European Vistas

European Vistas, Cultural Landscapes Fronia E. Wissman, 2000 This work discusses the changing interrelationships of humanity and the environment both natural and built over five centuries It discusses ways that landscapes have been used in culture from the use of environment as a backdrop for figures to the practical use of renderings as maps

Jules Breton, Painter of Peasant Life Annette Bourrut Lacouture, Jules Breton, 2002-01-01 Jules Breton 1827 1906 known as one of the first peasant painters created beautiful scenes of rural French life and was a highly popular figure among the Salon artists of his era Taking his inspiration from his native Artois and from the landscapes of Brittany where he stayed for long periods he painted peasant women and men performing their daily activities meticulously observing their world and making it a place of peace and harmony During the second half of the nineteenth century rewards and official decorations were heaped upon him and his paintings were purchased not only by the emperor but also by collectors in America Britain and Ireland However Breton's work became eclipsed by the avant garde movements of the twentieth century and he was eventually forgotten This book now pays Breton the tribute that he deserves It traces the development of his career and the forces that influenced him from his childhood through his early training in Belgium and Paris to his years in Brittany The book presents and discusses a number of important paintings by Breton some of which have been almost unknown until now and it shows how they reflect the artist's social and humanitarian concerns as well as his painterly abilities
