Heimatfront Kriegsalltag In Deutschland:

Der Zeitzeuge Joachim Dyck, 2006 **Heimatfront** Jürgen Engert, 1999 **Surviving Hitler's War** H.

Vaizey, 2010-09-22 Telling the stories of mothers fathers and children in their own words Vaizey recreates the experience of family life in Nazi Germany From last letters of doomed soldiers at Stalingrad to diaries kept by women trying to keep their families alive in cities under attack the book vividly describes family life under the most extreme conditions **Bombing,**

States and Peoples in Western Europe 1940-1945 Claudia Baldoli, Andrew Knapp, Richard Overly, 2011-06-30 This is the first book to treat bombing during WWII as a European phenomenon and not just the Blitz on Britain and Germany With Western Europe now at the heart of a united continent it is even more difficult to explain how only 70 years ago European states destroyed much of the urban landscape from the air There were many blitzes between 1940 and 1945 with an estimated 700 000 people killed The purpose of this book is to provide the basis for a comparison of the experience of western states under the impact of bombing In particular it considers the political cultural and social responses to bombing rather than the military strategic and social dimensions which have formed the core of the discussion hitherto This book will correct the popular perception of the British Blitz as the key bombing experience by exposing the reality of life under the bombs for communities as far apart as Brest Palermo and Rostock An international panel of historians consider the issues raised amidst the bombing of human rights and protection of civilians in this seminal event in C20th history **Nazi**

Cinema as Enchantment Mary-Elizabeth O'Brien, 2006 The Nazi regime did not merely terrorize its citizens into submission it also seduced them by offering stability a traditional value system a sense of belonging and hope of a better standard of living Nazi cinema s popularity rested on its ability to express positive social fantasies and promote the enchantment of reality so that one would want to share in the dream at any price This is an interdisciplinary study written for scholars and students in the fields of film studies German studies history critical studies and political science that explores how cinema participated in the larger framework of everyday fascism The book examines how five film genres the historical musical the foreign adventure film the home front film the melodrama and the problem film enchanted audiences and enacted shared stories that can tell us much about how family community history the nation and the war were imagined in Nazi Germany The book analyzes thirteen motion pictures many of which are not well known to English speaking audiences Wunschkonzert Die gro e Liebe Tanz auf dem Vulkan Damals Die Degenhardts Opfergang Kautschuk Robert und Bertram Verklungene Melodie Frauen f r Golden Hill Das Leben kann so sch n sein Der verzauberte Tag and Via Mala Based on exhaustive research in German archives the book examines in addition to the films themselves articles from the propaganda ministry s official organ Der deutsche Film daily trade sheets fan magazines and even studio press packages for individual stars and films Mary Elizabeth O'Brien is Professor of German at Skidmore College Saratoga Springs New York *Alles begann in Berlin* Christa A. Ossmann-Mausch, 2005 **The Legacies of Two World Wars** Lothar Kettenacker, Torsten Riotte, 2011-08-01 The US

invasion of Iraq in 2003 was done mainly if one is to believe US policy at the time to liberate the people of Iraq from an oppressive dictator. However, the many protests in London, New York and other cities imply that the policy of making the world safe for democracy was not shared by millions of people in many Western countries. Thinking about this controversy inspired the present volume which takes a closer look at how society responded to the outbreaks and conclusions of the First and Second World Wars. In order to examine this relationship between the conduct of wars and public opinion, leading scholars trace the moods and attitudes of the people of four Western countries: Great Britain, France, Germany and Italy before, during and after the crucial moments of the two major conflicts of the twentieth century. Focusing less on politics and more on how people experienced the wars, this volume shows how the distinction between enthusiasm for war and concern about its consequences is rarely clear cut.

German Angst Frank Biess, 2020-09-09. *German Angst* analyses the relationship between fear and democracy in postwar West Germany. While fear and anxiety have historically been associated with authoritarian regimes, Frank Biess demonstrates the ambivalent role of these emotions in a democratizing society in West Germany: fear and anxiety both undermined democracy and stabilized it. By taking seriously postwar Germans' uncertainties about the future, this study challenges dominant linear and teleological narratives of postwar West German success, highlighting the prospective function of memories of war, National Socialism and the Holocaust. Postwar Germans projected fears and anxieties that they derived from memories of a catastrophic past into the future. Based on case studies from the 1940s to the present, *German Angst* provides a new interpretive synthesis of the Federal Republic. It tells the history of the Federal Republic as a series of cyclical crises in which specific fears and anxieties emerged, served a variety of political functions and then again abated. Drawing on recent interdisciplinary insights generated by the field of emotion studies, Biess's study transcends the dichotomy of reason and emotion. Fear and anxiety were not exclusively irrational and dysfunctional but served important roles in postwar democracy. These emotions sensitized postwar Germans to the dangers of an authoritarian transformation and they also served as emotional engines of new social movements, including the environmental and peace movements. *German Angst* also provides an original analysis of the emotional basis of right-wing populism in Germany today and it explores the possibilities of a democratic politics of emotion.

Den Alltag in den 30er Jahren, die schlesischen Brüche, die Jahreszeiten und das erste Automobil. Hans Filbinger, der Mann, der sein Todesurteil vergaß. Doch Walters Schwester vergaß nie Schlesien. In den 30er Jahren Walter Gröger und seine Schwester Johanna wachsen behütet in Mohrau auf. Doch nach und nach zerstört der aufkeimende Nationalsozialismus die friedliche Idylle. Trotzdem zieht Walter Gröger

Germany 1945 Richard Bessel, 2012-09-27 In 1945 Germany experienced the greatest outburst of deadly violence that the world has ever seen Germany 1945 examines the country's emergence from the most terrible catastrophe in modern history When the Second World War ended millions had been murdered survivors had lost their families cities and towns had been reduced to rubble and were littered with corpses Yet people lived on and began rebuilding their lives in the most inauspicious of circumstances Bombing military casualties territorial loss economic collapse and the processes of denazification gave Germans a deep sense of their own victimhood which would become central to how they emerged from the trauma of total defeat turned their backs on the Third Reich and its crimes and focused on a transition to relative peace Germany's return to humanity and prosperity is the hinge on which Europe's twentieth century turned For years we have concentrated on how Europe slid into tyranny violence war and genocide this book describes how humanity began to get back out

German Historians and the Bombing of German Cities Bas Benda-Beckmann, 2025-10-01 Today strategic aerial bombardments of urban areas that harm civilians at times intentionally are becoming increasingly common in global conflicts This book reveals the history of these tactics as employed by nations that initiated aerial bombardments of civilians after World War I and during World War II As one of the major symbols of German suffering the Allied bombing left a strong imprint on German society Bas von Benda Beckmann explores how German historical accounts reflected debates on postwar identity and looks at whether the history of the air war forms a counternarrative against the idea of German collective guilt Provocative and unflinching this study offers a valuable contribution to German

historiography **Hitler's Beneficiaries** Götz Aly, 2016-10-04 How did Hitler win the allegiance of ordinary Germans The answer is as shocking as it is persuasive By engaging in a campaign of theft on an almost unimaginable scale and by channelling the proceeds into generous social programmes Hitler bought his people's consent Drawing on secret files and financial records Götz Aly shows that while Jews and people of occupied lands suffered crippling taxation mass looting enslavement and destruction most Germans enjoyed a much improved standard of living Buoyed by the millions of packages soldiers sent from the front Germans also benefited from the systematic plunder of conquered territory and the transfer of Jewish possessions into their homes and pockets Any qualms were swept away by waves of government handouts tax breaks and preferential legislation Gripping and significant Hitler's Beneficiaries makes a radically new contribution to our understanding of Nazi aggression the Holocaust and the complicity of a people **Guilt, Suffering, and Memory** Gilad Margalit, 2010 Unresolved tensions in German postwar memorials Wehrmachtjustiz an der "Heimatfront" Kerstin Theis, 2016-01-15 Das Ersatzheer der Wehrmacht im Zweiten Weltkrieg ist immer noch eine Terra incognita Dabei war seine Bedeutung an der Heimatfront immens Es bernahm dort für das NS Regime wichtige gesellschaftliche Aufgaben wozu auch ein besonderer Aspekt der NS Gerichtsbarkeit zu zählen ist die Wehrmachtjustiz im Heimatgebiet Kerstin Theis zeichnet am Beispiel eines Militärgerichts ein umfassendes und nuanciertes Bild dieser bisher fast ganz übersehenen militärischen Einrichtung Auf breiter Quellenbasis liefert sie ein detailliertes Gruppenprofil der dort tätigen Richter und Befehlshaber Sie beleuchtet den Gerichtsalltag der sich nicht in der Strafverfolgung gegen Deserteure und der Verhängung von Todesurteilen erschöpft sondern ein breites Spektrum von Delikten und Angeklagten Gruppen umfasst Schließlich und das ist das große Verdienst dieser innovativen Studie kann die Autorin zeigen wie die Richter in der Heimat mit ihren Mitteln versuchten aus der Volksgemeinschaft eine mobilisierte Wehrgemeinschaft zu formen in der alles den Erfordernissen eines totalen Krieges untergeordnet war
