European Women And The Second British Empire:

European Women and the Second British Empire Margaret Strobel, 1991 It enhances our understanding of intracultural and cross cultural relationships and raises significant questions about the complexities of the colonial phenomenon in the modern era *Journal of World History* [The Second British Empire](#) Timothy H Parsons, 2023-06-14 At its peak the British Empire spanned the world and linked diverse populations in a vast network of exchange that spread people wealth commodities cultures and ideas around the globe By the turn of the twentieth century this empire which made Britain one of the premier global superpowers appeared invincible and eternal This compelling book reveals however that it was actually remarkably fragile Reconciling the humanitarian ideals of liberal British democracy with the inherent authoritarianism of imperial rule required the men and women who ran the empire to portray their non Western subjects as backward and in need of the civilizing benefits of British rule However their lack of administrative manpower and financial resources meant that they had to recruit cooperative local allies to actually govern their colonies Timothy H Parsons provides vivid detail of the experiences of subject peoples to explain how this became increasingly difficult and finally impossible after World War II as Afr [The Twentieth Century](#) Judith Margaret Brown, 1999 This text looks at the growth of vibrant often new national identities movements and new nation states that reshape the political map of the late 20th century world **The French empire between the wars** Martin Thomas, 2017-03-01 By considering the distinctiveness of the inter war years as a discrete period of colonial change this book addresses several larger issues such as tracing the origins of decolonization in the rise of colonial nationalism and a re assessment of the impact of inter war colonial rebellions in Africa Syria and Indochina The book also connects French theories of colonial governance to the lived experience of colonial rule in a period scarred by war and economic dislocation **Encyclopedia of Historians and Historical Writing** Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **The Nation and Its New Women** Ellen Fleischmann, 2003-04-01 Though they are almost completely absent from the historical record Palestinian women were extensively involved in the unfolding national struggle in their country during the British mandate period Led primarily by urban educated women from the middle and upper classes of Arab society Palestinian women struggled against British colonialism and against Jewish settlement by holding a national congress meeting with government officials smuggling arms

demonstrating and participating in regional and international conferences This book is the first comprehensive historical study of the emergence and development of the Palestinian women s movement in this important historical period Drawing from little studied source material including oral histories newspapers memoirs and government documents Ellen Fleischmann not only shows what these women accomplished within the political arena but also explores the social cultural and economic contexts within which they operated Charting the emergence of an indigenous feminism in Palestine this work joins efforts to broaden European and American definitions of feminism by incorporating non Western perspectives

British Women and Cultural Practices of Empire, 1770-1940 Rosie Dias, Kate Smith, 2018-10-04 Correspondence travel writing diary writing painting scrapbooking curating collecting and house interiors allowed British women scope to express their responses to imperial sites and experiences in the 18th 19th and 20th centuries Taking these productions as its archive *British Women and Cultural Practices of Empire 1775 1930* includes a collection of essays from different disciplines that consider the role of British women s cultural practices and productions in conceptualising empire While such productions have started to receive greater scholarly attention this volume uses a more self conscious lens of gender to question whether female cultural work demonstrates that colonial women engaged with the spaces and places of empire in distinctive ways By working across disciplines centuries and different colonial geographies the volume makes an exciting and important contribution to the field by demonstrating the diverse ways in which European women shaped constructions of empire in the modern period

Enoch Powell and the Making of Postcolonial Britain Camilla Schofield, 2013-10-03 Enoch Powell s explosive rhetoric against black immigration and anti discrimination law transformed the terrain of British race politics and cast a long shadow over British society Using extensive archival research Camilla Schofield offers a radical reappraisal of Powell s political career and insists that his historical significance is inseparable from the political generation he sought to represent *Enoch Powell and the Making of Postcolonial Britain* follows Powell s trajectory from an officer in the British Raj to the centre of British politics and finally to his turn to Ulster Unionism She argues that Powell and the mass movement against New Commonwealth immigration that he inspired shed light on Britain s war generation popular understandings of the welfare state and the significance of memories of war and empire in the making of postcolonial Britain Through Powell Schofield illuminates the complex relationship between British social democracy racism and the politics of imperial decline in Britain

Married to the empire Mary A. Procida, 2017-03-01 In *Married to the empire* Mary A Procida provides a new approach to the growing history of women and empire by situating women at the centre of the practices and policies of British imperialism Rebutting interpretations that have marginalized women in the empire this book demonstrates that women were crucial to establishing and sustaining the British Raj in India from the High Noon of imperialism in the late nineteenth century through to Indian independence in 1947 Using three separate modes of engagement with imperialism domesticity violence and race Procida demonstrates the many and varied ways in which British women particularly the wives

of imperial officials created a role for themselves in the empire Drawing on a wide range of sources including memoirs novels interviews and government records the book examines how marriage provided a role for women in the empire looks at the home as a site for the construction of imperial power analyses British women s commitment to violence as a means of preserving the empire and discusses the relationship among Indian and British men and women Married to the empire is essential reading to students of British imperial history and women s history as well as those with an interest in the wider history of the British Empire Colonial India and the Making of Empire Cinema Prem Chowdhry,2000 An empirico historical inquiry into the empire cinema in Hollywood and Britain during the turbulent 1930s and 1940s It shows how the empire cinema constructed the colonial world its rationale for doing so and the manner in which such constructions were received by the colonized people **Asia in the Making of Christianity** ,2013-04-23 Drawing on first person accounts Asia in the Making of Christianity studies conversion in the lives of Christians throughout Asia past and present Fifteen contributors treat perennial questions about conversion continuity and discontinuity conversion and communal conflict and the politics of conversion Some study individuals An Chungg n of Korea Liang Fa of China Nehemiah Goreh of India while others treat ethnolinguistic groups or large scale movements Converts sometimes appear as proto nationalists while others are suspected of cultural treason Some transition effortlessly from leadership in one religious community into Christian ministry while others re convert to new forms of Christianity The accounts collected here underscore the complexity of conversion balancing individual agency with broader social trends and combining micro with macrocontextual approaches

Medical Women and Victorian Fiction Kristine Swenson,2005 In Medical Women and Victorian Fiction Kristine Swenson explores the cultural intersections of fiction feminism and medicine during the second half of the nineteenth century in Britain and her colonies by looking at the complex and reciprocal relationship between women and medicine in Victorian culture Her examination centers around two distinct though related figures the Nightingale nurse and the New Woman doctor The medical women in the fiction of Elizabeth Gaskell Ruth Wilkie Collins The Woman in White Dr Margaret Todd Mona McLean Medical Student Hilda Gregg Peace with Honour and others are analyzed in relation to nonfictional discussions of nurses and women doctors in medical publications nursing tracts feminist histories and newspapers Victorian anxieties over sexuality disease and moral corruption came together most persistently around the figure of a prostitute However Swenson takes as her focus for this volume an opposing figure the medical woman whom Victorians deployed to combat these social ills As symbols of traditional female morality informed and transformed by the new social and medical sciences representations of medical women influenced public debate surrounding women s education and employment the Contagious Diseases Acts and the health of the empire At the same time the presence of these educated independent women who received payment for performing tasks traditionally assigned to domestic women or servants inevitably altered the meaning of womanhood and the positions of other women in Victorian culture Swenson challenges more conventional

histories of the rise of the actual nurse and the woman doctor by treating as equally important the development of cultural representations of these figures

Within Her Power Linda Sturtz, 2013-11-05 This is an engaging and comprehensive study of property owning women in the colony of Tidewater VA during the 17th 18th centuries It examines the social restrictions on women s behaviour and speech opportunities and difficulties these women encountered in the legal system the economic and discretionary authority they enjoyed the roles they played in the family business their roles in the later trans Atlantic trading framework and the imperial context within which these colonial women lived making this a welcome addition to both colonial and women s history

The Lion's Share Bernard Porter, 2014-06-11 As well as presenting a lively narrative of events Bernard Porter explores a number of broad analytical themes challenging more conventional and popular interpretations He sees imperialism as a symptom not of Britain s strength in the world but of her decline and he argues that the empire itself both aggravated and obscured deep seated malaise in the British economy
