European Society and Politics Stanley Rothman, 1970 European Society and Politics Stanley Rothman, Howard Scarrow, Martin Schain, 1976 **Politics and Society in Western Europe** Jan-Erik Lane, Svante O. Ersson, 1999-02-23

Politics and Society in Western Europe is a comprehensive introduction for students of West European politics and of comparative politics. This new edition has been extensively revised and updated to meet with the new needs of undergraduate students as they come to terms with a changing social and political landscape in Europe. This textbook provides a full analysis of the political systems of 18 Western European countries: their political parties, elections and party systems as well as the structures of government at local, regional, national and European Union levels. Throughout the book, key theoretical ideas are accessibly introduced and examined against the very latest empirical data on civil society and the state.

Mobilising Politics and Society? Sonia Lucarelli, Claudio Maria Radaelli, Claudio Radaelli, 2013. Mobilising Politics and Society offers a timely analysis of the European Union Convention's impact on the domestic political systems and civil society in Southern Europe. It provides country chapters on Portugal, Spain, Italy, Greece, Malta, Cyprus and Turkey. All chapters follow a common scientific template in order to offer material for genuine cross-country comparison. In addition, the volume contains horizontal chapters on three important issues: the mobilisation of intellectuals, sub-national politics and the participation of women. The editors compare results of the country chapters in their conclusions. The book contains documentation on the EU Convention and South European participants. This volume was previously published as a special issue of the journal South European Society and Politics.

The New Politics of European Civil Society Ulrike Liebert, Hans-Jörg Trenz, 2012-08-21. Over the past two decades, civil society has played a pivotal role in Europe, from the demise of Communist rule to the reunification of Europe, followed by the expansion of the single market to the reconstitution of democracy in the enlarged European Union. European civil society has emerged as a social space between EU governance and the citizens of the member states, populated by non-state agents claiming to represent, speak for or participate on behalf of the most varied social constituencies in EU decision making. This book consolidates European civil society research by re-viewing its conceptual, normative and empirical analytical foundations. With contributors from political science to sociology to law, it captures the evolving practices of European civil society that stretch across the national, local, the European and the global realm. Developing an analytical framework that highlights the interplay between civil society building and polity building from above as well as from below within the legal and institutional framework of the EU, they examine whether and how civil society can contribute to making democracy work in normative, democratic, theoretical perspectives. This book will be of interest to students and scholars of civil society, European politics, political science and sociology.

Party Politics in European Microstates Fernando Casal Bértoa, Patrick Dumont, 2022-11-30 This book represents the first comprehensive study of the evolution of parties and party systems in all nine democratic European states with less than one million inhabitants As small political units have for long been considered to be most conducive to stable democracy this volume analyses the actual role of political parties and partisan competition in the operation of modern democracy in those European microstates Drawing on the crucial contribution of leading country experts in the field it provides rich systematic contextualized knowledge on these lesser known cases It further contributes to the mainstreaming of small state research in social science studies by comparing the experience of party politics in European microstates with that of larger countries in the same region of the world This volume will be of key interest to scholars and students of party systems and political parties elections and democracy small states European politics and more broadly of comparative politics **The Politics of**

Eurozone Reforms Zdenek Kudrna, Sonja Puntischer Riekmann, Fabio Wasserfallen, 2021-08-20 Recent Eurozone reforms mark the most profound deepening of European integration since Maastricht The Politics of Eurozone Reforms analyses how member states formed preferences in the politics of these reforms and how preferences translated into policy outcomes on the European level The chapters summarize insights on the role of different actors and institutions from four datasets based on 200 expert interviews the analysis of 5000 policy documents and constitutional court cases in all EU member states The findings confirm some common wisdom dispel some myths and provide insight into mechanisms facilitating further reforms While quantitative analyses show that Northern and Southern member states were deeply divided case study chapters provide a more refined view Empirical data also indicates that reform decisions were dominated by governments and EU institutions but dispel the notion that Germany alone imposed its preferred policy This book goes further and unpacks the legacies of the EMU crisis that make future reforms dependent on the reduction of financial sector risks which is a necessary condition for rebuilding trust and restarting the gradual convergence of Eurozone reform preferences *The Impact of*

European Integration on West European Politics Luca Carrieri, 2020-10-27 This book analyses emerging trends in the politicisation of EU conflicts in Western Europe between 2006 and 2019 evaluating the transformative effects arising from multiple crises the Euro crisis the migration crisis and the Brexit Referendum It describes how EU issues have been increasingly emphasised and polarised by various political parties both the mainstream pro EU and anti EU protest parties and have been transformed into more meaningful determinants of voting The respective chapters investigate the fluctuations in EU issue entrepreneurship and EU issue voting identifying which party types have been more likely to benefit from their EU issue proximity to voters and assessing the growing politicisation of the EU conflict in both South European and North Western countries This book will be of particular interest to students and scholars of political parties European politics Euroscepticism and voting behaviour **Elections in Hard Times: Southern Europe 2010-11** Anna Bosco, Susannah

Verney,2016-04-08 Southern Europe has been at the heart of the European sovereign debt crisis and in the vanguard of the programmes of radical economic austerity implemented to confront it During the first two crisis years the consequences for domestic political stability were dramatic Across the region 2010 11 saw the overthrow of incumbent governments the breaking down of established political affiliations and the emergence of new political actors The culmination was the simultaneous downfall of three South European governments in the space of eighteen days in November 2011 This volume offers a collection of case studies of the twelve popular votes during this period in Italy Greece Portugal Spain Turkey Cyprus and the Turkish Cypriot community The contests include legislative presidential and sub national elections and a national level referendum In our control case Turkey there was no economic crisis and no government change Elsewhere in Southern Europe the studies indicate the progression of the crisis from the limited disapproval of Berlusconi government registered in the Spring 2010 Italian regional election to the electoral collapse of the Spanish socialists in late 2011 The volume indicates a build up of popular frustration with the democratic process which can only be dangerous for the future of South European democracy This book was published as a special issue of South European Society and Politics

Crisis Elections, New Contenders and Government Formation Anna Bosco, Susannah Verney, 2018-12-07 The parliamentary elections of 2015 16 in Greece Spain and Portugal had extraordinary consequences bringing repeat elections unprecedented processes of government formation and uncharted government outcomes Greece formed a coalition of radical left and radical right and Portugal its first government supported by the communist party while Spain took ten months to get a government These developments are especially astonishing in three states which in previous decades were a byword for democratic stability After the transitions following the fall of their dictatorships in the 1970s Greece Spain and Portugal established bipolar electoral competition and predictable patterns of government formation But more recently all three countries have been in the frontline of the economic crisis and austerity implementation triggering electoral realignments and turning the radical left into a major player This volume offers essential understanding of the political destabilisation of Southern Europe It includes detailed analyses of all five crisis elections and of Greece s bailout referendum It also provides studies of the five new contender parties SYRIZA Podemos Ciudadanos the Bloco Esquerda and the Portuguese Communist Party which played a key role in government formation for the first time The chapters originally published as a special issue in South European Society and Politics **The Lost Decade? The 1950s in European History, Politics, Society and Culture**

Heiko Feldner, Claire Gorrara, Kevin Passmore, 2010-10-12 This volume of essays explores the social political and cultural legacies of a decade which has until relatively recently received scant scholarly attention Sandwiched uncomfortably between the traumatic events of the Second World War and the dramatic changes of the 1960s the 1950s appeared as seemingly transitional years while they were in fact an astonishingly fecund period of reassessment and experimentation when traditional models were re evaluated and new models were road tested to be either developed or rejected An important

intervention in the dynamic scholarly re examination of the 1950s this volume analyzes these years in relation to three broadly defined areas historiography politics and society and culture What emerges from all three parts of the volume is a vision of the 1950s as a decade which was to have a profound impact on post war European identities in two key respects as a time of accelerated European intellectual exchange and as a time of fertile receptivity to the new variously formulated and contested across and within national borders Written by experts in the field the contributions to this volume represent some of the most exciting work on the 1950s currently being undertaken in Europe and the US They combine high intellectual standards with accessibility and will appeal to academics students and the general reader alike *The Politics of EU Accession* Lucie Tunkrova,Pavel Šaradín,2010-05-04 This book examines the politics of EU accession by assessing the experiences of the newly democratised and acceded Czech Republic Hungary Poland and Slovakia and the challenges that Turkey faces Handbook of Civil Society and Social Movements in Small States Lino Briguglio,Michael Briguglio,Sheila Bunwaree,Claire Slatter,2023-02-22 This volume is unique because of its focus on small states There are many studies on civil society and social movements but none that specifically deal with this category of countries As is well known small states have particular characteristics including a limited ability to reap the benefits of economies of scale a high degree of exposure to forces outside their control and the proximity of politicians to the voters often leading to clientelistic relationships and patronage networks The small island developing states have the additional problem of high environmental vulnerability with some also dealing with disproportionate ecological footprints These factors have a bearing on the organization and performance of civil society organizations and social movements as explained in several chapters of this book The volume is organized in three parts dealing with aspects of civil society and social moments in small states in the political social and environmental spheres respectively Various definitions of civil society are proposed in the chapters but most authors associate the term with organized groups operating in the interest of citizens independently of government and commercial business including various forms of non governmental organizations NGOs Civil society also encompasses social movements which are considered to be loosely organized collective campaigns in pursuit of social goals These two terms are sometimes used interchangeably however some authors argue that social movements tend to engage in contentious politics including protests while NGOs engage through more organized and institutional routes
