Happy Holidays--Animated! William D. Crump, 2019-04-18 Since the early 20th century, animated Christmas cartoons have brightened the holiday season around the world, first in theaters, then on television. From devotional portrayals of the Nativity to Santa battling villains and monsters, this encyclopedia catalogs more than 1,800 international Christmas-themed cartoons and others with year-end themes of Hanukkah, Kwanzaa, and the New Year. Explore beloved television specials such as *A Charlie Brown Christmas*, theatrical shorts such as *Santa's Workshop*, holiday episodes from animated television series like *American Dad* and *The Simpsons*, feature films like *The Nutcracker Prince*, and obscure productions such as *The Insects Christmas*, along with numerous adaptations and parodies of such classics as *A Christmas Carol* and *'Twas the Night before Christmas*.

Animation Magazine, 2004 *Packaging Girlhood* Sharon Lamb, Lyn Mikel Brown, 2025-06-25 The stereotype-laden message delivered through clothes, music, books, and TV is essentially a continuous plea for girls to put their energies into beauty products, shopping, fashion, and boys. This constant marketing cheapening of relationships, absence of good women role models, and stereotyping and sexualization of girls is something that parents need to first understand before they can take action. Lamb and Brown teach parents how to understand these influences, give them guidance on how to talk to their daughters about these negative images, and provide the tools to help girls make positive choices about the way they are in the world. In the tradition of books like *Reviving Ophelia*, *Odd Girl Out*, *Queen Bees*, and *Wannabees* that examine the world of girls, this book promises to not only spark debate but help parents to help their daughters.

to weather and climate tracing the embodied emplaced and affective ways weather co constitutes people place and time s raising critical questions of ethics politics and becoming Becoming weather leads the reader through a reflexive engagement with weather seeking to shed light on pressing issues around climate change and its entanglements from the body where contours of weather are intimately felt and known to the ways that agencies of weather are implicated in the construction of nations to global topologies of climate in justice Reflecting on deep and ongoing collaborative work undertaken with Indigenous led research collectives in Australia and the Philippines the book traces contours of response ability learning from weathery relationships to speak back to constructions of climate that see it as aer nullius belonging to no one and that deny ongoing responsibilities becomings and belongings The book aims to support more than human and relational understandings of weather that situate us all within an ethics of differential cobecoming and that demand attention to the connections that bind and co constitute The book is intended for those interested in thinking differently about weather and climate particularly those who feel an urgent dissatisfaction with mainstream responses and understandings It will be beneficial for those who would learn from weather from and with place in ways led by Indigenous scholars and their allies though an engaged reflexive more than human and ethnographic account It does not shy away from critical engagement nor the changes desperately needed to learn and unlearn to attend to positionalities and responsibilities and to engage with what it means to weather on unceded Indigenous land
