European Union And Cyprus Pb:

The Cyprus Question and the EU Andreas Theophanous, 2004 Mediterranean France and Corsica Pilot Rod and Lucinda Heikell, This is a comprehensive companion to the long coastline which ranges from Spain and the edge of the Pyrenees to the Alpes Maritimes and Italy It covers the flat country of Languedoc Roussillon the coast of the Golfe du Lion the Rh ne delta and the Camargue the industrial Golfe de Fos the C te d Azur and the French Riviera and Monaco The island of Corsica and the waterways that run behind the coast linking the Canal du Midi and the tangs to the Rh ne are covered in separate chapters The authors spent the summer and autumn of 2016 cruising in Corsica and then across to the Golfe du Fos where they left Skylax for the winter During their travels they visited a large number of harbours and anchorages collecting the latest information and taking new photographs There are new aerial photos for many places and in particular for ports and harbours in Languedoc Roussillon This major 2017 edition contains substantial change to the content A new Mediterranean France pilot from Rod and Lu Heikell is now available from Imray and needless to say if you have not got one and plan to cruise this coast and inevitably Corsica then rush out and buy it Royal Cruising Club *Euro-Mediterranean Security: A Search for Partnership* Sven Biscop, 2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU s approach towards security in the Mediterranean After examining the EU s interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and co operative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy *The European Union and Border Conflicts* Thomas Diez, Mathias Albert, Stephan Stetter, 2008-03-27 It is generally assumed that regional integration leads to stability and peace This book is a systematic study of the impact of European integration on the transformation of border conflicts It provides a theoretical framework centred on four pathways of impact and applies them to five cases of border conflicts Cyprus Ireland Greece Turkey Israel Palestine and various conflicts on Russia s border with the EU The contributors suggest that integration and association provide the EU with potentially powerful means to influence border conflicts but that the EU must constantly re adjust its policies depending on the dynamics of each conflict Their findings reveal the conditions upon which the impact of integration rests and challenge the widespread notion that integration is necessarily good for peace This book will appeal to scholars and students of international relations European politics and security studies studying European integration and conflict analysis **Security Relations between China and the European Union**

Emil J. Kirchner, Thomas Christiansen, Han Dorussen, 2016-09-29 Over the past decade the EU and China have expanded their relations beyond a focus on economic and trade issues to the sphere of security Taking a broad definition of security a multidisciplinary approach and a comparative perspective including scholars from both Europe and China this book provides an in depth analysis of the extent to which the EU and China not only express similar threat concerns or make declarations about joint responses but also adopt concrete measures in the pursuance of security cooperation In particular the book seeks to explore a range of key themes in the field of EU China security cooperation such as nuclear proliferation international terrorist threats and cyber attacks Besides providing an overview of the areas where security cooperation exists and where it does not it also highlights the aspects of convergence and divergence and the reasons for their occurrence **Italian**

Saraceno, 2007-10-15 This is a comparative handbook and analysis of the social conditions and institutional contexts in the new and old member states of the enlarged EU 28 *Making War and Building Peace* Michael W. Doyle, Nicholas

Sambanis, 2011-04-22 Making War and Building Peace examines how well United Nations peacekeeping missions work after civil war Statistically analyzing all civil wars since 1945 the book compares peace processes that had UN involvement to those that didn t Michael Doyle and Nicholas Sambanis argue that each mission must be designed to fit the conflict with the

right authority and adequate resources UN missions can be effective by supporting new actors committed to the peace building governing institutions and monitoring and policing implementation of peace settlements But the UN is not good at intervening in ongoing wars If the conflict is controlled by spoilers or if the parties are not ready to make peace the UN cannot play an effective enforcement role It can however offer its technical expertise in multidimensional peacekeeping operations that follow enforcement missions undertaken by states or regional organizations such as NATO Finding that UN missions are most effective in the first few years after the end of war and that economic development is the best way to decrease the risk of new fighting in the long run the authors also argue that the UN s role in launching development projects after civil war should be expanded *The European Neighbourhood Policy in a Comparative Perspective* Sieglinde

Gstohl,2016-07-22 The European Neighbourhood Policy ENP has evolved into one of the European Union s major foreign policy instruments and received considerable attention However other EU neighbourhood policies and their relevance for the ENP also require examination The Arab uprisings civil wars in Libya and Syria the continuing Israeli Palestinian conflict the crisis in Ukraine and Russia s annexation of the Crimean peninsula have all brought the institutional design and tools of the ENP into question and a comparative perspective is crucial to understand EU neighbourhood policies in a wider sense This timely book puts the ENP into context by exploring the major challenges and key lessons of the EU s other policy frameworks with neighbouring countries Mapping the EU s bi lateral and multilateral neighbourhood relations in comparison to the ENP and investigating the major challenges faced it provides a comprehensive up to date view of the EU s relations with its neighbours Focusing on current affairs and future challenges the comparison with the ENP and the lessons to be drawn generate novel insights into the EU s closest external relations This book will be of key interest to students and scholars studying European Politics policies and comparative politics **Addressing Base Erosion and Profit Shifting**

Heidenreich,2016-06-24 Europe has become a dominant frame for the generation regulation and perception of social inequalities This trend was solidified by the current economic crisis which is characterized by increasing inequalities between central and peripheral countries and groups By analysing the double polarization between winners and losers of the crisis the segmentation of labour markets and the perceived quality of life in Europe this book contributes to a better understanding of patterns and dynamics of inequality in an integrated Europe *Nursing in the European Union* Sondra Z.

Koff,2017-07-05 Europeanization has generated a galaxy of regimes laws organizations new actors and networks that have diluted institutional barriers to interaction across national borders Many nation based policy competencies have been transferred to the European level The European Union EU the world s first regional regulator bears consequences for the development of public policy and for policies affiliated with the nursing profession With limited exception the EU does not have formal powers in the health care arena However as a result of its efforts in other fields it has been heavily involved with health care and its providers Nursing in the European Union demonstrates how the organization has refashioned the nursing world throughout the member states via its power in many other policy domains This volume focuses on the EU s impact on nursing education regulation and research endeavours and suggests strategies to achieve desired objectives Volume 2 Nursing in the European Union The World of Work to be published in Fall 2016 focuses on real life situations and problems EU nurses face wages stress and dispute resolution Sondra Z Koff integrates the European experience with a discussion of nursing in the real world and presents the nursing profession in light of the European Union its components its mechanisms and its output and activities

European Integration and the Communist Dilemma Giorgos Charalambous,2016-07-22 European Integration and the Communist Dilemma assesses the response of communist parties to European integration using three contrasting and comparatively significant case studies from Greece Cyprus and Italy These parties in common with other radical parties in Europe face a continuing strategic dilemma with regard to Europe through which larger questions about communist ideology and identity can be illuminated Exploring the tendency of communist parties to face a trade off between domestic legitimacy and electoral concerns and their nature as parties professing opposition to the systemic currents of capitalism and European integration the author provides a fascinating study of the nuances in deciding whether to adopt ideological consistency or undergo moderation Blending advances in party politics communist history and Europeanization research the book devises a framework that overcomes the deficiencies of uni dimensional approaches to the study of parties and Europe In this manner wider insights on the national party politics of European integration are drawn

Heritage Language Education in Greece and Cyprus Nikos Gogonas,2023-10-09 Amid the growing trend of preserving ethnic languages within diverse ethnolinguistic communities in Greece and Cyprus our understanding of heritage language education in these countries remains limited The chapters in this collection undertake a thoughtful exploration of language education in the world s two majority Greek speaking contexts The volume brings together empirical studies that exhibit the array of heritage language education options available in Greece and Cyprus today including community complementary schools operating on weekends or after regular school hours providing language and culture classes in a range of languages e g Albanian Czech Armenian Russian day schools such as Italian and Hebrew schools and family language schools developed within the UNICEF framework Collectively these chapters establish a novel evidence base describing the diversity of the heritage language education landscape which could act as a catalyst for further research and

potentially drive change in both policy and practice Importantly the volume renders heritage language education initiatives in Greece and Cyprus visible mainly to scholars but potentially also to practitioners policymakers and other stakeholders in this evolving social educational and linguistic domain

International Influence Beyond Conditionality

Rachel A. Epstein, Ulrich Sedelmeier, 2013-09-13 The European Union's EU membership conditionality has been perceived as a highly effective means of influence on non member states in the run up to the 2004 and 2007 enlargements According to the incentive based explanation that dominates the literature conditionality has been particularly effective when the EU offered a credible membership incentive and when governments did not consider the domestic costs of compliance threatening to their hold on power This volume challenges much of the existing work on EU enlargement and postcommunist transition however by testing the conditionality thesis in the post accession setting Whereas a conditionality hypothesis would predict deteriorating compliance among the newest member states several contributions here actually find the opposite Enduring compliance among postcommunist states with the *acquis* as well as with less formally institutionalized EU preferences for economic liberalization and minority protection calls into question the role that conditionality plays in eliciting conformity Simultaneously support for the conditionality hypothesis in areas such as political party development and EU relations with Turkey and the western Balkans suggests conditionality's effects vary across countries and issues As the first study to systematically examine the relationship between international institutions and postcommunist states after enlargement this volume provides new insights into how external actors exercise their power in domestic politics This book was published as a special issue of the Journal of European Public Policy

EU Copyright Law Harmonisation

Estelle Derclaye, Gilles Stupfler, 2025-09-18 This book provides the first comprehensive comparative and empirical analysis of the state of harmonisation in EU copyright law in the 27 Member States and the UK at the level of national courts For 3 decades the EU has harmonised many aspects of copyright law via EU legislation and the case law of the Court of Justice of the EU CJEU However it is not known whether national courts actually comply with it as a comprehensive analysis of the national case law has not yet been done This book addresses this major gap in the literature In the book a lawyer and a statistician analyse some of the most recent decisions on EU copyright law issued by the 27 Member States and the UK pre and post Brexit using doctrinal and quantitative methodologies The main research question addressed is whether there is disharmony in the national case law and whether this is owed to Member States misimplementing EU copyright legislation lack of clarity of EU legislation and or case law or national courts being unaware misinterpreting or resisting CJEU case law The book provides detailed legal analyses and descriptive statistics per topic per type of work per country across countries and over time supported by statistical analysis Its findings and in depth reflections on the law and how to improve it are of crucial relevance for policymakers and the judiciary at EU and national level and will interest scholarly audiences in the UK EU EEA and beyond

Executive-legislative (Im)balance in the European Union Diane

Fromage, Anna Herranz-Surrallés, 2021-02-11 Ten years after the entry into force of the Lisbon Treaty has executive predominance in EU related matters disappeared How have executive legislative relations in the EU evolved over a crisis ridden decade from the financial and migration crises to Brexit and the COVID 19 pandemic The Lisbon Treaty could be expected to lead to the re balancing of powers in favour of parliaments for it significantly enhanced the roles of both the European Parliament and national parliaments A decade later the contributions to this edited volume examine for the first time in such an extensive breadth and from a multi level and cross policy perspective whether this has actually materialised They highlight that diverging tendencies may be observed and that important variations over time have occurred depending particularly on the occurrence of crises As stated in the fascinating epilogue by Peter Lindseth University of Connecticut School of Law this is an admirably coherent collective volume whose contributions provide an excellent overview of key aspects of executive legislative relations in the European system since the Treaty of Lisbon This edited volume will hence be of interest to both academics and practitioners interested in future reforms designed at the European and national levels to improve the EU s democratic quality
