Helmut Kohl Der Deutsche Kanzler:

Helmut Kohl's Quest for Normality Christian Wicke, 2015-02-01 During his political career Helmut Kohl used his own life story to promote a normalization of German nationalism and to overcome the stigma of the Nazi period In the context of the cold war and the memory of the fascist past he was able to exploit the combination of his religious generational regional and educational he has a PhD in History experiences by connecting nationalist ideas to particular biographical narratives Kohl presented himself as the embodiment of normality a de radicalized German nationalism which was intended to eclipse any anti Western and post national peculiarities This book takes a biographical approach to the study of nationalism by examining its manifestation in Helmut Kohl and the way he historicized Germany's past **The German Problem**

Transformed Thomas Banchoff, 2010-05-06 Does the new more powerful Germany pose a threat to its neighbors Does the new German Problem resemble the old The German Problem Transformed addresses these questions fifty years after the founding of the Federal Republic and ten years after the fall of the Berlin Wall Many observers have underscored the reemergence of Germany as Europe's central power After four decades of division they contend Germany is once again fully sovereign without the strictures of bipolarity its leaders are free to define and pursue national interests in East and West From this perspective the reunified Germany faces challenges not unlike those of its unified predecessor a century earlier The German Problem Transformed rejects this formulation Thomas Banchoff acknowledges post reunification challenges but argues that postwar changes not prewar analogies best illuminate them The book explains the transformation of German foreign policy through a structured analysis of four critical postwar junctures the cold war of the 1950s the détente of the 1960s and 1970s the new cold war of the early 1980s and the post cold war 1990s Each chapter examines the interaction of four factors international structure and institutions foreign policy ideas and domestic politics in driving the direction of German foreign policy at a key turning point This book will be of interest to scholars and students of German history German politics and European international relations as well as policymakers and the interested public Thomas Banchoff is Assistant Professor of Government Georgetown University **European Leaders** Reese T. Moore, 2001 This up to date bibliography gathers materials on ten leaders from 20th century Europe Access is provided via subject and author indexes Contents

Möller, 2014-12-11 Die Entstehung der modernen nationalen Gesellschaften ist begleitet von der Ausbildung eines neuen populistischen Politikertyps Diese charismatischen Führer stützen ihre Herrschaft auf das Volk welches wiederum in ihnen seine Wünsche und Hoffnungen verwirklicht sieht Als Charisma hat Max Weber die Eigenschaften eines Politikers bezeichnet die von seinen Anhängern als außeralltäglich bewertet werden Diese Vorstellungen und Zuschreibungen der deutschen Öffentlichkeit gegenüber den wichtigsten deutschen Politikern des 19 und 20 Jahrhunderts werden in den Beiträgen des

Sammelbandes untersucht und verglichen. Gefragt wird also nicht ob diese Politiker charismatische Führer waren sondern welche charismatischen Qualitäten ihnen von ihren Anhängern zugeschrieben wurden. Betrachtet werden neben der Vorbildfunktion die das Kaisertum Napoleons auch für Deutschland hatte Heinrich von Gagern Otto von Bismarck Wilhelm II Paul von Hindenburg Adolf Hitler Konrad Adenauer Walter Ulbricht Willy Brandt und Helmut Kohl.

Legacies of Stalingrad Christina Morina, 2011-09-19 Christina Morina's book examines the history of the Eastern Front war and its impact on German politics and society throughout the postwar period She argues that the memory of the Eastern Front war was one of the most crucial and contested themes in each part of the divided Germany Although the Holocaust gained the most prominent position in West German memory official memory in East Germany centered on the war against the USSR The book analyzes the ways in which these memories emerged in postwar German political culture during and after the Cold War and how views of these events played a role in contemporary political debates The analysis pays close attention to the biographies of the protagonists both during the war and after drawing distinctions between the accepted public memory of events and individual encounters with the war

Parteiliche Unionenfraktion und Bundesregierung sind von der politikwissenschaftlichen Forschung bisher weitgehend unberücksichtigt geblieben Deshalb wird in dieser Studie exemplarisch in der Analyse der Finanz Deutschland und Umweltpolitik danach gefragt welche Akteure in welcher Form im Machtdreieck in die Politikgestaltung involviert sind welche Möglichkeiten sie zur Einflunahme auf Entscheidungsprozesse im deutschen Regierungssystem besitzen und welche Strukturen des Interessenausgleichs und der Konfliktregelung sich zwischen den relevanten Akteuren im Untersuchungszeitraum herausgebildet haben Für alle drei Politikfelder kann nachgewiesen werden dass das Machtdreieck grundsätzlich auf Stabilität und Machterhalt angelegt ist Zur Stabilität des Machtdreiecks tragen personelle Verschränkungen zwischen den einzelnen Akteursgruppen wesentlich bei Die Einbeziehung eines individuellen Akteurs im Machtdreieck hängt

dabei weniger von den verfassungsrechtlichen oder satzungsmäßigen Voraussetzungen und Möglichkeiten seines Amtes als vielmehr von persönlichen individuellen Merkmalen des jeweiligen Amtsinhabers ab. Amts- und Politikverständnis, Verankerung in Fraktion und Partei etc. Das Machtdreieck ist von einem dichten Netz persönlicher Loyalitäten und gegenseitiger Abhängigkeiten durchzogen. Mit dem Blick unter die Oberfläche vertrauter Vorstellungen und Kenntnisse formeller institutioneller Verantwortlichkeiten werden in der Studie strukturelle und prozessurale Tiefendimensionen eines zentralen Teilbereichs des politischen Systems der Bundesrepublik Deutschland freigelegt.

Post-Wall German Cinema and National History

Mary-Elizabeth O'Brien, 2014

German history films that focus on utopianism and political dissent and their effect on German identity since 1989. Since unification a radical shift has taken place in Germans' view of their country's immediate past with 1989 replacing 1945 as the primary caesura. The cold war division, the failed socialist state, the 68 student movement and the Red Army Faction historical flashpoints involving political oppression, civil disobedience and the longing for utopian solutions to social injustice have come to be seen as decisive moments in a collective history that unites East and West even as it

divides them Telling stories about a shared past establishing foundational myths and finding commonalities of experience are pivotal steps in the construction of national identity Such nation building is always incomplete but the cinema provides an important forum in which notions of German history and national identity can be consumed negotiated and contested This book looks at history films made since 1989 exploring how utopianism and political dissent have shaped German identity It studies the genre including popular successes critical successes and perceived failures as a set of texts and a discursive network gauging which conventions and storylines are resilient At issue is the overriding question to what extent do these films contribute to a narrative that legitimizes the German nation state Mary Elizabeth O'Brien is Professor of German and The Courtney and Steven Ross Chair in Interdisciplinary Studies at Skidmore College
