European Linen Industry In Historical Perspective:

The European Linen Industry in Historical Perspective Brenda Collins, Philip Ollerenshaw, 2003 A wide ranging set of original essays by leading researchers in the history of textiles this book includes papers on Ireland Scotland Scandinavia the Low Countries Germany and north America as well as an overview of European linen production and consumption since the Middle Ages It draws on a variety of sources including documents images archaeological findings and artefactual evidence from material culture and contains a comprehensive glossary and select bibliography

The Oxford Handbook of Industrial Archaeology Eleanor Casella, Michael Neve, Hanna Steyne, 2022-05-12 Representing the first substantial English language text on Industrial Archaeology in a decade this handbook comes at a time when the global impact of industrialization is being re assessed in terms of its legacy of climate change mechanization urbanization the forced migration of peoples and labour relations Critical debates around the beginning of a new geological era The Anthropocene have emerged over the last decade This approach interrogates the widespread exploitation of natural resources that forged industrialization from its early emergence in 18th century northern Europe to its contemporary ubiquity environmental impacts and social legacy within our globalized world Through a broad international and multi period set of chapters this volume explores the complex origins processes and development of industrialization through both its physical remains and human consequences both the good and the bad It provides a diverse material framework for understanding our modern world from its industrial origins through its future paths in the 21st century

Famines in European Economic History Declan Curran, Lubomyr Luciuk, Andrew G. Newby, 2015-04-24 This volume explores economic social and political dimensions of three catastrophic famines which struck mid nineteenth and early twentieth century Europe the Irish Famine An Gorta Mór of 1845 1850 the Finnish Famine Suuret Nälkävuodet of the 1860s and the Ukrainian Famine Holodomor of 1932 1933 In addition to providing new insights into these events on international national and regional scales this volume contributes to an increased comparative historiography in historical famine studies The parallel studies presented in this book challenge and enhance established understandings of famine tragedies including famine causation and culpability social and regional famine vulnerabilities core periphery relationships between nations and regions degrees of national autonomy and self sufficiency as well as famine memory and identity Famines in European Economic History advocates that the impact and long term consequences of famine for a nation should be understood in the context of evolving geopolitical relations that extend beyond its borders Furthermore regional structures within a nation can lead to unevenness in both the severity of the immediate famine crisis and the post famine recovery This book will be of interest to those in the fields of economic history European history and economic geography

The Cambridge History of Ireland: Volume 3, 1730-1880 James Kelly, 2018-02-28 The eighteenth and nineteenth centuries was an era of continuity as well as change Though properly portrayed as the era of Protestant Ascendancy it embraces two phases the eighteenth century when that ascendancy was at

its peak and the nineteenth century when the Protestant elite sustained a determined rear guard defence in the face of the emergence of modern Catholic nationalism Employing a chronology that is not bound by traditional datelines this volume moves beyond the familiar political narrative to engage with the economy society population emigration religion language state formation culture art and architecture and the Irish abroad It provides new and original interpretations of a critical phase in the emergence of a modern Ireland that while focused firmly on the island and its traditions moves beyond the nationalist narrative of the twentieth century to provide a history of late early modern Ireland for the twenty first century

Industry, Trade and People in Ireland, 1650-1950 W. H. Crawford, 2005 Bill Crawford had played a key role in the development of Irish economic social and regional history for over forty years The essays in this book are testimony to his many spheres of influence as teacher archivist curator researcher and writer and focus on the themes in which Bill himself has been most interested the relations between town and countryside the linen industry and trade land and population His innovative use of historical sources extensive scholarship many publications and the enthusiasm for research which he imparts to so many people are acknowledged in this wide ranging volume

Migration in Irish History 1607-2007 Patrick Fitzgerald, Brian Lambkin, 2008-10-27 Migration people moving in as immigrants around as migrants and out as emigrants is a major theme of Irish history This is the first book to offer both a survey of the last four centuries and an integrated analysis of migration reflecting a more inclusive definition of the people of Ireland

Sweet and Clean? Susan North, 2020-03-26 Sweet and Clean challenges the widely held beliefs on bathing and cleanliness in the past For over thirty years the work of the French historian George Vigarello has been hugely influential on early modern European social history describing an aversion to water and bathing and the use of linen underwear as the sole cleaning agent for the body However these concepts do not apply to early modern England Sweet and Clean analyses etiquette and medical literature revealing repeated recommendations to wash or bathe in order to clean the skin Clean linen was essential for propriety but advice from medical experts was contradictory Many doctors were convinced that it prevented the spread of contagious diseases but others recommended flannel for undergarments and a few thought changing a fever patient's linens was dangerous The methodology of material culture helps determine if and how this advice was practiced Evidence from inventories household accounts and manuals and surviving linen garments tracks underwear through its life cycle of production making wearing laundering and final recycling Although the material culture of washing bodies is much sparser other sources such as the Old Bailey records paint a more accurate picture of cleanliness in early modern England than has been previously described The contrasting analyses of linen and bodies reveal what histories material culture best serves Finally what of the diseases plague smallpox and typhus that cleanliness of body and clothes were thought to prevent Did following early modern medical advice protect people from these illnesses

Medieval Clothing and Textiles Robin Netherton, Gale R. Owen-Crocker, 2008 The best new research on medieval clothing and textiles drawing from a range of disciplines and with a special focus on

reconstruction The fourth volume of this landmark series features a special focus on headdress with papers analysing women's turbans in fifteenth century French manuscript paintings the changing meaning of the term cuff the spread of wimple from England to Southern Italy and a surviving embroidered linen cap attributed to Saint Birgitta of Sweden Northern European dress and textiles are further explored in papers on archaeological textiles from medieval towns in Finland Norway and Sweden the construction of gowns excavated at Herjolfsnes Greenland and references to scarlet clothing in Icelandic sagas Other papers focus on linen production in medieval Russia and an enigmatic quilt of Henry VIII's that almost certainly arrived in England as part of the dowry of Catherine of Aragon Also included are reviews of recent books on clothing and textiles

A Cultural History of Objects in the Age of Enlightenment Audrey Horning, 2022-08-31 A Cultural History of Objects in the Age of Enlightenment covers the period 1600 to 1760 a time marked by the movement of people ideas and goods The objects explored in this volume from scientific instrumentation and Baroque paintings to slave ships and shackles encapsulate the contradictory impulses of the age The entwined forces of capitalism and colonialism created new patterns of consumption facilitated by innovations in maritime transport new forms of exchange relations and the exploitation of non Western peoples and lands The world of objects in the Enlightenment reveal a Western material culture profoundly shaped by global encounters The 6 volume set of the Cultural History of Objects examines how objects have been created used interpreted and set loose in the world over the last 2500 years Over this time the West has developed

particular attitudes to the material world at the centre of which is the idea of the object The themes covered in each volume are objecthood technology economic objects everyday objects art architecture bodily objects object worlds Audrey Horning is Professor at William Mary USA and at Queen s University Belfast UK Volume 4 in the Cultural History of Objects set General Editors Dan Hicks and William Whyte

A Revolution in Colour Giorgio Riello, Maria Hayward, Ulinka Rublack, 2024-09-19 This major volume aims to re colour the European world of dress c 1300 1800 New dyes created one of the most important visual experiences of the period yet their story has been side lined by a focus on visual experiences shaped by the high arts Meanwhile theatrical productions and period films still abound with broad assumptions about the growing dominance of black clothing for elites during the period while ordinary people are imagined having worn coarse greys and bleached garments This volume presents clear evidence that even the clothing of the middle classes could be much more expensive than paintings and that coloured clothing and accessories were ubiquitous across society Contributors shed new light on the economic environmental and cultural dimensions of colour in dress The range of dyes expanded considerably in the sixteenth and seventeenth centuries drawing on Asian and Mediterranean knowledge new collections of recipes and the greater diversity of plants available through New World trade Working creatively with organic plant animal and mineral materials to make colours involved considerable knowledge pleasure and skill The creation of colour through dyes thus reveals a whole range of global agricultural and craft technologies that can inspire future material worlds and transforms our understanding of Europe s cultural heritage

The Atlantic Economy during the Seventeenth and Eighteenth Centuries Peter A. Coclanis, 2020-05-21 The Atlantic Economy during the Seventeenth and Eighteenth Centuries is a collection of essays focusing on the expansion elaboration and increasing integration of the economy of the Atlantic basin comprising parts of Europe West Africa and the Americas during the seventeenth and eighteenth centuries In thirteen essays the contributors examine the complex and variegated processes by which markets were created in the Atlantic basin and how they became integrated While a number of the contributors focus on the economic history of a specific European imperial system others mirroring the realities of the world they are writing about transcend imperial boundaries and investigate topics shared throughout the region In the latter case the contributors focus either on processes occurring along the margins or interstices of empires or on breaches in the

colonial systems established by various European powers Taken together the essays shed much needed light on the organization and operation of both the European imperial orders of the early modern era and the increasingly integrated economy of the Atlantic basin challenging these orders over the course of the same period *The Decline of Jute* Carlo Morelli,2015-10-06 By looking at the decline of the jute industry this study assesses the successes and failures of Britain's managed economy It also addresses broader arguments about the political economy of twentieth century Britain

Artisans Abroad Fabrice Bensimon,2023 Between 1815 and 1870 when European industrialisation was in its infancy and Britain enjoyed a technological lead thousands of British workers emigrated to the continent They played a key role in several sectors like textiles iron mechanics and the railways These men and women thereby contributed significantly to the industrial take off in continental Europe *Artisans Abroad* examines the lives and trajectories of these workers who emigrated from manufacturing centres in Britain to France Belgium Germany and other countries considering their mobilities their culture their politics and their relations with the local populations Fabrice Bensimon reminds us that the British economy was not just oriented towards the Empire and the USA but also towards the continent long before the European Union and Brexit and shows the critical role played by migrant workers in the Industrial Revolution *Artisans Abroad* is the first social and cultural history of this forgotten migration

The Spinning World Giorgio Riello,Prasannan Parthasarathi,2011-09-22 This collection of essays examines the history of cotton textiles at a global level over the period 1200 1850 It provides new answers to two questions what is it about cotton that made it the paradigmatic first global commodity And second why did cotton industries in different parts of the world follow different paths of development

A Cultural History of Dress and Fashion in the Age of Enlightenment Peter McNeil,2018-11-01 Eighteenth century fashion was cosmopolitan and varied Whilst the wildly extravagant and colorful elite fashions parodied in contemporary satire had significant influence on wider dress habits more austere garments produced in darker fabrics also reflected the ascendancy of a puritan middle class as well as a more practical approach to dress With the rise of print culture and reading publics fashions were more quickly disseminated and debated than ever and the appetite for fashion periodicals went hand in hand with a preoccupation with the emerging concept of taste Richly illustrated with 100 images and drawing on pictorial textual and object sources *A Cultural History of Dress and Fashion in the Age of Enlightenment* presents essays on textiles production and distribution the body belief gender and sexuality status ethnicity and visual and literary representations to illustrate the diversity and cultural significance of dress and fashion in the period

Unhappy the Land Liam Kennedy,2015-10-26 In *Unhappy the Land* Liam Kennedy poses fundamental questions about the social and political history of Ireland and challenges cherished notions of a uniquely painful past Images of tragedy and victimhood are deeply embedded in the national consciousness yet when the Irish experience is viewed in the larger European context a different perspective emerges The author's dissection of some pivotal episodes in Irish history serves to explode commonplace assumptions about oppression victimhood and a fate said to

be comparable only to that of the Jews Was the catastrophe of the Great Famine really an Irish Holocaust Was the Ulster Covenant anything other than a battle cry for ethnic conflict Was the Proclamation of the Irish Republic a means of texting terror And who fears to speak of an Irish War of Independence shorn of its heroic pretensions Kennedy argues that the privileging of the gun the drum and the flag above social concerns and individual liberties gave rise to disastrous consequences for generations of Irish people Ireland might well be a land of heroes from C chulainn to Michael Collins but it is also worth pondering Bertolt Brecht s warning Unhappy the land that is in need of heroes

The Rise and Decline of Dutch Technological Leadership (2 Vols) Karel Davids, 2008-08-31 Technological leadership is an important topic in economic history and the history of technology This book addresses the issue of technological leadership by means of an in depth study on the Dutch Republic once described as the first modern economy Drawing on extensive research in archives in Europe and a vast amount of printed sources and secondary literature it provides a wide ranging overview of Dutch technological leadership in the early modern Europe it explains whence this leadership came about and why it ended and it explores to what extent the Dutch case illuminates the evolution of technological leadership in general This book is thus relevant for the study of technological leadership the development of technology in the early modern period as well as the history of the economic expansion of the Dutch Republic

Globalized Peripheries Jutta Wimmmler, Klaus Weber, 2020 Examines the commodity flows and financial ties within Central and Eastern Europe in order to situate these regions as important contributors to Atlantic trade networks
