The Criminology of Carlo Morselli - Part II David Décary-Hétu, Rémi Boivin, 2023-09-12 The second of two volumes this book about the criminology of Carlo Morselli includes a diversity of contributions that study the social inter dependence of criminal phenomena It presents various studies on the importance and impact of social ties on offenders victims and the social response to crime The idea that social relationships are central to the understanding of human phenomena draws its roots from Jacob Moreno s work in 1934 whose contribution among others made at about the same time paved the way for social network analysis SNA a set of methods and approaches that study dyadic relationships and their connections to other dyads in the same network Surprisingly SNA was not widely adopted in criminology until the end of the 20th century It took researchers like Carlo Morselli to apply the principles of SNA and graph theory to criminological objects As a researcher Morselli embodied SNA he was a so called broker in his network of social scientists linking dozens of excellent researchers that he collaborated with directly or not Granovetter showed that weak ties or acquaintances were important in the diffusion of new ideas and Morselli put that insight to practice in criminology While it is impossible to summarise Carlo Morselli s work in a single paper or book the breadth of his contributions to criminology are highlighted in the six chapters of this volume which all draw from a specific area of interest of Carlo Morselli The Criminology of Carlo Morselli Part II will be a key resource for academics researchers and advanced students of Criminology and Criminal Justice Sociology Social Sciences The chapters included in this book were originally published as a special issue of Global Crime *Hell To Pay* Neal Hall, 2011-03-21 The fact that Michael Plante was a trusted associate of the East End Hells Angels certainly caught the attention of police who had been trying for years to find someone to infiltrate the gang The police alleged that East End Hells Angels were well known in the criminal underworld for controlling the cocaine trade at a wholesale level using violence to persuade potential competition to stay away In recent years the bikers had expanded into the production and distribution of synthetic drugs as ecstasy and methamphetamine know on the street as crystal meth as well as moving into internet porn and online gambling police claimed Plante was taken to an interview room where he was visited by two Mounties who would eventually become his police handlers One of the officers told him that based on the witness statement relating to his extortion charges he was looking at doing prison time But Plante was told that if he was interested in cooperating the police would make the charges go away Plante told the cop he was interested but hesitant knowing that people who cooperate with the police in Hells Angels investigations usually end up dead The only good rat is a dead rat he had been told repeatedly

Reimagining God and Resacralisation Alexa Blonner,2019-05-14 This book shows that widespread resacralisation has been taking place which is producing new ways of perceiving God and the divine The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism but this process of secularisation has yet to occur as predicted The book begins by contrasting theories of secularisation and resacralisation Throughout the book conceptual threads or new religious themes related to this resacralisation are discussed in terms of three main categories reimagining God s nature substance and location reimagining human value and purpose and reimagining modes of redemption Finally the book considers how these threads are moving in various different directions and what the religious future might hold This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies new religious movements and the sociology of religion **Concerning Heaven and its wonders, and concerning Hell: tr.
