**Heinrich Schenker** Larry Laskowski,1978-01-01      **Heinrich Schenker : an Annotated Index to His Analyses of Musical Works** ,1978      *Music Library and Research Skills* Jane Gottlieb,2017 Concise and engaging this text covers a wide range of reference sources for research in all genres of music Through this practical introduction to the key concepts of music research students will develop a firm understanding of the tools used to gather data including what types of sources exist how they are arranged and how they may best be used to do research      [Sourcebook for Research in Music](#) Phillip Crabtree,Donald H. Foster,1993 This bibliography of bibliographies lists and describes sources from basic references to highly specialized materials Valuable as a classroom text and as a research tool for scholars librarians performers and teachers      *Sourcebook for Research in Music, Third Edition* Allen Scott,2015-06-01 Since it was first published in 1993 the Sourcebook for Research in Music has become an invaluable resource in musical scholarship The balance between depth of content and brevity of format makes it ideal for use as a textbook for students a reference work for faculty and professional musicians and as an aid for librarians The introductory chapter includes a comprehensive list of bibliographical terms with definitions bibliographic terms in German French and Italian and the plan of the Library of Congress and the Dewey Decimal music classification systems Integrating helpful commentary to instruct the reader on the scope and usefulness of specific items this updated and expanded edition accounts for the rapid growth in new editions of standard works in fields such as ethnomusicology performance practice women in music popular music education business and music technology These enhancements to its already extensive bibliographies ensures that the Sourcebook will continue to be an indispensable reference for years to come      *Liszt and the Birth of Modern Europe* Michael Saffle,Rossana Dalmonte,2003 The third volume of Liszt Studies looks at the composer in his contemporary world      **Nineteenth-century Piano Music** David Witten,1996 Focusing on the core composers of the 19th century this text provides an overview of the repertoire keyboard technique of the era This new edition includes a chapter on women composers in particular Fanny Hensel Clara Schumann

*Schenker Studies* Hedi Siegel,1990-02-23 The essays contained in this volume provide a focus on the work of the music theorist Heinrich Schenker a figure of legendary status who has had an incalculable influence on developments in music theory and analysis in this century His theories not always fully understood have aroused some controversy The broad spectrum of essays presented here will help clarify Schenker s ideas and their application and will also serve as a useful introduction to his work for music theorists The essays written by fourteen leading theorists originate in papers delivered at the Schenker Symposium held at The Mannes College of Music New York in 1985      *A Topical Guide to Schenkerian Literature* David Carson Berry,2004 To the growing list of Pendragon Press publications devoted to the work of Heinrich Schenker we wish to announce the addition of this much needed bibliography The author a student of Allen Forte has created a work useful to a wide range of researchers music theorists musicologists music librarians and teachers The Guide is the

largest Schenkerian reference work ever published At nearly 600 pages it contains 3600 entries 2200 principal 1400 secondary representing the work of 1475 authors Fifteen broad groupings encompass seventy topical headings many of which are divided and subdivided again resulting in a total of 271 headings under which entries are collected Johannes Brahms Heather Platt,2004-03-01 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company

Explaining Tonality Matthew Brown,2005 First coined in the early 19th century tonality denotes music that focuses melodically and or harmonically on some stable pitch or tonic especially functional triads This volume shows why Schenker was able to explain tonal relationships so successfully and why his explanations have advantages over those of his rivals

**Heinrich Schenker** Benjamin Ayotte,2020-08-11 This book consists of over 1 500 citations to both primary sources and the burgeoning secondary literature of Heinrich Schenker annotated and subdivided by category The citations are supplemented with indices cross referencing entries according to individual works and analytical topic **Explorations in Schenkerian Analysis** David Beach,Su Yin Susanna Mak,2016 Displays the range and diversity of Schenkerian studies today in fifteen essays covering music from Bach through Debussy and Strauss The Harvard Biographical Dictionary of Music Don Michael Randel,1996 Biographical dictionary emphasizes classical and art music also gives ample attention to the classics as well as Jazz Blues rock and pop and hymns and showtunes across the ages Johannes Brahms Heather Anne Platt,2011 First published in 2011 Routledge is an imprint of Taylor Francis an informa company Journal of Music Theory ,1985 **Thematic Catalogues in Music** Barry S. Brook,Richard J. Viano,1997 In 1997 twenty five years after its first publication Thematic Catalogues in Music An Annotated Bibliography Pendragon Press 1972 appeared in a completely revised and expanded Second Edition It contains almost twice as many entries as its predecessor virtually every one of the original entries has been updated and the following noteworthy features have been added 1 A second introductory essay detailing trends and innovations in thematic cataloguing brought about by the revolution in technology of the past twenty years 2 Appendices listing thematic catalogues in series both by national organizations and publishers a detailed up to date country by country report of activities worldwide a listing of major computerized databanks 3 New double column format 4 Numerous illustrations and reproductions of pages from thematic catalogues of historical significance The second edition continues the policy of listing all known thematic catalogues and indexes including those in doctoral dissertations masters essays and computer databanks as well as in progress and unpublished works plus reviews and literature about thematic cataloguing The original numbering of the 1972 entries has been retained with new items appearing in proper alphabetical chronological sequence but with the addition of decimal numbers and or letters 363 1 or 960a Lastly the original historical introduction and special appendices of the first edition have been retained with emendations where needed **Music, Science, Philosophy** Jamie C. Kassler,2023-05-31 This book stresses the interrelatedness of knowledge by extricating models that cut across traditional disciplinary boundaries For example science can find models from the technology and

semantic field of music music can find its models from the technology and semantic field of science and each domain may be guided by a philosophical or metaphysical principle thus the title of the book But the book itself is structured as a mirror image of its title Chapters 1 6 provide instances of the role of music in such domains as epistemology and logic as well as in the early modern sciences of developmental biology continuum mechanics anatomy and physiological psychology whereas Chapters 7 10 provide instances of what some other domains of knowledge have given back to the philosophy and theory of music
