European Markets After 199

Furio Cerutti, Sonia Lucarelli

European Markets After 199:

The Single Market Great Britain: Parliament: House of Lords: European Union Committee, 2008-02-08 This report is about the need for the Commission and Member States to take action in order to prevent the Single Market project from failing to achieve expectations Increased competition lower prices and a wider choice of products and services are the potential benefits to consumers access to an enormous home market is the potential benefit to business In reality the failure of Member States to implement important legislation has maintained barriers and prevented the fuller completion of the Single Market This failure is aggravated by the growing trend towards economic protectionism in a number of Member States Misguided attempts to protect domestic industries and safeguard national jobs are preventing consumers and businesses from reaping the full benefits of a truly open Single Market The EU needs to reassess the tools it uses The legislative route is not always the most effective means for achieving Single Market goals The increased use of other non legislative tools will help to overcome the difficulties of legislating for an expanded EU National Regulatory Authorities NRAs must be independent of government especially where governments have financial interests in the major market operator or national incumbent There is no need for a super regulator at EU level in any of the sectors considered in this inquiry energy telecommunications and financial services Achieving consistent implementation begins with effective policy making based on detailed sector specific understanding Currently very few SMEs are engaged in cross border activity and this is largely due to the regulatory barriers which remain in place and the lack of reliable information to assist businesses The Committee welcomes the objective of engaging small business in the Single Market American Agriculture and the European Market Edwin Griswold Nourse, 1924 The Law of the Single European Market Catherine Barnard, Joanne Scott, 2002-06-28 This edited collection explores the legal foundations of the single market project in Europe and examines the legal concepts and constructs which underpin its operation While an apparently well trodden area of EU law such is the rapid evolution of the European Court's case law that confusion persists as to the meaning of core concepts The approach adopted is a thematic one with each theme being explored in the context of the different freedoms The themes covered include discrimination horizontality mutual recognition market access pre-emption and harmonization enforcement mandatory requirements flexibility subsidiarity and proportionality Separate chapters explore the link between competition law and the single market the rapidly evolving case law on capital and the external dimension of the single market Contributors also address the WTO dimension and its important implications for the single market project in Europe **The Regulatory Aftermath of the Global Financial Crisis** Eilís Ferran, 2012-11-15 Provides an unrivalled understanding of major regulatory reforms that will profoundly affect the future of finance *EU Securities and Financial Markets Regulation* Niamh Moloney, 2023-03-25 Over the decade or so since the global financial crisis rocked EU financial markets and led to wide ranging reforms EU securities and financial markets regulation has continued to evolve The legislative framework has been refined and administrative

rulemaking has expanded Alongside the Capital Markets Union agenda has developed the UK has left the EU and ESMA has emerged as a decisive influence on EU financial markets governance All these developments as well as the Covid 19 pandemic have shaped the regulatory landscape and how supervision is organized EU Securities and Financial Markets Regulation provides a comprehensive critical and contextual account of the intricate rulebook that governs EU financial markets and its supporting institutional arrangements It is framed by an assessment of how the regime has evolved over the decade or so since the global financial crisis and considers among other matters the post crisis reforms to key legislative measures the massive expansion of administrative rulemaking and of soft law the Capital Markets Union agenda the development of supervisory convergence as the means for organizing pan EU supervision and ESMA's role in EU financial markets governance Its coverage extends from capital raising and the Prospectus Regulation to financial market intermediation and the MiFID II MiFIR and IFD IFR regimes to the new regulatory regimes adopted since the global financial crisis including for benchmarks and their administrators to retail market regulation and the PRIIPs Regulation and on to the EU's third country regime and the implications of the UK's departure from the EU This is the fourth edition of the highly successful and authoritative monograph first published as EC Securities Regulation Heavily revised from the third edition to reflect developments since the global financial crisis it adopts the in depth contextual and analytical approach of earlier editions and so considers the market political institutional and international context of the regulatory and supervisory regime

Federalism and the European Union Michael Burgess, 2002-09-11 A revisionist interpretation of the post war evolution of European integration and the European Union EU this book reappraises and reassesses conventional explanations of European integration It adopts a federalist approach which supplements state based arguments with federal political ideas influences and strategies By exploring the philosophical and historical origins of federal ideas and tracing their influence throughout the whole of the EU's evolution the book makes a significant contribution to the scholarly debate about the nature and development of the EU The book looks at federal ideas stretching back to the sixteenth century and demonstrates their fundamental continuity to contemporary European integration It situates these ideas in the broad context of post war western Europe and underlines their practical relevance in the activities of Jean Monnet and Altiero Spinelli Post war empirical developments are explored from a federalist perspective revealing an enduring persistence of federal ideas which have been either ignored or overlooked in conventional interpretations The book challenges traditional conceptions of the post war and contemporary evolution of the EU to reassert and reinstate federalism in theory and practice at the very core of European integration

From Satellite to Single Market Richard Collins, 2005-08-10 Richard Collins explores public service television's role in fostering pan European cultural identity Based on extensive primary research interviews with participants and analysis of key European programmes this book documents the growth of the public service satellite television network which was backed by the European Union and its eventual alliance with Rupert Murdoch's commercial

Sky network *Japanese Manufacturing Investment in Europe* Roger Strange, 2002-09-11 Japanese manufacturing investment in the European Community has grown dramatically over the last twenty years At first instances of investment were few concentrated in a small number of industrial sectors But since the mid 1980 s there has been a surge of investment in a much wider range of industries This volume details the growth of Japanese manufacturing investment in Europe in fourteen industrial sectors The impact of Japanese competition and direct investment on European industries is considered in the context of the emergence of the three major trading blocs the United States Japan and the EC Roger Strange concludes by making important policy recommendations and arguing for the need for a new theoretical framework for assessing the political economy of foreign direct investment **European Business** Debra Johnson, Colin Turner, 2000 This textbook examines the increasing impact of the European Union on the European business environment addressing the core challenges facing enterprises in the formative years of the new millennium **Governing the World's Biggest Market** Eric Helleiner, Stefano Pagliari, Irene Spagna, 2018-02-07 What has been done since the 2008 financial crisis to reform the regulation of derivatives markets The volume analyzes the goals limitations and unexpected outcomes associated with post crisis international initiatives to regulate these markets as well as the different transnational inter state and domestic political dynamics that have shaped these outcomes The Search for a European Identity Furio Cerutti, Sonia Lucarelli, 2008-06-30 This book examines the link between political identity and legitimacy in the European Union Stimulated by the crisis of legitimacy and identity suffered by the EU after the referenda on the Constitutional Treaty the editors have developed a theoretical framework to examine the interplay between these two items in the problematic development of the EU into a fully fledged political actor The contributors to the volume seek to Redefine the key notions in the rigorous way of political philosophy thus avoiding the generic or imprecise language usage found in a large part of political science literature on identity Test these concepts in the analysis of EU policies that may reveal the world views and the principles upon which EU legislation is based and whose degree of acceptance on the side of the citizens is an indicator of how far a shared political identity has developed Featuring case studies on foreign and environmental policy biosafety policy biotechnology regulation civil society human rights promotion as well as studies on the role of memory space and external views on the process of European identity building this book will be of interest to students and researchers of political science political philosophy European politics and European Studies *Market Supervision in the European Union* Pieter van Cleynenbreugel, 2014-09-25 In *Market Supervision in the European Union* Pieter Van Cleynenbreugel compares and reconstructs the emergence of divergently structured supranational market supervision mechanisms in six different sectors of EU regulation competition financial services chemicals consumer law electronic communications and energy EU market supervision developments have been plentiful over the past decade but have so far mainly been studied in their own sector specific context On the basis of an innovative cross sector investigation Pieter Van Cleynenbreugel identifies and

conceptualises common or converging EU constitutional benchmarks underlying those sector specific administrative design developments Those benchmarks better allow to conceptualise predict and restrain future EU integrated administration structures and initiatives in those and other fields of European Union law

Regulating EU Capital Markets Union

Retailing in the European Union Stewart Howe,2005-08-12 As retailing becomes increasingly important in global economics the similarities and differences of retailing from country to country are now more evident This unique and timely study of retail structures across Europe gives an insightful overview of the internationalization of retailing and asks important questions regarding the effectiveness of different retailing sectors With chapters on Denmark France Germany Greece Italy Spain and the United Kingdom this contemporary study examines the extent to which Europe s increasingly homogenous environment applies to retailing By considering overall structural and socio economic variables of country to country retailing it draws fascinating conclusions on efficiency and competition within the European Union A major contribution to the field of European retail studies this significant work in comparative legislation is essential reading for anyone studying retailing at postgraduate or undergraduate level or with an interest in comparative economics The Linen Trade of Europe During the Spinning-wheel Period John Horner,1920

Footprints of Feist in European Database Directive Indranath Gupta,2017-05-23 Connected to the jurisprudence surrounding the copyrightability of a factual compilation this book locates the footprints of the standard envisaged in a US Supreme court decision Feist in Europe In particular it observes the extent of similarity of such jurisprudence to the standard adopted and deliberated in the European Union Many a times the reasons behind law making goes unnoticed The compelling situations and the history existing prior to an enactment helps in understanding the balance that exists in a particular legislation While looking at the process of enacting the Database Directive 96/9 EC this book reflects upon the concern that was expressed with the outcome of Feist decision in Europe Strategies in Global Competition (RLE International Business) Neil Hood,Jan-Erik Vahlne,2013-01-04 The main thrust of Part 1 is to give some understanding of the concept of global competition In doing so the chapters rely heavily on industrial studies Part 2 deals with two different aspects of this change viewed from two different perspectives The one is economic and more macro the other political and social and more micro being concerned with the way in which companies have to utilize their various organisational units and integrate information on a fragmented environment into a strategic whole Part 3 deals specifically with technology as the particular segment of the environment which often has the largest impact on future strategies In Part 4 the perspective of global competition is applied at industry country and company levels and it is shown that this perspective adds new dimensions to old problems The final parts address the problem of management in global competition Strategies in Global Competition Neil Hood,Jan-Erik Vahlne,2012-11-26 The main

thrust of Part 1 is to give some understanding of the concept of global competition. In doing so the chapters rely heavily on industrial studies. Part 2 deals with two different aspects of this change viewed from two different perspectives. The one is economic and more macro, the other political and social and more micro, being concerned with the way in which companies have to utilize their various organisational units and integrate information on a fragmented environment into a strategic whole. Part 3 deals specifically with technology as the particular segment of the environment which often has the largest impact on future strategies. In Part 4 the perspective of global competition is applied at industry, country and company levels and it is shown that this perspective adds new dimensions to old problems. The final parts address the problem of management in global competition.

Market Investigations Massimo Motta, Martin Peitz, Heike Schweitzer, 2022-01-06

In many economic sectors the digital industries being first and foremost the market power of dominant firms has been steadily increasing and is rarely challenged by competitors. Existing competition laws and regulations have been unable to make markets more contestable. The book argues that a new competition tool is needed: market investigations. This tool allows authorities to intervene in markets which do not function as they should due to market features such as network effects, scale economies, switching costs and behavioural biases. The book explains the role of market investigations, assesses their use in the few jurisdictions where they exist and discusses how they should be designed. In so doing it provides an invaluable and timely instrument to both practitioners and academics.
