Europe's Digital Revolution Broadcasting Regulation The EU And The Nation State:

Europe's Digital Revolution, 2001 Europe's Digital Revolution David Levy, 2003-09-02 Europe's Digital Revolution assesses the impact of digital broadcasting on regulatory practices in Europe The current roles and responsibilities of nation states and the EU will have to respond to rapid technological and market developments Levy considers how these responsibilities are likely to be divided in the future and which are the emerging issues and problems The Palgrave Handbook of European Media Policy K. Donders, C. Pauwels, J. Loisen, 2014-03-28 Containing state of the art contributions on the various domains of European media policies this Handbook deals with theoretical approaches to European media policy its historical development specific policies for film television radio and the Internet and international aspects of the fragmented policy domain **Cultural Governance and the European Union** Evangelia Psychogiopoulou, 2016-04-29 This edited collection brings together distinguished scholars across a range of academic disciplines to explore how the European Union engages with culture The book examines the ways in which cultural issues have been framed at the EU level and the policies and instruments to which they have given vent *The European Union and the Culture Industries* David Ward, 2016-02-17 This edited collection brings together leading academics in their respective fields to examine the European Union's impact on media and public policy It provides an analysis of the broader areas of EU policy and links these together to give a greater appreciation of the nuances and scope of EU regulatory initiatives and their impact on the member states Under a broad public interest perspective the authors provide an assessment of the success of EU policy in protecting the public interest in the culture industries and respecting certain normative principles and balancing these with market dynamics *Understanding Media Policies* E. Psychogiopoulou, 2012-08-21 Leading scholars investigate media policies in Europe inquiring into the regulatory practices policy tools and institutional features of media policy making in 14 countries The book offers a fresh assessment of the ways European media policies are formulated and identifies the factors that exert an influence throughout the process **Media Pluralism and European Law** Ewa Komorek, 2012-12-01 Although there appears to be no firm legal basis in the Treaties for EU legislative action aimed specifically at protecting media pluralism this book opens a number of promising avenues along which a viable legal regime protecting media pluralism may be achieved in the EU With particular focus on broadcasting the book examines existing albeit fragmented legislative and regulatory measures in competition law and other areas that contribute to this goal and sets forth ways to strengthen monitoring and transparency generate soft law with hard statements introduce a pluralism test in the EU Merger Regulation promote more public service media and foster media literacy Among many other issues arising in the course of the discussion the author describes and elucidates the following various types of integration of media companies and the different ways they affect pluralism and diversity limitations of must carry rules and principles of interoperability the diverging priorities of different European organizations institutions and bodies and contradictory lobbying efforts from industry actors The author places

herself on the culture side of the culture commodity dilemma showing why it is vital for regulators to preserve media pluralism by counteracting excessive media concentration and safeguarding quality and diversity of content In this era which is transforming media and communications industries worldwide with an ever increasing plethora of delivery means without respect to national borders this book is an essential resource for regulators and other concerned policymakers as well as for lawyers working with any aspect of media

Digital Broadcasting Martin Cave,Kiyoshi Nakamura,2006-01-01 the authors succeed in presenting an excellent overview of the evolution of most of the general issues and challenges currently facing policymakers and regulators in virtually every area of the media industries This volume will definitely be on my own required reading list the next time I teach a course in media policy and strategy Richard Hawkins Communications and Strategies This volume offers broad coverage of the economic and commercial issues involved in digital television in major regions and countries around the world Regulators executives and consultants in the broadcasting and communities sectors will find much of interest in the volume It can also be useful additional reading for students in media or business studies The bibliographies appearing at the end of each chapter will stimulate academic debate Madely du Preez Online Information Review Digital television is transforming both broadcasting and as a result of convergence the larger world of communications The impending analogue switch off will have a major impact on households all over the developed world Digital Broadcasting considers the effects of digital television on the availability price and nature of broadcast services in the Americas Europe and Japan It shows how this depends upon what platforms cable satellite fixed or wireless broadband countries have available for use and also upon government policies and regulatory interventions The authors show how policies towards digital television are also closely linked with spectrum for example whether to use spectrum released from analogue broadcasting for mobile communications or for broadcasting including the newly developed mobile broadcasting This is one of the key technological changes of the early 21st century and its development will affect many countries economies and societies The book has an invaluable broad coverage of the economic and commercial issues involved in digital television in major regions and countries around the world Regulators executives and consultants in the broadcasting and communications sector will find much to engage them within the book Researchers and academics of industrial and public sector economics will also find the book of great interest Students in media studies or business courses can also use the book as additional reading

Global Media and National Policies Terry Flew,Petros Iosifidis,Jeanette Steemers,2016-04-08 Conventional wisdom views globalization as a process that heralds the diminishing role or even death of the state and the rise of transnational media and transnational consumption Global Media and National Policies questions those assumptions and shows not only

that the nation state never left but that it is still a force to be reckoned with With contributions that look at global developments and developments in specific parts of the world it demonstrates how nation states have adapted to globalization and how they still retain key policy instruments to achieve many of their policy objectives This book argues that the phenomenon of media globalization has been overstated and that national governments remain key players in shaping the media environment with media corporations responding to the legal and policy frameworks they deal with at a national level

European Audiovisual Policy in Transition Heritiana Ranaivoson,Sally Broughton Micova,Tim Raats,2023-05-31 This book describes and critically addresses the innovations and shifts made in the revision of the Audiovisual Media Services Directive AVMSD adopted by the European Parliament and Council in 2018 Reflecting on European Union regulation and policy practice in all its Member States the book s unique approach places in depth case study topics against the broader theoretical background Taking a Europe wide angle an international team of authors focuses on key aspects of the AVMSD the expansion of its scope to include video sharing platforms such as YouTube the update of the rules for commercial communications the first attempt for harmonized minimal requirements at EU level regarding transparency of media ownership new rules to ensure that video on demand services offer invest in and prioritise European content the obligation on television distributors and smart TV manufacturers to pass on broadcasters signal without any interference alteration or modification and the formalisation and consolidation of new forms of collaboration among national regulatory authorities This thorough analysis of the cornerstone of European media policy makes this edited collection a crucial reference for scholars and students of media and cultural industries media law and policy European and EU media policy and technology studies

From Analogue to Digital Radio JP Devlin,2018-07-23 This book examines the history of UK radio from its analogue beginnings to its digital future by highlighting the roles played by the BBC and commercial radio in ensuring the medium s long term success Beginning as a mere technological innovation radio developed into a broadcasting model which has sustained for almost one hundred years The UK model was defined by a public service broadcaster responsible for maintaining standards of broadcasting as well as commercial operators acting illegally and then legally who have sought to exploit radio s economic potential This book aims to show how both these entities have contributed to the success of radio in the UK whether acting competitively or by cooperating in order to ensure radio s survival into the next century This study will appeal to students of media or anyone with a general interest in the history of radio

Germany, Europe, and the Politics of Constraint Klaus Goetz,Kenneth Dyson,2003-10-16 These essays examine the Europeanization of the political system of the Federal Republic of Germany across the polity politics and public policy dimensions The book s 17 chapters focus on three key themes the challenge to the power of Germany to determine the course of the integrationist project and to shape European public policies the increasing constraints in the domestic political arena associated with Europeanization and domestic contestation over both the constitutive politics of the EU and specific policy choices This volume is essential

reading for students of comparative European politics and German studies *Sports Media Rights in the Age of Streaming and Platformisation* Tom Evens, Paul Smith, 2024-12-18 Against a backdrop of increased online distribution of media this book provides an in depth analysis of how the platformisation of television is both shaping and being shaped by the changing sports media market Beginning by looking at the business models and strategies of the major stakeholders involved in the sports broadcasting value chain the authors go on to focus on the challenges and opportunities posed by the growth of OTT delivery for the regulation of sports broadcasting in several key areas including copyright law and piracy competition issues linked to the buying selling and distribution of premium sports content and legislation designed to safeguard coverage of certain national and international sporting events for free to air television Key areas of continuity such as the persistence of national regional markets the importance attached to premium sports rights by rival delivery platforms as a source of market power and the need to update key areas of policy and regulation in order to address challenges posed by the use of OTT delivery are also discussed This book makes use of a range of international and regional examples and case studies not least the Olympic Games and the FIFA World Cup and identifies different strategies employed in the buying selling and distribution of sports rights for all major parties in the sports media value chain including new entrant OTT players traditional pay TV operators public service broadcasters and a range of international sports organizations Providing a complete assessment of the relevance and future effectiveness of key areas of policy and regulation in sports media distribution this book is recommended reading for advanced students and researchers of Sports Media Sports Management and Media Industries *Globalization in State Socialist East Central Europe* Béla Tomka, 2024-07-20 This open access Palgrave Pivot explores four major aspects of globalization foreign trade capital and information flows and the movement of people The book examines how the state socialist countries of East Central Europe fit into the general trend of globalization after WWII It focuses on three specific countries in the region Poland Czechoslovakia and Hungary The study also considers conceptual problems whether recently introduced terms such as alternative globalization and socialist proto globalization are plausible for interpreting state socialist globalization Special attention is paid to the study of continuities and discontinuities in the process of globalization in East Central Europe which is a key issue in current debates This requires a long term perspective so the study covers not only the decades before 1989 but also subsequent developments In doing so the book attempts to find a balance between old and new mainstream interpretations it recognises that East Central European societies experienced considerable globalization during the state socialist era however based on empirical findings instead of alternative or proto globalization the book suggests other notions to conceptualise this process including fragmentation selectivity and unevenness Thus the proposed understanding could also contribute to discussions on globalization beyond East Central Europe **Communications Policy** Stylianos Papathanassopoulos, Ralph M. Negrine, 2021-01-14 Culture politics economics and technology all impact upon policy decisions To investigate the factors that influence communications

policy however one has to go beyond conventional views of media and communication studies and combine these with policy studies Communications Policy Theories and Issues utilizes new research to highlight key debates and developments and addresses a broad spectrum of contemporary concerns regarding the structure and the organization of communications systems in the past present and future Combining theoretical analysis with empirical research findings this comprehensive text explores the contemporary theories and issues in communications policy that affect all democratic societies as they seek to address the challenges of emerging information and communications technologies Featuring contributions from distinguished authors across a range of media disciplines Communications Policy introduces challenging ideas about how communications should be structured in the future and is essential reading for all policy makers researchers and students of communications policy Editors Stylianos Papathanassopoulos is Professor in Media Organization at the Faculty of Communication and Media Studies at the National and Kapodistrian University of Athens He is the author of Television in the 21st Century 2005 Media and Politics 2004 and European Television in the Digital Age Issues Dynamics and Realities 2002 Ralph Negrine is Professor of Political Communication in the Journalism Studies Department at the University of Sheffield His previous books include The Transformation of Political Communication Palgrave 2008 Television and the Press Since 1945 1999 and The Communication of Politics 1996 Contributors Bram Abramson Johannes M Bauer Sandra Braman Dom Caristi Alistair Duff Gisela Gil Egui Alison Harcourt Jackie Harrison Robert W McChesney Serge Proulx Marc Raboy Concetta M Stewart Yan Tian and Roxanne Welters

Down to Earth Lisa Parks, James Schwoch, 2012-06-13 Down to Earth presents the first comprehensive overview of the geopolitical maneuvers financial investments technological innovations and ideological struggles that take place behind the scenes of the satellite industry Satellite projects that have not received extensive coverage microsatellites in China WorldSpace in South Africa SiriusXM the failures of USA 193 and Cosmos 954 and Iridium are explored This collection takes readers on a voyage through a truly global industry from the sites where satellites are launched to the corporate clean rooms where they are designed and along the orbits and paths that satellites traverse Combining a practical introduction to the mechanics of the satellite industry a history of how its practices and technologies have evolved and a sophisticated theoretical analysis of satellite cultures Down to Earth opens up a new space for global media studies

Globalisation, Convergence and European Telecommunications Regulation Peter Humphreys, Seamus Simpson, 2005-01-01 This book provides an up to date account and analysis of the development of the European Union's regulatory framework for telecommunications in a globalising world A key feature is its

treatment of the EU's regulatory policy response to technological convergence in the information and communications sector through its new Electronic Communications Regulatory Framework. The book explores in detail the dynamics of the complex relationship between technological and globalisation pressures, economic interests and European and national policy responses. The authors also examine the achievements and limitations of over twenty years of EU efforts to liberalise markets and to harmonise regulation.
