Encyclopedia of the Ancient Greek World David Sacks,Oswyn Murray,Lisa R. Brody,2014-05-14 Discusses the people places and events found in over 2 000 years of Greek civilization **Gods and Goddesses of Ancient Greece** Leon Ashworth,2006 Ancient peoples believed as firmly in their gods and goddesses as people believe in their religions today These books help children understand how people lived in ancient times what they believed and why How the seasons worked why natural disasters happened and what happened to people when they died Many of the myths have parallels in modern religions and culture This title deals with the lives and beliefs of the people of Ancient Greece Goddesses and Monsters Jane Caputi,2004 The essays focus upon popular culture as it is informed by ancient and current mythic images narratives personalities icons and archetypes Topics include the cult status of the serial sex killer sexual murder as a contemporary form of religious sacrifice pornography as an everyday narrative underlying not only sexism but also racism homophobia and militarism the relation of incest to nuclearism pornography and the sacred cyborg myth and subtextual presence of ancient goddess figures in contemporary narratives including that of Princess Diana Encyclopedia of Women in the Ancient World Joyce E. Salisbury,2001-05-16 An extensive and fascinating collection of stories featuring both famous and everyday women giving a well rounded view of the lives of women in the ancient world When did women first become rulers athletes soldiers heroines and villains They always were observes historian Judith Salisbury From Mesopotamian priestesses and poets to Egyptian queens and consorts there was never a time when women did not participate in all aspects of society Salisbury tells the stories of 150 women from the ancient world ranging from the very famous such as Cleopatra VII immortalized by Hollywood to the barely remembered such as the Roman poet Nossis Writing for a general audience Salisbury begins by painting each woman into her historical context then recounts each woman s story describing the choices she made as she looked for happiness wealth power or well being for herself and her family stories much like our own In entries on general themes clothing cosmetics work sexuality prostitution gynecology Salisbury analyzes the commonalties in the lives of these women of antiquity from a cross cultural perspective **Simon of Samaria and the Simonians** M. David Litwa,2024-03-07 Who were the Simonians Beginning in the mid second century CE heresiologists depicted them as licentious followers of the first gnostic a supposedly Samaritan self deifier called Simon who was thought to practice magic

and became known as the father of all heresies Litwa examines the Simonians in their own literature and in the literature used to refute and describe them He begins with Simonian primary sources namely The Declaration of Great Power embedded in the anonymous Refutation of All Heresies and The Concept of Our Great Power Nag Hammadi codex VI 4 Litwa argues that both are early second century products of Simonian authors writing in Alexandria or Egypt Litwa then moves on to examine the heresiological sources related to the Simonians Justin the book of Acts Irenaeus the author of the Refutation of All Heresies Pseudo Tertullian Epiphanius and Filaster He shows how closely connected Justin s report is to the portrait of Simon in Acts and offers an extensive exegesis and analysis of Simonian theology and practice based on the reports of Irenaeus and the Refutator Finally Litwa examines Simonianism in novelistic sources namely the Acts of Peter and the Pseudo Clementines By the time these sources were written Simon had become the father of all heresies Accordingly virtually any heresy could be attributed to Simon As a result despite their alluring portraits of Simon these sources are mostly unusable for the historical study of the Simonian Christian movement Litwa concludes with a historical profile of the Simonian movement in the second and third centuries The book features appendices which contain Litwa s own translations of primary Simonian texts

Making Silence Speak

André Lardinois, Laura McClure, 2018-06-05 This collection attempts to recover the voices of women in antiquity from a variety of perspectives how they spoke where they could be heard and how their speech was adopted in literature and public discourse Rather than confirming the old model of binary oppositions in which women's speech was viewed as insignificant and subordinate to male discourse these essays reveal a dynamic and potentially explosive interrelation between women's speech and the realm of literary production religion and oratory The contributors use a variety of methodologies to mine a diverse array of sources from Homeric epic to fictional letters of the second sophistic period and from actual letters written by women in Hellenistic Egypt to the poetry of Sappho Throughout the term voice is used in its broadest definition It includes not only the few remaining genuine women's voices but also the ways in which male authors render women's speech and the social assumptions such representations reflect and reinforce These essays therefore explore how fictional female voices can serve to negotiate complex social epistemological and aesthetic issues The contributors include Josine Blok Raffaella Cribiore Michael Gagarin Mark Griffith Andr Lardinois Richard Martin Lisa Maurizio Laura McClure D M O Higgins Patricia Rosenmeyer Marilyn Skinner Eva Stehle and Nancy Worman
