It offers an interpretation of Hegelian theory that is relevant for the understanding of modern republican constitutions. Modern republican theories are assessed together with those of Plato, Kant, and Marx in order to put Hegel's model to the most rigorous test. The arguments are based on fresh analysis of Hegel's system and on new translations of key passages in Hegel's text.

Hegel's Political Philosophy Thom Brooks, 2012-11-30 A new and significantly expanded edition of the first systematic reading of Hegel's political philosophy.

Hegel and the Metaphysical Frontiers of Political Theory Eric Lee Goodfield, 2014-06-27 For over one hundred and fifty years G. W. F. Hegel's ghost has haunted theoretical understanding and practice. His opponents first and later his defenders have equally defined their programs against and with his. In this way Hegel's political thought has both situated and displaced modern political theorizing. This book takes the reception of Hegel's political thought as a lens through which contemporary methodological and ideological prerogatives are exposed. It traces the nineteenth-century origins of the positivist revolt against Hegel's legacy forward to political science's turn away from philosophical tradition in the twentieth century. The book critically reviews the subsequent revisionist trend that has eliminated his metaphysics from contemporary considerations of his political thought. It then moves to re-evaluate their relation and defend their inseparability in his major work on politics, the *Philosophy of Right*. Against this background, the book concludes with an argument for the inherent metaphysical dimension of political theorizing itself. Goodfield takes Hegel's reception, representation as well as rejection in Anglo-American scholarship as a mirror in which its metaphysical presuppositions of the political are exceptionally well reflected. It is through such reflection, he argues, that we may begin to come to terms with them. This book will be of great interest to students, scholars, and readers of political theory and philosophy, Hegel, metaphysics, and the philosophy of the social sciences.

Hegel's Political Philosophy Mark Tunick, 2014-07-14 To scholars of Western intellectual history, Hegel is one of the most important of all political thinkers, but politicians and other down-to-earth persons see his speculative philosophy as far removed from their immediate concerns. Put off by his difficult terminology, many participants in practical politics may also believe that Hegel's idealism unduly legitimates the status quo. By examining his justification of legal punishment, this book introduces a Hegel quite different from these preconceptions: an acute critic of social practices. Mark Tunick draws on recently published but still untranslated lectures of Hegel's philosophy of right to take us to the core of Hegel's political thought. Hegel opposes radical criticism like that later offered by Marx but argues, Tunick claims, he employs immanent criticism instead. For instance, Hegel claims that punishment is the criminal's right and makes the criminal free. From this standpoint, he defends specific features of the practice of punishment that accord with this retributive ideal and criticizes other features that contradict it. In a lucid account of what Hegel means by right and freedom, Tunick addresses Hegel specialists and those interested in criminal law, the

interpretation of legal institutions and social practices and justification from an immanent standpoint Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The State and Civil Society: Studies in Hegel's Political Philosophy Z. A. Pelczynski, 1984-11 This book discusses the state and civil society which were distinguished by Hegel as two stages in the dialectical development from the family to the nation

The Legacy of Hegel J.J. O'Malley, K.W. Algozin, H.P. Kainz, L.C. Rice, 2012-12-06 The present volume represents the proceedings of the Marquette Hegel Symposium held at Marquette University Milwaukee Wisconsin on June 2 5 1970 The Symposium celebrating the two hundredth anniversary of Hegel's birth was presented under the combined sponsorship of the Philosophy Department of Marquette University the American Council of Learned Societies and the Johnson Foundation of Racine Wisconsin Its general theme embraced not only specific topics of interest in contemporary Hegel studies but also the wider aspects of the influences and impact of Hegel's thought upon contemporary philosophical political and social problems Principal contributors and panelists were selected for their scholarly achievements in Hegel studies and also in keeping with the broad view of the Hegelian legacy in current thought All sessions of the Symposium were plenary and designed for maximum discussion and interchange among participants The Symposium Committee regrets that it has not been feasible to incorporate the transcript of the discussions except for the round table discussion on editing and translating Hegel into this volume The papers presented in each day's sessions are published here with editorial changes and corrections made by their respective authors The papers by Professors Otto Poggeler and Eric Weil were originally translated by members of our Committee the present versions incorporate many changes and corrections made by their authors The comments on each paper were brought into their present form only after the Symposium and in the light of the discussions which took place during it

Debating the Political Philosophy of Hegel Walter Kaufmann, 2018-02-06 Few philosophers have had as much influence as Hegel When he died in 1831 he not only dominated German philosophy but also left his mark on the study of religion and art on historical studies and on political thought Much later Lenin insisted that no one could completely comprehend Karl Marx unless he had first made a thorough study of Hegel Later it became fashionable to link Hegel with Nazism and communism There is today broad agreement that knowledge of Hegel's thought adds a critical dimension to our understanding of recent cultural and political history This volume first published in 1970 focuses on Hegel's political philosophy It brings together ten essays by six authors who present sharply conflicting interpretations Here are point by point discussions from differing perspectives on Hegel's philosophy of the state and his ideas about history and war nationalism and liberty Never before have these issues been

joined in comparable fashion in a single volume Sidney Hook sees Hegel as the very model of a small minded timid Continental conservative and accuses him of the most specious reasoning that ever disgraced a philosopher and E F Carritt argues for a totalitarian reading of Hegel while T M Knox and Shlomo Avineri defend Hegel against these and other charges The book also contains a short contribution by Z A Pelczynski and Walter Kaufmann s The Hegel Myth and Its Method Walter Kaufmann an outstanding historian of European ideas in philosophy furnished an introduction as well as footnotes that help to clarify perplexing issues and in some cases seek to put an end to long lived errors His analysis is itself a major contribution to Hegel s political theories

On Mechanism in Hegel's Social and Political Philosophy Nathan Ross,2008-03-15 On Mechanism in Hegel s Social and Political Philosophy examines the role of the concept of mechanism in Hegel s thinking about political and social institutions It counters as overly simplistic the notion that Hegel has an organic concept of society It examines the thought of Hegel s peers and predecessors who critique modern political intuitions as machine like focusing on J G Herder Friedrich Schlegel and Novalis From here it examines the early writings of Hegel in which Hegel makes a break with the Romantic way of thinking about ethical community Ross argues that in this period Hegel devises a new way of thinking about the integration of mechanistic and organic features within an organizational whole This allows Hegel to offer an innovative theory of modern civil society as a component in ethical life The second half of the book examines how Hegel develops this thought in his later works It offers an in depth commentary on the chapter on mechanism in the Science of Logic and it demonstrates the role of these thoughts in Hegel s Philosophy of Right On Mechanism in Hegel s Social and Political Philosophy offers a critical response to debates over communitarianism by arguing against one of the central figures used by scholars to associate Hegel with communitarian thought namely the notion that society is organic In addition it argues that Hegel political theory is deeply informed by his formal ontology as developed in the Science of Logic

Political Thought in the Age of Revolution 1776-1848 Michael Levin,2010-12-09 The years between the American Revolution of 1776 the French Revolution of 1789 and the European Revolutions of 1848 saw fundamental shifts from autocracy to emerging democracy It is a vital period in what may be termed modernity that is of the western societies that are increasingly industrial capitalist and liberal democratic Unsurprisingly these years of stress and transition produced some significant reflections on politics and society This indispensable introductory text considers how a cluster of key thinkers viewed the global political upheavals and social changes of their time covering the work of Edmund Burke Georg Hegel Thomas Paine Alexis de Tocqueville Jeremy Bentham Karl Marx and Friedrich Engels Lively and approachable it is essential reading for anyone with an interest in modern history political history or political thought

Hegel's Dialectical Political Economy Paul Diesing,2019-03-01 This book demonstrates how Hegel s dialectic can be used in empirical research and shows how one can do dialectical research in economics It also shows how one can use dialectical thinking to interpret some personal or social or political problem and devise a possible solution
