In the Shadow of the Temple Oskar Skarsaune, 2025-08-04 Oskar Skarsaune makes a fresh contribution to our understanding of the development of the early church in its practice e.g. worship, baptism and Eucharist and doctrine e.g. Scripture, Christology, pneumatology This book offers the new perspective that Christians were in ongoing and deep conversation with Jews during the early centuries leading up to Constantine The common perception of a drastic parting of the ways after the destruction of Jerusalem in 70 A.D. has tended to distort our understanding of the succeeding decades and centuries of Jewish and Christian history Notwithstanding the fact that there were points of bitterness and strife the relationship is better viewed as that of a younger and older sibling There is much evidence of interaction between the early Christians and rabbinic Judaism both at the level of leadership and laypeople and this left its impression on the church Skarsaune gives us numerous fascinating episodic and topical glimpses into this untold story

Local Self-Governance in Antiquity and in the Global South Dominique Krüger, Christoph Mohamad-Klotzbach, Rene Pfeilschifter, 2022-12-31 The nucleus of society is situated at the local level in the village, the neighborhood, the city district This is where a community first develops collective rules that are intended to ensure its continued existence The contributors look at such configurations in geographical areas and time periods that lie outside of the modern Western world with its particular development of society and statehood in Antiquity and in the Global South of the present Here states tend to be weak with obvious challenges and opportunities for local communities How does governance in this context work Scholars from various disciplines Classics, Theology, Political Science, Sociology, Social Anthropology, Human Geography, Sinology analyze different kinds of local arrangements in case studies and they do so with a comparative approach The sixteen papers examine the scope and spatial contingency of forms of self-governance, its legitimization and the collective identity of the groups behind them, the relations to different levels of state governance as well as to other local groups Overall this volume makes an interdisciplinary contribution to a better understanding of fundamental elements of local governance and statehood
