Heinrich Von Kleist Und Die Kantische:

Heinrich Von Kleist: Writing After Kant (Studies in German Literature, Linguistics, and Culture) Timothy J. Mehigan, 2011
Kleist viewed anew as a major contributor to the tradition of post Kantian thought The question of Heinrich von Kleist s reading and reception of Kant s philosophy has never been satisfactorily answered The present study aims to reassess this question particularly in the light of Kant s rising importance for the humanities today It argues not only that Kleist was influenced by Kant but also that he may be understood as a Kantian albeit an unorthodox one The volume integrates material previously published by the author now updated with new chapters to form a greater whole What results is a coherent set of approaches that illuminates the question of Kleist s Kantianism from different points of view Kleist is thereby understood not only as a writer but also as a thinker one whose seriousness of purpose and clarity of design compares with that of other early expositors of Kant s thought such as Reinhold and Fichte Through the locutions and idioms of fiction and the essay Kleist becomes visible for the first time as an original contributor to the tradition of post Kantian ideas Tim Mehigan is Professorial Chair of German in the Department of Languages and Cultures at the University of Otago New Zealand and Honorary Professor in the School of Languages and Comparative Cultural Studies at the University of Queensland Australia

Posthumanism in the Age of Humanism Edgar Landgraf,Gabriel Trop,Leif Weatherby,2018-10-04 The literary and scientific renaissance that struck Germany around 1800 is usually taken to be the cradle of contemporary humanism Posthumanism in the Age of Humanism shows how figures like Immanuel Kant and Johann Wolfgang Goethe as well as

scientists specializing in the emerging modern life and cognitive sciences not only established but also transgressed the boundaries of the human. This period so broadly painted as humanist by proponents and detractors alike also grappled with ways of challenging some of humanism's most cherished assumptions: the dualisms for example between freedom and nature, science and art, matter and spirit, mind and body, and thereby also between the human and the nonhuman. Posthumanism is older than we think, and the so-called humanists of the late Enlightenment have much to offer our contemporary rethinking of the human.

“Wenn sie das Wort Ich gebraucht”. John Pustejovsky, Jacqueline Vansant, 2013. This volume of original essays celebrates Barbara Becker Cantarino whose prolific publications on German literary culture from 1600 to the twentieth century are major milestones in the field of German cultural studies. The range of topics in the collection reflects the breadth of Becker Cantarino's scholarship. Examining literature from the sixteenth to the twenty-first centuries, the contributors explore the intersections of gender, race, and genre, history and gender, and gender and violence. They provide fresh readings of the works of known and lesser-known writers including Cyriacus Spangenberg, Maria Anna Sagers, Luise Gottsched, Heinrich von Kleist, Frank Wedekind, Christa Wolf, Helga Schütz, Terzia Mora, and Martina Hefter. Their discussions explore the possibilities and limitations of theoretical discourses on travel literature, deconstruction, and gender, and suggest new avenues of investigation.

Essays on Kant, Schelling, and German Aesthetics Henry Crabb Robinson, 2010. As a student at the University of Jena at the beginning of the nineteenth century, Henry Crabb Robinson (1775–1867) became the outstanding English mediator of the revolution in German thought. For the first time, this volume collects his early writings, both published and unpublished. The contents include Letters on the Philosophy of Kant and notes from F. W. J. Schelling's lectures on the philosophy of art. Further, Robinson's private lectures for Madame de Staël are presented with her marginalia. In the intellectual history of Romanticism, Robinson emerges as a major figure whose lucid and entertaining essays can still guide the modern reader through the key German texts.

The Oxford Handbook of European Romanticism Paul Hamilton, 2016. The Oxford Handbook of European Romanticism focuses on the period beginning with the French Revolution and extending to the uprisings of 1848 across Europe. It brings together leading scholars in the field to examine the intellectual, literary, philosophical, and political elements of European Romanticism. The volume begins with a series of chapters examining key texts written by major writers in languages including French, German, Italian, Spanish, Russian, Hungarian, Greek, and Polish, amongst others. Then follows a second section based on the naturally interdisciplinary quality of Romanticism, encapsulated by the different discourses with which writers of the time set up an internal comparative dynamic. These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of understanding, and the Enlightenment encyclopaedic project. Discourses typically push their individual claims to resume European culture, collaborating and trying to assimilate each other in the process. The main examples featuring here are history, geography, drama, theology, language, geography, philosophy, political theory, the

sciences and the media Each chapter offers original and individual interpretation of individual aspects of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and unique overview of European Romanticism

Kleist's Female Leading Characters and the Subversion of Idealist Discourse Grant Profant McAllister, 2005 Heinrich von Kleist's problematic relationship with the philosophy and the aesthetics of idealism informs his parodic rebellious and destructive oeuvre This book focuses on this relationship and examines Kleist's female leading characters and their role as amorphous ciphers for his own subversive aesthetic theory Through parody these characters call into question idealist philosophy regarding truth knowledge and gender and offer a theory of aesthetic representation that replaces traditional binary oppositions with pluralities and nonclosure Nietzsche may have opened the door to postmodernism however Kleist unlocked it with four cunning female voices This is the first book in Kleist scholarship to focus solely on Kleist's female leading figures and their symbolic role as both character and literary theory a theory anticipating Derridean deconstruction

Enlightened War Elisabeth Krimmer, Patricia Anne Simpson, 2011 New essays exploring the relationship between warfare and Enlightenment thought both historically and in the present Enlightened War investigates the multiple and complex interactions between warfare and Enlightenment thought Although the Enlightenment is traditionally identified with the ideals of progress eternal peace reason and self determination Enlightenment discourse unfolded during a period of prolonged European warfare from the Seven Years War to the Napoleonic conquest of Europe The essays in this volume explore the palpable influence of war on eighteenth century thought and argue for an ideological affinity among war Enlightenment thought and its legacy The essays are interdisciplinary engaging with history art history philosophy military theory gender studies and literature and with historical events and cultural contexts from the early Enlightenment through German Classicism and Romanticism The volume enriches our understanding of warfare in the eighteenth century and shows how theories and practices of war impacted concepts of subjectivity national identity gender and art It also sheds light on the contemporary discussion of the legitimacy of violence by juxtaposing theories of war concepts of revolution and human rights discourses Contributors Johannes Birgfeld David Colclasure Sara Eigen Figal Ute Frevert Wolf Kittler Elisabeth Krimmer Waltraud Maierhofer Arndt Niebisch Felix Saure Galili Shahrar Patricia Anne Simpson Inge Stephan Elisabeth Krimmer is Professor of German at the University of California Davis and Patricia Anne Simpson is Associate Professor of German Studies at Montana State University

The Doppelgänger Andrew J. Webber, 1996-06-27 Ever since its literary coinage in Jean Paul's novel *Siebenk's* 1796 the concept of Doppelgänger has had significant influence upon representations of the self in German literature This study charts the development of the double from its origins in the Romantic period through its more marginal but nonetheless significant

manifestations in the post Romantic culture to its revival at the fin de siècle and transfer to the silent screen The book features an introduction to the practice and theory underlying the use of the Doppelgänger with particular reference to psychoanalysis followed by chapters on Jean Paul Hoffmann Kleist poetic realism Droste H lshoff Keller Storm and modernism Kafka Rilke Hoffmannsthal Schnitzler Meyrink Werfel This study shows that the often underestimated figure of the double may provide a key to the epistemological aesthetic and psychosexual structures of the texts it visits and revisits with a particular focus on its effects in the fields of vision and language Traces of Kant in the Works of Heinrich Von Kleist Paul Andrew Denisowski,1989 *Empire of Chance* Anders Engberg-Pedersen,2015-03-10 Anders Engberg Pedersen shows how the Napoleonic Wars inspired a new discourse on knowledge in the West Soldiers returning from battle were forced to reconsider what it is possible to know and how decisions are made in a fog of imperfect knowledge Chance no longer appeared exceptional but normative a prism for understanding the modern world *Kleist-Jahrbuch 1988/89* Hans Joachim Kreutzer,1988
