European Drug Policies And Enforcement:

European Drug Policies and Enforcement Nicholas Dorn, Jorgen Jepsen, Ernesto Savona, A.P. Thirlwall, 1996-06-12 Drug problems present sharp challenges for policing and democracy in the European Union Harmonisation of anti trafficking measures contrasts with diversity of local policies on drug users Open drug scenes trigger innovative but often volatile responses This collection presents vivid experiences of drug policy making at city regional and higher levels For the future beyond 1996 EU confederal and intergovernmental scenarios have distinct implications for drugs Finally international dimensions are explored drug control through money laundering countermeasures trade and development policies security and EU enlargement *European Drug Policies* Renaud Colson, Henri Bergeron, 2017-01-27 The drug control regime established by the international community has not succeeded in curbing either the demand for or the offer of narcotics But despite a series of developments in the Americas including the legalisation of cannabis in Uruguay and in several states in the United States of America there is still little support in Europe for repealing drug prohibition laws Nevertheless a gradual policy convergence reveals the emergence of a European model favouring public health strategies over a strictly penal approach to combatting drugs while growing transnational support for legalisation indicates the persistence of an alternative paradigm for drug policy This book examines the various influences on drug policies in Europe as grassroots movements NGO networks private foundations and academic research centres increasingly confront the prevailing discourses of drug prohibition Pursuing an interdisciplinary approach and bringing together legal scholars social scientists and practitioners it provides a comprehensive and critical assessment of drug policy reform in Europe [Policies and Strategies to Combat Drugs in Europe](#) Georges Estievenart, 2023-08-28 This volume arose from a European Scientific Seminar on Strategies and Policies to Combat Drugs which was organized by the Commission of the European Communities at the European University Institute in Florence in December 1993 The significance of the seminar lay in the manner in which it sought to address the full range of issues associated with the drug problem at international national and local level Equally important was its success in attracting participants from a number of different disciplines scientific experts national and EU administrators working in the drugs field and members of the European Parliament That provided for a lively and wide ranging exchange of views and ideas which is reflected in the contributions and conclusions contained in this publication which comprises varied contributions and approaches to drug policies at international European national and local level It also focuses on the possibilities of a comprehensive Drug Strategy within the framework of the European Union **Anti-Drugs Policies of the European Union** M. Elvins, 2003-08-06 Martin Elvins book is the first to trace the evolution of anti drugs policies at European Union level from the late 1960s to the present Phases of drug policy development key policy actors and institutions are described with particular reference to the influence of transnational networks of expertise Policy development is placed in the context of both European integration and a broad harmonization of international policies against drug trafficking

Concerns are also raised about secretive and anti democratic features on intergovernmental EU decision making **Drug Policy Harmonization and the European Union** C. Chatwin,2011-04-28 Exploring the illegal drug issue in international context this book looks at why harmonization has not already taken place at the European level It considers the desirability and viability of harmonization examines the conflict between repressive and liberal drug policies and applies a multi level governance lens to the issue The Routledge Handbook of European Criminology Sophie Body-Gendrot,Mike Hough,Klara Kerecsi,René Lévy,Sonja Snacken,2013-08-15 This new book brings together some of the leading criminologists across Europe to showcase the best of European criminology This Handbook aims to reflect the range and depth of current work in Europe and to counterbalance the impact of the sometimes insular and ethnocentric Anglo American criminological tradition The end product is a collection of twenty eight chapters illustrating a truly comparative and interdisciplinary European criminology The editors have assembled a cast of leading voices to reflect on differences and commonalities elaborate on theoretically grounded comparisons and reflect on emerging themes in criminology in Europe After the editors introduction the book is organised in three parts five chapters offering historical theoretical and policy oriented overviews of European issues in crime and crime control seven chapters looking at different dimensions of crime in Europe including crime trends state crime gender and crime and urban safety fifteen chapters examining the variety of institutional responses exploring issues such as policing juvenile justice punishment green crime and the role of the victim This book gives some indication of the richness and scope of the emerging comparative European criminology and will be required reading for anyone who wants to understand trends in crime and its control across Europe It will also be a valuable teaching resource especially at postgraduate level as well as an important reference point for researchers and scholars of criminology across Europe
