G. Sabin, 1986-06-18      Security at Sea Stockholm International Peace Research Institute, 1990 Since the Second World War five navies are known to have acquired nuclear weapons and naval forces and activities around the world have become increasingly important and dangerous However there has been no serious consideration of naval arms control for more than forty years SIPRI gathered together a group of experts from eight nations to consider the problems of naval forces and the possibilities for arms control This book is a product of that conference and it presents for the first time a broad and detailed assessment of the dangers of the naval arms race problems with arms control possible approaches confidence building measures and verification technologies      **The Arms Race at a Time of Decision** Joseph Rotblat, Alessandro Pascolini, 1984-07-01      **Strategic Defence and Future of the Arms Race** John P. Holdren, Joseph Rotblat, 1987-06-01      **Commonwealth in the 1980's** A.J.R. Groom, Paul Taylor, 2016-01-23      Nuclear Weapons and Foreign Policy United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on United States Security Agreements and Commitments Abroad, 1974      *Britain, Detente and Changing East-West Relations* Brian White, 2002-06-01 There is little systematic analysis available of Britain's contribution to East West relations since 1945 and in particular of Britain's contribution to East West detente In general British attempts to act as mediator between East and West have been regarded as ineffectual and a rather desperate attempt to prove that Britain could still wield influence on the world stage In this new contribution to the study of the evolution of post war international relations Brian White argues that Britain's contribution to detente cannot so easily be dismissed Through narrative and analysis he examines the persistent theme of Britain's attempts to steer East West relations in a co operative direction In doing so he has provided both an important revaluation of Britain's role in the post war world and an invaluable case study in foreign policy formation and execution      **The Dangers of New Weapon Systems** Trevor Taylor, 1983-09-29      World Peace and the Developing Countries Joseph Rotblat, Ubiratan D'Ambrosio, 1986-10-03      **European Security in the 1990s** W. Laqueur, L. Sloss, 2013-11-11 Rarely if ever have the political economic and military foundations of the Western Alliance been in such a state of flux Walter Laqueur and Leon Sloss therefore deserve credit not just for the quality of the analysis in this superb book but also for the timeliness of its

appearance As Laqueur says in his chapter Touring the Western European Defense Horizon if the likely development of European defense policies is not particularly reassuring at least it gives no grounds for despair The list of problems we face is a daunting one First there is the spiralling cost of defense expenditures particularly in the absence of significant NATO or inter European cooperation This is particularly serious in light of the reluctance to increase or even maintain current expenditures in the midst of Mikhail Gorbachev's peace offensive and the extraordinary changes in Eastern Europe both of which have had a dramatic impact on Western public opinion There is also a problem in the perceived relative economic decline of the United States vis a vis Western Europe and Japan which only exacerbates calls to reduce the number of American troops in Europe Other dangers to the political cohesion and military credibility of the alliance include demographic trends that threaten current manpower levels transatlantic acrimony over the burden sharing issue and political pressures particularly in West Germany toward denuclearization and even neutralism      *Arms Race in the Era of Star Wars* David Carlton, Carlo Schaerf, 1988-06-18
