The Aesthetics of Horror Films Forrest Adam Sopuck, 2021-09-24 This book analyzes the nature and functions of horror films from the vantage of a theoretical reconstruction of George Santayana's account of beauty This neo-Santayanan framework forms the conceptual backdrop for a new model of horror's aesthetic enjoyment the nature of which is detailed through the examination of plot cinematic and visual devices distinctive of the popular genre According to this model the audience derives pleasure from the films through confronting the aversive scenarios they communicate and rationalizing a denial of their personal applicability The films then come to embody these acts of self assertion and intellectual overcoming and become objects of pride How horror films can acquire necropolitical functions within the context of abusive systems of power is also clarified These functions which exploit the power of anti tragedy downward social comparison or vicarious emotion work to remediate aggressive ascetic or revolutionary impulses in ways that are not injurious to the status quo This book champions horror as a source of self empowerment and unmitigated beauty but also attests to the potential social harms of the genre

His earliest short stories, collected in the Night Shift anthology, have been adapted into hit features including Creepshow, Children of the Corn, Cat's Eye, Maximum Overdrive, Graveyard Shift, Sometimes They Come Back, and The Mangler. Through his Dollar Baby program, King licensed several Night Shift stories to aspiring filmmakers for just one dollar each, resulting in numerous student film adaptations. It illuminates how each film is a uniquely and intricately collaborative endeavor and charts the development of each adaptation from first option to final cut.
