The European Emblem Bernard F. Scholz, Michael Bath, David Weston, 2024-01-08 The ten papers in this volume were all presented at the first International Conference The European Emblem held in Glasgow in August 1987 under the auspices of the Society for Emblem Studies The conference included papers discussing most of the major European languages in which emblem books flourished and the papers selected for the presented volume represent something of the variety and scope of current scholarship in this field Subjects dealt with include a protoemblematic Latin translation of the Tabula Cebetis the Emblematum Liber by Andreas Alciat the earliest reception of the Ars Emblematica in Dutch the career of Thomas Palmer Daniel Cramers 80 Emblemata moralia nova and the Emlimata of Polockij The papers selected for this volume demonstrate the vigor and variety of work in this field whilst also suggesting some of the directions and opportunities for further research 

The European Emblem Bernhard F. Scholz, Michael Bath, David W. Weston, 1990 A selection of papers read at the first international conference devoted exclusively to emblematics The papers have been selected with an eye to representing various national traditions in emblematics and various currently active approaches to the emblem

Spectacle & Image in Renaissance Europe André Lascombes, 1993 This collection of nineteen essays focuses on the ways in which in England France and Spain the Renaissance made propagandistic or aesthetic use of the image in various spectacles Under surface differences between genres what emerges is a surprising similarity in tactics and response which invites further questioning about image elaboration and its reception European Iconography - East and West Gyorgy E. Szonyi,2023-08-14 This volume is the offspring of many years of research in symbolic representations carried out at the English and Comparative Literature departments of J zsef Attila University Szeged In 1990 the dramatic changes in East Central Europe inspired the organization of an international conference where scholars of the politically defined East and West could exchange ideas in the fields of iconography emblem studies and cultural symbolisation In June 1993 at the conference in Szeged fifty seven papers were read by scholars representing Canada the Czech Republic England Germany Holland Hungary Poland Rumania and the USA The present publication contains eighteen papers covering the following aspects Iconography and Ideology Iconography and History The World of Emblems and Occult Emblematics The volume not only shows the state of affairs in these important fields but also demonstrates the scope and strength of a new type of European cooperation The Emblem in Early Modern Europe Peter M. Daly, 2016-12-05 The emblem was big business in early modern Europe used extensively not only in printed books and broadsheets but also to decorate pottery metalware furniture glass and windows and numerous other domestic devotional and political objects At its most basic level simply a combination of symbolic visual image and texts an emblem is a hybrid composed of words and picture However as this book demonstrates understanding the precise and often multiple meaning intention and message emblems conveyed can prove a remarkably slippery process In this book Peter Daly draws upon many years research to reflect upon the recent upsurge in

scholarly interest in and rediscovery of emblems following years of relative neglect Beginning by considering some of the seldom asked but important questions that the study of emblems raises including the importance of the emblem the truth value of emblems and the transmission of knowledge through emblems the book then moves on to investigate more closely focussed aspects such as the role of mnemonics mottoes and visual rhetoric The volume concludes with a review of some perhaps inadequately considered issues such as the role of Jesuits who had a role in the publication of about a guarter of all known emblem books and questions such as how these hybrid constructs were actually read and interpreted Drawing upon a database containing records of 6 514 books of emblems and imprese this study suggests new ways for scholars to approach important questions that have not yet been satisfactorily broached in the standard works on emblems Light Urszula Szulakowska, 2021-10-01 This study concerns the late Renaissance metaphysics of light in its adoption to a Paracelsian alchemical context by John Dee Heinrich Khunrath Michael Maier and Robert Fludd Their alchemical theosophy is contextualised within Protestant reformism of the 1590s to 1620s specifically that of Valentin Weigel and Johannes Arndt This results in a re assessment of the Rosicrucian movement which challenges the existing historiography and problematises the character of the movement The volume includes fifty illustrations from alchemical treatises of the period the emphasis being placed on Khunrath's Amphiteatrum Sapientiae Aeternae 1595 1609 In an innovative manner the study investigates these images using analytical tools drawn from semiotics structuralism and post structuralism. This method yields an unusual interpretation of the geometry optical diagrams and spatial structures employed in such alchemical engravings Movet Heinrich Franz Plett, Peter Lothar Oesterreich, Thomas O. Sloane, 1999 This collection of articles in English and German covers a wide range of interdisciplinary topics of historical and modern manifestations of rhetoric in literature linguistics philosophy law theology education politics and intellectual history Spectacle & image in Renaissance Europe / Spectacle & image dans l'Europe de la Renaissance Andre Lascombes, 2023-08-14 This collection of nineteen essays focuses on the ways in which in England France and Spain the Renaissance made propagandistic or aesthetic use of the image in various spectacles Under surface differences between genres what emerges is a surprising similarity in tactics and response which invites further questioning about image elaboration and its reception **Applied Emblems in the** Cathedral of Lugo Carme López Calderón, 2021-02-08 In Applied Emblems in the Cathedral of Lugo Carme L pez Calder n explores the emblematic programme found in the Chapel of Nuestra Se ora de los Ojos Grandes Galicia Spain consisting of fifty eight emblems painted c 1735 Making use of a wide range of printed sources the author delves into the meaning of each emblem and provides an all encompassing interpretation of this cycle which can rightly be described as the richest and most complete programme of Marian applied emblematics in the Iberian Peninsula The Seventeenth-century French **Emblem** Alison Saunders, 2000 <u>Literature in the Light of the Emblem</u> Peter Maurice Daly,1998-01-01 The literature of the 16th and 17th centuries was informed by the symbolic thought embodied in the mixed art form of emblems This study

explores the relationship between the emblem and the literature of England and Germany during the period The The Painted Closet of Lady Anne Bacon Drury H.L. Meakin, 2017-07-05 Lady Anne Bacon **European Emblem** ,1987 Drury 1572 1624 was the granddaughter and niece of two of England's Lord Keepers of the Great Seal Sir Nicholas Bacon and Sir Francis Bacon Lady Anne was also the friend and patroness of John Donne and Joseph Hall however she deserves to be remembered in her own right Within her massive country house Lady Anne created a tiny painted room that she seems to have used as a kind of three dimensional book The walls consisted of panels of pictures and mottoes grouped under Latin sentences These panels can still be viewed in a Suffolk museum Christchurch Mansion in Ipswich Some panels point to classical and Biblical sources and to popular emblem books The sources of other panels are more recondite while still others are original compositions by Lady Anne The panels exhibit a contemptus mundi theme and reflect a struggle with ambition pride and even despair Some panels also appear to register carefully veiled but pointed critiques of political and religious events and figures Lady Anne's painted closet or architext is thus relevant to a wide range of early modern scholarship in various disciplines but is as yet largely unappreciated For the first time in four hundred years this book fully describes the closet and places it in its personal social intellectual and aesthetic contexts It argues for the painted closet's importance for understanding early modern conceptualizations of private and public spaces and for illuminating fundamental early modern habits of seeing and reading especially combinations of text and image Finally this book explores the closet as an example of the ingenious ways in which female subjectivity found ways to express itself even within the constraints of early modern Joannes Sambucus and the Learned Image Arnoud Visser, 2005-02-01 The emblem is one of patriarchal society in England the most remarkable literary inventions of Renaissance humanism The symbolic imagery presented in these Neo Latin emblem books constituted an important influence on many areas in early modern literature and art This volume provides the first comprehensive study of Sambucus influential Emblemata first published by Christopher Plantin Antwerp 1564 It reconstructs the cultural historical contexts in which it was produced thus reconsidering the social and commercial functions of the humanist emblem Accompanied by a detailed analysis of individual emblems it takes into account the emblems classical intertextuality and the relationship between word and image This study shows how the emblematic practice can differ from contemporary symbol and emblem theories which have often coloured modern interpretations of the genre

The final chapter analyzes the link between literary emblematics and the visual arts by looking at a specific example As in most European countries emblematics in Hungary is part of a complex labyrinth of literary modes of thought and expression A relative poverty of theoretical writing went hand in hand with a considerable range of emblematic practice. The emblem proved to be a transitional form between the period when signs and motifs were regarded as having specific and fixed meanings and the modern period when we have developed a different and shifting concept of language and meaning At the same time as emblems began to penetrate the more popular levels of national culture and literature they also became more specialized Hungarian emblematics used for the most part existing pictorial and textual combinations of pictures and texts They employed the emblem notably in genres and texts of the genus demonstrativum which referred to matters which were topical The Soledades, Góngora's Masque of the Imagination Marsha Suzan Collins, 2002 Prince of Darkness or at the time Angel of Light The pastoral masterpiece the Soledades garnered both titles for its author Luis de G ngora one of Spain's premier poets In The Soledades G ngora s Masque of the Imagination Marsha S Collins focuses on the brilliant seventeenth century Spanish poet s contentious work of art The Soledades have sparked controversy since they were first circulated at court in 1612 1614 and continue to do so even now as G ngora has become for some critics the poster child of postmodernism These perplexing 2 000 plus line pastoral poems garnered endless debates over the value and meaning of the author's enigmatic challenging poetry and gave rise to his reputation causing his very name to become an English term for obscurity Collins views these controversial poems in a different light as a literary work that is a product of European court **Emblems of** The German-language Emblem in Its European Context Anthony John Harper, Ingrid Höpel, 2000 culture the Low Countries Alison Adams, Marleen van der Weij, 2003
