These studies in early church history cover various aspects of the church life of early Christians They focus on the second century What did the second century Christian leaders say about faith baptism infant baptism worship services the Lord s Supper prayer singing church organization mercy and the role of women New Testament texts bearing on the topic are listed at the beginning of each chapter We are talking about the same community of people the same church as existed in the New Testament Such writings have an important bearing on the interpretation of the Scriptures *Sacra Pagina: Philippians and Philemon* Bonnie B. Thurston,Judith Ryan,2023-06-13 Although relatively brief Philippians is one of the most interesting and beloved of Paul s undisputed epistles In Philippians and Philemon Bonnie Thurston makes a convincing case that canonical Philippians is as Paul wrote it one letter Although there is not enough specific evidence to name names she suggests a number of possible audiences A translation conforming as closely as possible to the original Greek is provided along with a careful analysis of the language of the letter that yields insights into the context and theological underpinning of this epistle The apostle s very brief letter to Philemon stands solidly within the Pauline collection of authentic and canonical letters In this volume Judith Ryan argues that Philemon makes two specific appeals The first seeks to elicit Philemon s partnership and his community s support in welcoming Onesimus back as both beloved brother and honored guest The second requests that Onesimus be allowed to use the freedom he already has to serve Christ and his Gospel In this commentary Ryan provides a fresh translation critical notes for each verse and interpretation on defined sections She situates the letter in the historical context of slavery in the ancient world and shows how Paul combined his theology with contemporary rhetorical strategies to produce an effective challenge to his audience *The Hellenistic World and the Coming of Rome* Erich S. Gruen,1986-09-25 In this revisionist study of Roman imperialism in the Greek world Gruen considers the Hellenistic context within which Roman expansion took place The evidence discloses a preponderance of Greek rather than Roman ideas a noteworthy readiness on the part of Roman policymakers to adjust to Hellenistic practices rather than to impose a system of their own
