Europe's Elite 1000 The Ultimate List:

Europe's Elite 1000 Cadogan Publications, 1998-11-01 Described by the international press as one of the world's most exclusive guidebooks *Europe's Elite 1000 2001* Cadogan Publications, Sandra Lane, 2001-06

Kitchen Con Trevor White, 2012-06 In this tartly written hilariously funny insider look at the restaurant business Trevor White offers an impassioned unbiased exposé of the world of dining out. From the most fashionable tables in New York, London, and Paris to local fast food chains, he takes us behind the scenes and demonstrates that all too often we are being conned or cowed by overrated egomaniacal chefs, pretentious waiters, and self-important critics whose cursory evaluations and often prejudiced reviews can sound the death knell of a worthy eatery. A scathing attack on gourmet dogma, White's defiantly populist critique of today's restaurant culture redefines the dining room as a place in which people have the right to be satisfied rather than intimidated. Included too is a fascinating conversation between celebrity chef Anthony Bourdain and the author where both reveal their respective viewpoints on the culinary world. Book jacket

The Making of Urban Europe, 1000-1994 Paul M. HOHENBERG, Lynn Hollen Lees, Paul M. Hohenberg, 2009-06-30 Europe became a land of cities during the last millennium. The story told in this book begins with North Sea and Mediterranean traders sailing away from Dorestad and Amalfi and with warrior kings building castles to fortify their conquests. It tells of the dynamism of textile towns in Flanders and Ireland. While London and Hamburg flourished by reaching out to the world and once vibrant Spanish cities slid into somnolence, a Russian urban network slowly grew to rival that of the West. Later, as the tide of industrialization swept over Europe, the most intense urban striving and then settled back into the merchant cities and baroque capitals of an earlier era. By tracing the large-scale processes of social, economic, and political change within cities as well as the evolving relationships between town and country and between city and city, the authors present an original synthesis of European urbanization within a global context. They divide their study into three time periods, making the early modern era much more than a mere transition from preindustrial to industrial economies. Through both general analyses and incisive case studies, Hohenberg and Lees show how cities originated and what conditioned their early development and later growth. How did urban activity respond to demographic and technological changes? Did the social consequences of urban life begin degradation or inspire integration and cultural renewal? New analytical tools suggested by a systems view of urban relations yield a vivid dual picture of cities both as elements in a regional and national hierarchy of central places and also as junctions in a transnational network for the exchange of goods, information, and influence. A lucid text is supplemented by numerous maps, illustrations, figures, and tables and by substantial bibliography. Both a general and a scholarly audience will find this book engrossing reading.
