Hellenic Insurance Law:

Hellenic Insurance Law Iōannēs Rokas,2002 **Hellenic Insurance Law** Ioannis Rokas,1993 *Insurance Law in Greece* Ioannis K. Rokas,Kosmas K. Karanikolas,2022-07-20 Derived from the renowned multi volume International Encyclopaedia of Laws this book provides valuable practical insight into both public supervisory legislation concerning insurance and private insurance contract law in Greece An informative general introduction surveying the legal political financial and commercial background and surroundings of insurance provides a sound foundation for the specific detail that follows The book covers all essential aspects of the law and regulation governing insurance policies and instruments Its detailed exposition includes examination of the form of the insurance company and its reserves and investments the insurance contract the legal aspects of the various branches of property and liability insurance motor vehicle insurance schemes life insurance health insurance and workmen s compensation schemes reinsurance co insurance and pooling taxation of insurance and risk management and prevention Succinct yet eminently practical the book will be a valuable resource for lawyers handling cases affecting Greece It will be of practical utility to those both in public service and private practice called on to develop and to apply the laws of insurance and of special interest as a contribution to the much needed harmonization of insurance law *Transparency in Insurance Contract Law* Pierpaolo Marano,Kyriaki Noussia,2020-03-11 This Volume of the AIDA Europe Research Series on Insurance Law and Regulation focuses on transparency as the guiding principle of modern insurance law It consists of chapters written by leaders in the respective field who address transparency in a range of civil and common law jurisdictions along with overview chapters Each chapter reviews the transparency principles applicable in the jurisdiction discussed Whether expressly or impliedly all jurisdictions recognize a duty on the part of the insured to make a fair presentation of the risk when submitting a proposal for cover to the insurers although there is little consensus on the scope of that duty Disputed matters in this regard include whether it is satisfied by honest answers to express questions or whether there is a spontaneous duty of disclosure whether facts relating to the insured s character as opposed to the nature of the risk itself are to be presented to the insurers the role of insurance intermediaries in the placement process and the remedy for breach of duty Transparency is however a much wider concept Potential policyholders are in principle entitled to be made aware of the key terms of coverage and to be warned of hidden traps such as conditions precedent average clauses and excess provisions but there are a range of different approaches Some jurisdictions have adopted a soft law approach using codes of practice for pre contract disclosure while other jurisdictions employ the rather nebulous duty of utmost good faith Leaving aside placement transparency is also demanded after the policy has been incepted The insured is required to be transparent during the claims process There is less consistency in national legislation regarding the implementation of transparency by insurers in the context of handling claims **Research Handbook on International Insurance Law and Regulation** Julian Burling,Julian M. Burling,Kevin Lazarus,2012 Global insurance and

its rapidly evolving law and regulation demands international research To this aim the Handbook offers a truly international collection of essays Highly renowned experts analyze the key topics currently under international discussion and development While representing a diversity of national jurisdictions the focus lies on the largest insurance jurisdictions USA UK and Germany but newly important jurisdictions like Brazil and China are considered as well a most valuable and important contribution to international insurance law literature Manfred Wandt Director of the Insurance Law Institute Goethe University Frankfurt Germany This Research Handbook is published at an opportune time A global review of insurance law and regulation is underway Much reform happens locally with little reference to developments elsewhere and this Research Handbook brings the strands together It is a comprehensive review by distinguished authors from different backgrounds including both leading academics and practitioners They consider the definitions of insurance its economic underpinnings comparative law and regulations actual and proposed reforms the effects on underwriting and claims and how insurance is studied and taught Good laws and regulation benefit the market and its customers Bad laws and regulation do the opposite This book is required reading for all involved in the reform process David Hertzell Law Commissioner Globalisation has had no greater impact in the commercial world than on insurance the law which governs it and the risks it seeks to address Those who inspired this publication and the contributing authors are to be thanked for providing such a necessary and useful reference source It covers so much of what insurance professionals need to be aware of in the insurance law world of the twenty first century Michael Gill President of the International Insurance Law Association Given its economic importance insurance is a field that has been underserved as an area of academic study This detailed book provides much needed coverage of insurance law and regulation in its international context Produced in association with Lloyd's it draws on the expertise both of academics and practising lawyers Containing 30 comprehensive chapters it provides in depth studies on key areas such as the role of international organisations the judicial interpretation of insurance contract clauses and transnational regulatory recognition It also provides thorough introductions to important jurisdictions including the EU US and Japan as well as focusing on newly emerging economies such as China and Brazil Specialist topics covered include regulation by and of Lloyd's the tort of bad faith in the US microinsurance and takaful insurance This well documented resource will appeal to academics and students in insurance law and regulation policymakers and private practice lawyers The book also aims to stretch the imagination of anyone with an interest in insurance law and regulation providing detailed analysis and avenues for further investigation
