Europeanization Of British Environmental Policy A Departmental Perspective:

The Europeanization of British Environmental Policy A. Jordan, 2002-06-25 Almost all aspects of modern politics have been deeply Europeanized yet we know surprisingly little about how the EU affects the inner workings of national government This book conceptualizes the profound Europeanization of British environmental government and policy both as a lagged response to European integration and as an important determinant of Britain's contribution to that process By combining political theories of the EU with new empirical research Andrew Jordan offers a genuinely fresh perspective on the evolution of modern European governance

The Europeanization of British Politics I. Bache, A. Jordan, 2006-08-03 This is a unique book length accounts of the domestic impact of EU membership Drawing on expert contributions this volume provides a state of the art account of how membership has affected the institutions of central devolved and local governance the activities of organized interests and major areas of public policy

Knowledge, Policy, and Expertise Susan Owens, 2015-08-06 This book presents a fascinating analysis of expertise and policy formation based on an in depth study of the UK Royal Commission on Environmental Pollution The Commission provided expert advice to governments from 1970 to 2011 Often portrayed as a scientific body it was in fact an interesting hybrid which embodied wide ranging expertise It delivered thirty three reports leaving a significant mark on British environmental policy and having influence within Europe and beyond Drawing upon an extensive literature and a wide range of sources Knowledge Policy and Expertise provides the only full account of this important advisory body covering a period in which the policy landscape was profoundly transformed It offers a rich and detailed analysis of authority autonomy and trust of the diverse roles that advisors can play and the networks within which they operate and of the circumstances of influence in which expert advice comes to be accepted gratefully used strategically absorbed in diffuse ways or ignored Above all this book demonstrates the complexity and contingency of knowledge policy relations contributing substantially to a theory of expertise and drawing out important implications for the future of good advice

Spatial Planning Systems of Britain and France Philip Booth, Michelle Breuillard, Charles Fraser, Didier Paris, 2007-03-12 Exploring the similarities and differences between the spatial planning in Great Britain and France this book draws on the outcomes of the Franco British Planning Study Group It features detailed analysis and case studies

EU Environmental Policy Nigel Haigh, 2015-12-14 At a time when Europeans across the continent are focused on the EU's future direction this book provides an important contribution to the current debate Created for reasons quite unconnected with the environment the EU has been given a compelling new justification by the success of its environmental policy A number of factors including a number of threats that came to prominence in the 1980s and the new concept of sustainable development are responsible for pushing environmental policy to the forefront of its agenda Nigel Haigh a leading authority on the development and implementation of EU environmental policy traces its evolution from obscurity to centrality Drawing on a range of articles and lectures he demonstrates how the EU has not only

adapted itself to take on entirely new subject matter but also has contributed to solving problems which individual Member States could not have dealt with on their own The book goes on to contextualise the issues throughout its history and offers insight into the future role of the EU in environmental matters This book is a valuable resource for academics and scholars as well as professionals and policy makers in the areas of environment and sustainability politics international relations and European affairs

Research Methods in European Union Studies K. Lynggaard,I. Manners,K. Löfgren,2016-01-08 This collection sets a new agenda for conducting research on the EU and learns from past mistakes In doing so it provides a state of the art examination of social science research designs in EU studies while providing innovative guidelines for the advancement of more inclusive and empirically sensitive research designs in EU studies

Policy-making in the European Union Helen Wallace,Mark A. Pollack,Alasdair R. Young,2015 The policies of the European Union profoundly affect the lives of people in Europe and around the world The new edition of this highly successful textbook outlines how and why such decisions are made as well as the key challenges faced by policy makers in the current political and economic climate

Global warming policy in Japan and Britain Shizuka Oshitani,2013-07-19 This is the first book to attempt a systematic comparison of Japanese and British climate policy and politics and is now available in paperback Focusing on institutional contrasts between Japan and Britain in terms of corporatist or pluralist characteristics of government industry relations and decision making and implementation styles the book examines how and to what extent institutions explain climate policy in Japan and Britain In doing this the book explores how climate policy is shaped by the interplay of nationally specific institutional factors and universal constraints on actors which emanate from characteristics of the global warming problem itself It also considers how corporatist institutional characteristics may make a difference in attaining sustainable development Overall this book provides a new set of comparisons of climate policy and new frameworks of analysis which could be built on in future research on cross national climate policy analysis

Climate Adaptation Policy and Evidence Peter Tangney,2017-07-28 Evidence based policymaking is often promoted within liberal democracies as the best means for government to balance political values with technical considerations Under the evidence based mandate both experts and non experts often assume that policy problems are sufficiently tractable and that experts can provide impartial and usable advice to government so that problems like climate change adaptation can be effectively addressed at least where there is political will to do so This book compares the politics and science informing climate adaptation policy in Australia and the UK to understand how realistic these expectations are in practice At a time when both academics and practitioners have repeatedly called for more and better science to anticipate climate change impacts and thereby to effectively adapt this book explains why a dearth of useful expert evidence about future climate is not the most pressing problem Even when it is sufficiently credible and relevant for decision making climate science is often ignored or politicised to ensure the evidence based mandate is coherent with prevailing political economic and epistemic ideals There are other types of policy knowledge

too that are arguably much more important This comparative analysis reveals what the politics of climate change mean for both the development of useful evidence and for the practice of evidence based policymaking

European Union Jeremy Richardson,2006 Richardson introduces the policy making processes at work in the EU This edition has been significantly improved to make it even more accessible for second and third year undergraduates A website will also support this edition featuring some of the more technical material such as statistics

Europeanization of Environmental Policy in the New Europe Mats Braun,2016-04-22 Prior to the European Union EU 2004 2007 enlargement there were several predictions that this event would hamper progressive decision making within the EU on environmental policy It was believed that the new member states had adopted EU rules as a consequence of the EU s conditionality and consequently they would rather slow down the reform speed in the field after accession In this book Mats Braun offers an up to date account of how post communist member states have handled policy initiatives in the field of environmental policy after accession Using detailed case studies of how Bulgaria the Czech Republic Poland and Romania dealt with two different EU policy initiatives REACH and the Climate Energy Package he explores whether social norms and the process of socialization can help us understand why the track record of new member states in the area of environmental policy is more varied than was originally envisaged prior to enlargement

Handbook of Public Administration and Policy in the European Union M. Peter van der Hoek,2005-06-13 The Handbook of Public Administration and Policy in the European Union focuses on the current state of the EU while also demonstrating how its current structure came into being and how it may change in the near future Although most existing literature is either policy oriented or institution oriented this textbook employs a different more comprehensive approach Not only does it analyze selected EU laws and most EU institutions it is also unique in that it brings together EU public administration EU institutions and most importantly EU policies into a comprehensive text Divided into five parts the book provides an overview of theory discourses on European integration followed by an analysis of the development of European organizations Part II explains the nature of the EU highlighting its institutions Part III addresses various dimensions of public administration followed by a review in Part IV of major EU policies including the Common Agricultural Policy The textbook concludes with a history of Economic and Monetary Union and a study of the European Central Bank and the euro

The Environmental Case for Brexit Ben Pontin,2019-05-30 The recent Brexit debates present leaving the European Union largely as a threat to environmental protection and to environmental law This exciting and important new work argues that Brexit represents a real opportunity for environmental protection in the United Kingdom freeing it from a pan European framework not necessarily fit for UK domestic purposes Central to the argument is the belief that environmental protection in the United Kingdom can most effectively be pursued through established domestic institutions looking inwards at local challenges and outwards at more global ones all the while drawing on considerable historical experience The book is designed to address rather than dismiss those concerns raised by environmental lawyers

after the outcome of the referendum Provocative and compelling it offers an alternative vision of the UK environmental law framework outside of the European Union

Developing Adaptation Policy and Practice in Europe: Multi-level Governance of Climate Change E. Carina H. Keskitalo, 2010-09-14 Mitigation will not be sufficient for us to avoid climate change and we will need to adapt to its consequences This book targets the development of adaptation policy in European countries with different relations between central and regional local government

The Politics of Europeanization Kevin Featherstone, Claudio M. Radaelli, 2003-06-05 The Politics of Europeanization looks at the political aspects of European integration from the point of view of domestic politics In doing so it goes beyond the classic analysis of how policies are made in Brussels and raises instead the question what is the power of Europe in national contexts The questions at the heart of this volume are crucial both for our understanding of European integration and for their policy implications What does Europeanization really mean How can it be measured How is the European Union affecting domestic politics and policies in member states and candidate countries Is Europeanization an irreversible process Does it mean convergence across Europe How and why do differences remain The contributors explain and question the power of Europe by providing theoretical and empirical perspectives on domestic politics and institutions government and administration public policies political actors and business groups The volume contains a new research agenda for the nascent literature on Europeanization

The Politics of Animal Experimentation Dan Lyons, 2016-01-12 The reality of animal experimentation and its regulation in Britain have been hidden behind a curtain of secrecy since its emergence as a political controversy in the 1870s Public debate and political science alike have been severely hampered by a profound lack of reliable information about the practice In this remarkable study Dan Lyons advances and applies policy network analysis to investigate the evolution of British animal research policy making

Air Transport and the European Union H. Kassim, H. Stevens, 2009-12-10 Air Transport and the European Union examines the emergence of the EU as a major actor in aviation It investigates how the EU was able to develop a common policy despite the existence of an established sectoral regime and against the opposition of most European states and their flag carriers

Smart Mixes for Transboundary Environmental Harm Judith van Erp, Michael Faure, André Nollkaemper, Niels Philipsen, 2019-03-28 Analyzes how combinations of instruments at different levels of government or smart mixes can effectively regulate transboundary environmental harm

International Bibliography Of Economics 2003 Compiled by the British Library of Political and Economic Science, 2004-12 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world's most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included

International Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French *Policy Transfer and Learning in Public Policy and Management* Peter Carroll, Richard Common, 2013-06-26 A typical image of the making and administration of policy suggests that it takes place on an incremental basis involving public servants their ministers and to a more limited extent a variety of interest groups Yet much policy making is based on similar policy developed in other jurisdictions and in the major international organizations such as the WTO and the OECD In other words significant aspects of nationally developed policies are copied from elsewhere in what is described as a process of policy transfer and learning Hence studies of policy transfer have pointed to a distinct limitation in most existing theoretical and empirical explanations as to how policy is made and implemented through their neglect of the role of policy transfer and learning Moreover policy transfer is not only a concern of academics but a growing concern for governments The latter are concerned to improve the performance of their policy and several have placed a greater more systematic focus on policy transfer as a means to increasing performance This book presents a variety of cases from differing national and international contexts that enable a valuable comparative analysis that is absent from most literature currently available and that suggest a number of exciting research directions with implications for policy making transference and implementation in the future
