European Literary Theory And Practice:

European literary theory and practice : from existential phenomenology to structuralism Vernon W. Gras, European Literary Theory and Practice Vernon W. Gras, 1973 Central and Eastern European Literary Theory and the West Michał Mrugalski, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars Some of these scholars such as Mikhail Bakhtin become widely known in the West and their thought was transposed onto new Western cultural contexts others such as Olga Freidenberg were barely noticed outside of Russian and Poland This volume draws attention to the schools circles and concepts that shaped the development of theory in Central and Eastern Europe as well as the history of translations transformations and migrations that conditioned its relationship with the West *Literary Theory and Criticism* Patricia Waugh, 2006 This volume offers a comprehensive account of modern literary criticism presenting the field as part of an ongoing historical and intellectual tradition Featuring thirty nine specially commissioned chapters from an international team of esteemed contributors it fills a large gap in the market by combining the accessibility of single authored selections with a wide range of critical perspectives The volume is divided into four parts Part One covers the key philosophical and aesthetic origins of literary theory while Part Two discusses the foundational movements and thinkers in the first half of the twentieth century Part Three offers introductory overviews of the most important movements and thinkers in modern literary theory and Part Four looks at emergent trends and future directions

Women and the Material Culture of Death

Beth Fowkes Tobin, 2017-07-05 Examining the compelling and often poignant connection between women and the material culture of death this collection focuses on the objects women make the images they keep the practices they use or are responsible for and the places they inhabit and construct through ritual and custom Women's material practices ranging from wearing mourning jewelry to dressing the dead stitching memorial samplers to constructing skull boxes collecting funeral programs to collecting and studying diseased hearts making and collecting taxidermies and making sculptures honoring the dead are explored in this collection as well as women's affective responses and sentimental labor that mark their expected and unexpected participation in the social practices surrounding death and the dead The largely invisible work involved in commemorating and constructing narratives and memorials about the dead from family members and friends to national figures calls attention to the role women as memory keepers for families local communities and the nation Women

have tended to work collaboratively making collecting and sharing objects that conveyed sentiments about the deceased whether human or animal as well as the identity of mourners Death is about loss and many of the mourning practices that women have traditionally and are currently engaged in are about dealing with private grief and public loss as well as working to mitigate the more general anxiety that death engenders about the impermanence of life *Literary Theory: The Basics* Hans Bertens,2024-06-28 Now in its fourth edition *Literary Theory The Basics* is an essential guide to the complicated and often confusing world of literary theory Readers will encounter a broad range of topics from Marxist and feminist criticism to postmodernism queer studies and ecocriticism *Literary Theory The Basics* shows in an always lucid and accessible style how literary theory and practice are connected and considers key theories and approaches including humanist criticism structuralist and poststructuralist theory postcolonial theory posthumanism ecocriticism and animal studies digital humanities and print culture studies Literary theory has much to say about the wider world of humanities and beyond and this guide helps readers to approach the many theories and debates with confidence Expanded with updates throughout this is the go to guide for understanding literary theory today *The Rise of Surrealism* Willard Bohn,2002-01-01 Examines the developments that paved the way for the Surrealist movement in literature and art *Expanding Austenland* Áine Madden,2024-01-13 *Expanding Austenland* The *Pride and Prejudice* Fanfiction Archive explores Jane Austen s reception in popular culture through an exploration of the ever expanding terrain of online fanfiction professionally published profic texts and other intertextual reworkings inspired by the author s most popular novel *Pride and Prejudice* The book argues that given its pervasiveness *Pride and Prejudice* could be usefully considered not as a single novel but as an entire archive of interrelated texts or as a portal that opens a virtual world for readers to expand and explore By examining the *Pride and Prejudice* archive of interrelated texts this book analyses the process through which an individual novel can develop a virtual life or afterlife The evolving world that is opened by *Pride and Prejudice* and extended and enriched through fanfiction is conceptualised in the monograph as *Austenland* **The Legacy of Edward W. Said** William V. Spanos,2010-10-01 With the untimely death of Edward W Said in 2003 various academic and public intellectuals worldwide have begun to reassess the writings of this powerful oppositional intellectual Figures on the neoconservative right have already begun to discredit Said s work as that of a subversive intent on slandering America s benign global image and undermining its global authority On the left a significant number of oppositional intellectuals are eager to counter this neoconservative vilification proffering a Said who in marked opposition to the anti humanism of the great poststructuralist thinkers who were his contemporaries Jacques Derrida Jean Francois Lyotard Jacques Lacan Louis Althusser and Michel Foucault reaffirms humanism and thus rejects poststructuralist theory In this provocative assessment of Edward Said s lifework William V Spanos argues that Said s lifelong anti imperialist project is actually a fulfillment of the revolutionary possibilities of poststructuralist theory Spanos examines Said his legacy and the various texts he wrote including *Orientalism* *Culture and Imperialism* and *Humanism and*

Arabic, Persian, and Turkic

Poetics Hany Rashwan, 2024 Arabic Persian and Turkic Poetics Towards a Post Eurocentric Literary Theory is a pioneering book that offers a fresh perspective on Arabic Persian and Turkic literature in their interrelations The authors challenge Eurocentric paradigms while creating a framework for exploring these traditions on their own terms Authored by an international team of scholars each chapter centres the literary theoretical traditions of their respective literatures with a focus on the discipline of comparative poetics ilm al bal gha in the Islamic world By liberating the study of Islamicate literary texts from Eurocentric theoretical paradigms the book paves the way for a more inclusive global discourse in literary studies Specifically our theoretical roots in comparative poetics and the rhetorical traditions of Arabic Persian and Turkic literatures will foster new methods of close reading that are in line with the aesthetic standards intrinsic to these texts and their traditions Engaging and insightful this book is essential reading for anyone interested in broadening their understanding of world literature and literary theory

Weber, Irrationality, and Social Order

Alan Sica, 2024-06-28 Despite immediate appearances this book is not primarily a hermeneutical exercise in which the superiority of one interpretation of canonical texts is championed against others Its origin lies elsewhere near the overlap of history psychoanalysis aesthetics and social theory of the usual kind Weber Pareto Freud W I Thomas Max Scheler Karl Mannheim and many others of similar stature long ago wondered and wrote much about the interplay between societal rationalization and individual rationality between collective furor and private psychopathology in short about the strange and worrisome union of character and social structure to recall Gerth and Mills Pondering the history of social thought in this century can lead to the unpleasant realization that such large scale questions slipped away especially from sociologists sometime before World War II Or if not entirely lost they were so transformed in range and rhetoric that a gap opened between contemporary theorizing and its European background Perhaps this partly explains Weber s continuing appeal By dealing with him one might again broach topics long at odds with social science of the last forty years From the Preface This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1988

Langenohl, 2015-03-23 Many Europeans think that town twinning has greatly contributed to integration in Europe after the Second World War This book based on observations and interviews with twinning practitioners in small towns reveals the social and cultural processes that inform twinning as a transnational practice its perspectives and its limits

Modern Genre Theory David Duff, 2014-09-11 Since Aristotle genre

has been one of the fundamental concepts of literary theory and much of the world's literature and criticism has been shaped by ideas about the nature, function and value of literary genres. Modern developments in critical theory, however, prompted in part by the iconoclastic practices of modern writers and the emergence of new media such as film and television, have put in question traditional categories and challenged the assumptions on which earlier genre theory was based. This has led not just to a reinterpretation of individual genres and the development of new classifications, but also to a radically new understanding of such key topics as the mixing and evolution of genres, generic hierarchies and genre systems, the politics and sociology of genres and the relations between genre and gender. This anthology, the first of its kind in English, charts these fascinating developments. Through judicious selections from major twentieth-century genre theorists including Yuri Tynyanov, Vladimir Propp, Mikhail Bakhtin, Hans Robert Jauss, Rosalie Colie, Fredric Jameson, Tzvetan Todorov, Gérard Genette and Jacques Derrida, it demonstrates the central role that notions of genre have played in Russian Formalism, structuralism and post-structuralism, reception theory and various modes of historical criticism. Each essay is accompanied by a detailed headnote, and the volume opens with a lucid introduction emphasising the international and interdisciplinary character of modern debates about genre. Also included are an annotated bibliography and a glossary of key terms, making this an indispensable resource for students and anyone interested in genre studies or literary theory. **(Counter-)Archive:**

Memorial Practices of the Soviet Underground Klavdia Smola, Ilya Kukulin, Annelie Bachmaier, 2024-10-04 This book is the first major study exploring archival and memorial practices of the Soviet unofficial culture. The creation of counter archives was one of the most important forms of cultural resistance in the Soviet Union. Unofficial artists and poets had to reinvent the possibilities of maintaining art and literature that did not exist. Against the background of archival theories and memory studies, the volume explores how the culture of the Soviet underground has become one of the most striking cases of scholarly and artistic self archiving, which, although being half isolated from the outer world, reflected intellectual and artistic trends characteristic of its time. The guiding question of the volume is how Soviet unofficial culture deconstructed social memory by collecting, archiving and memorizing tabooed culture of the past and present. *Practicing Literary Theory in the Middle Ages* Eleanor Johnson, 2017-12-20 Literary scholars often avoid the category of the aesthetic in discussions of ethics, believing that purely aesthetic judgments can vitiate analyses of a literary work's sociopolitical heft and meaning. In *Practicing Literary Theory in the Middle Ages*, Eleanor Johnson reveals that aesthetics, the formal aspects of literary language that make it sense perceptible, are indeed inextricable from ethics in the writing of medieval literature. Johnson brings a keen formalist eye to bear on the prosimetric form, the mixing of prose with lyrical poetry. This form descends from the writings of the sixth-century Christian philosopher Boethius, specifically his famous prison text, *Consolation of Philosophy*, to the late medieval English tradition. Johnson argues that Boethius's text had a broad influence, not simply on the thematic and philosophical content of subsequent literary writing, but also on the specific aesthetic construction of several vernacular

traditions She demonstrates the underlying prosimetric structures in a variety of Middle English texts including Chaucer's *Troilus and Criseyde* and portions of the *Canterbury Tales* Thomas Usk's *Testament of Love* John Gower's *Confessio amantis* and Thomas Hoccleve's autobiographical poetry and asks how particular formal choices work how they resonate with medieval literary theoretical ideas and how particular poems and prose works mediate the tricky business of modeling ethical transformation for a readership **The Drama in Europe in Theory and Practice** Eleanor Frances Jourdain,1924

Philosophical Approaches to Literature William E. Cain,1984 This volume presents eleven new essays that reveal how significant nineteenth and twentieth century writers have drawn from and in some cases opposed major trends in philosophy Essays in this collection deal with Tennyson Coleridge Woolf Faulkner De Quincey Beckett romance as a genre the state of contemporary literary theory as shaped by the writings of Wittgenstein Ricoeur and Derrida and other topics
